GENERAL MILLS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

(1) Background

The accompanying Consolidated Financial Statements of General Mills, Inc. (we, us, our, General Mills, or the Company) have been prepared in accordance with accounting principles generally accepted in the United States (GAAP) for interim financial information and with the rules and regulations for reporting on Form 10-Q. Accordingly, they do not include certain information and disclosures required for comprehensive financial statements. In the opinion of management, all adjustments considered necessary for a fair presentation have been included and are of a normal recurring nature, including the elimination of all intercompany transactions and any noncontrolling and redeemable interests' share of those transactions. Operating results for the quarter ended November 29, 2020, are not necessarily indicative of the results that may be expected for the fiscal year ending May 30, 2021.

These statements should be read in conjunction with the Consolidated Financial Statements and footnotes included in our Annual Report on Form 10-K for the fiscal year ended May 31, 2020. The accounting policies used in preparing these Consolidated Financial Statements are the same as those described in Note 2 to the Consolidated Financial Statements in that Form 10-K with the exception of new requirements adopted in the first quarter of fiscal 2021.

In the first quarter of fiscal 2021, we adopted new accounting requirements related to the measurement of credit losses on financial instruments, including trade receivables. The new standard and subsequent amendments replace the incurred loss impairment model with a forward-looking expected credit loss model, which will generally result in earlier recognition of credit losses. Our allowance for doubtful accounts represents our estimate of expected credit losses related to our trade receivables. We pool our trade receivables based on similar risk characteristics, such as geographic location, business channel, and other account data. To estimate our allowance for doubtful accounts, we leverage information on historical losses, asset-specific risk characteristics, current conditions, and reasonable and supportable forecasts of future conditions. Account balances are written off against the allowance when we deem the amount is uncollectible. We adopted the requirements of the new standard and subsequent amendments using the modified retrospective transition approach, and recorded a decrease to retained earnings of \$5.7 million after-tax.

Certain terms used throughout this report are defined in the "Glossary" section below.

(2) Restructuring, Impairment, and Other Exit Costs

In the six-month period ended November 29, 2020, we did not undertake any new restructuring actions. We recorded \$0.9 million of restructuring charges for previously announced restructuring actions in the second quarter of fiscal 2021 and \$1.9 million in the six-month period ended November 29, 2020. We recorded \$10.5 million of restructuring charges in the second quarter of fiscal 2020 and \$24.8 million in the six-month period ended November 24, 2019. The restructuring charges primarily relate to actions to drive efficiencies in targeted areas of our global supply chain. Certain actions are subject to union negotiations and works counsel consultations, where required. We expect these actions to be completed by the end of fiscal 2022.

We paid net \$5.5 million of cash in the six-month period ended November 29, 2020, related to restructuring actions previously announced. We paid net \$13.5 million of cash in the same period of fiscal 2020.

Restructuring and impairment charges and project-related costs are recorded in our Consolidated Statements of Earnings as follows:

In Millions	Six-Month			
	Quarter Ended		Period Ended

(3) Goodwill and Other Intangible Assets

The components of goodwill and other intangible assets are as follows:

In Millions	Nov. 29, 2020	May 31, 2020
Goodwill	\$ 14,020.4	\$ 13,923.2
Other intangible assets:		
Intangible assets not subject to amortization:		
Brands and other indefinite-lived intangibles	6,611.7	6,561.4
Intangible assets subject to amortization:		
Franchise agreements, customer relationships, and other finite-lived intangibles	812.2	777.8
Less accumulated amortization	(276.4)	(243.4)
Intangible assets subject to amortization, net	535.8	534.4
Other intangible assets	7,147.5	7,095.8
Total	\$ 21,167.9	\$ 21,019.0

Based on the carrying value of finite-lived intangible assets as of November 29, 2020, annual amortization expense for each of the next five fiscal years is estimated to be approximately \$40 million.

The changes in the carrying amount of goodwill during the six-month period ended November 29, 2020 were as follows:

In Millions	North America Retail	Pet	Convenience Stores & Foodservice	Europe & Australia	Asia & Latin America	Joint Ventures	Total
Balance as of May 31, 2020	\$ 6,403.7	\$ 5,300.5	\$ 918.8	\$ 690.7	\$ 203.8	\$ 405.7	\$ 13,923.2
Other activity, primarily							
foreign currency translation	6.8	-	-	53.9	5.0	31.5	97.2
Balance as of Nov. 29, 2020	\$ 6,410.5	\$ 5,300.5	\$ 918.8	\$ 744.6	\$ 208.8	\$ 437.2	\$ 14,020.4

The changes in the carrying amount of other intangible assets during the six-month period ended November 29, 2020 were as follows:

In Millions	Total
Balance as of May 31, 2020	\$ 7,095.8
Other activity, primarily foreign currency translation	51.7
Balance as of Nov. 29, 2020	\$ 7,147.5

Our annual goodwill and indefinite-lived intangible assets impairment test was performed on the first day of the second quarter of fiscal 2021, and we determined there was no impairment of our intangible assets as their related fair values were substantially in excess of the carrying values.

While having significant coverage as of our fiscal 2021 assessment date, the Europe & Australia reporting unit and the *Progreso*, *Green Giant*, and *EPIC* brand intangible assets had risk of decreasing coverage. We will continue to monitor these businesses for potential impairment.

(4) Inventories

The components of inventories were as follows:

In Millions	Nov. 29, 2020	May 31, 2020
Raw materials and packaging	\$ 432.8	\$ 392.2
Finished goods	1,360.4	1,142.6
Grain	113.3	93.6
Excess of FIFO over LIFO cost	(194.0)	(202.1)
Total	\$ 1,712.5	\$ 1,426.3

(5) Risk Management Activities

Many commodities we use in the production and distribution of our products are exposed to market price risks. We utilize derivatives to manage price risk for our principal ingredients and energy costs, including grains (oats, wheat, and corn), oils (principally soybean), dairy products, natural gas, and diesel fuel. Our primary objective when entering into these derivative contracts is to achieve certainty with regard to the future price of commodities purchased for use in our supply chain. We manage our exposures through a combination of purchase orders, long-term contracts with suppliers, exchange-traded futures and options, and over-the-counter options and swaps. We offset our exposures based on current and projected market conditions and generally seek to acquire the inputs at as close to our planned cost as possible.

We use derivatives to manage our exposure to changes in commodity prices. We do not perform the assessments required to achieve hedge accounting for commodity derivative positions. Accordingly, the changes in the values of these derivatives are recorded currently in cost of sales in our Consolidated Statements of Earnings.

Although we do not meet the criteria for cash flow hedge accounting, we believe that these instruments are effective in achieving our objective of providing certainty in the future price of commodities purchased for use in our supply chain. Accordingly, for purposes of measuring segment operating performance, these gains and losses are reported in unallocated corporate items outside of segment operating results until such time that the exposure we are managing affects earnings. At that time we reclassify the gain or loss from unallocated corporate items to segment operating profit, allowing our operating segments to realize the economic effects of the derivative without experiencing any resulting mark-to-market volatility, which remains in unallocated corporate items.

Unallocated corporate items for the quarters and six-month periods ended November 29, 2020, and November 24, 2019, included:

in unallocated corporate items	\$ 45.9	\$ 22.6	\$ 62.3	\$ 7.6

As of November 29, 2020, the net notional value of commodity derivatives was \$319.6 million, of which \$69.8 million related to energy inputs and \$249.8 million related to agricultural inputs. These contracts relate to inputs that generally will be utilized within the next 12 months.

In advance of planned debt financing, in the fourth quarter of fiscal 2020, we entered into \$300.0 million of treasury locks due January 13, 2022 with an average fixed rate of 0.85 percent.

During the third quarter of fiscal 2020, we entered into a €600.0 million interest rate swap to convert our €600.0 million fixed rate notes due January 15, 2026, to a floating rate.

During the second quarter of fiscal 2020, we entered into a \$500.0 million interest rate swap to convert a portion of our \$850.0 million floating-rate notes due April 16, 2021, to a fixed rate.

The fair values of the derivative positions used in our risk management activities and other assets recorded at fair value were not material as of November 29, 2020, and were Level 1 or Level 2 assets and liabilities in the fair value hierarchy. We did not significantly change our valuation techniques from prior periods.

We offer certain suppliers access to third party services that allow them to view our scheduled payments online. The third party services also allow suppliers to finance advances on our scheduled payments at the sole discretion of the supplier and the third party. We have no economic interest in these financing arrangements and no direct relationship with the suppliers, the third parties, or any financial institutions concerning these services. All of our accounts payable remain as obligations to our suppliers as stated in our supplier agreements. As of November 29, 2020, \$1,405.6 million of our total accounts payable were payable to suppliers who utilize these third party services.

(6) Debt

The components of notes payable were as follows:

In Millions	Nov. 29, 2020		May 31, 2020	
U.S. commercial paper	\$	-	\$	99.9
Financial institutions		126.2		179.1
Total	\$	126.2	\$	279.0

To ensure availability of funds, we maintain bank credit lines and have commercial paper programs available to us in the United States and Europe. We also have committed and asset-backed credit lines that support our foreign operations.

The following table details the fee-paid committed and uncommitted credit lines we had available as of November 29, 2020:

In Billions	Facility Amount		Borrowed Amount	
Credit facility expiring:				
May 2022	\$	2.7	\$	-
September 2022		<u>0.2</u>		<u>-</u>
Total committed credit facilities		2.9		-
Uncommitted credit facilities		<u>0.7</u>		<u>0.1</u>
Total committed and uncommitted credit facilities	\$	3.6	\$	0.1

The credit facilities contain covenants, including a requirement to maintain a fixed charge coverage ratio of at least 2.5 times. We were in compliance with all credit facility covenants as of November 29, 2020.

Long-Term Debt

The fair values and carrying amounts of long-term debt, including the current portion, were \$15,421.1 million and \$13,838.2 million, respectively, as of November 29, 2020. The fair value of long-term debt was estimated using market quotations and discounted cash flows based on our current incremental borrowing rates for similar types of instruments. Long-term debt is a Level 2 liability in the fair value hierarchy.

In the second quarter of fiscal 2021, we issued €500.0 million principal amount of 0.0 percent fixed-rate notes due November 16, 2021. We used the net proceeds to repay €200.0 million of 0.0 percent fixed-rate notes and for general corporate purposes.

In the first quarter of fiscal 2021, we issued €500.0 million principal amount of 0.0 percent fixed-rate notes due August 21, 2021. We used the net proceeds, together with cash on hand, to repay €500.0 million of 2.1 percent fixed-rate notes.

In the fourth quarter of fiscal 2020, we issued \$750.0 million of 2.875 percent fixed-rate notes due April 15, 2030. We used the net proceeds to repay a portion of our outstanding commercial paper and for general corporate purposes.

In the third quarter of fiscal 2020, we issued €600.0 million of 0.45 percent fixed-rate notes due January 15, 2026 and €200.0 million of 0.0 percent fixed-rate notes due November 16, 2020. We used the net proceeds, together with cash on hand, to repay €500.0 million of floating-rate notes and €300.0 million of 0.0 percent fixed-rate notes.

In the second quarter of fiscal 2020, we repaid \$500.0 million of 2.2 percent fixed-rate notes with proceeds from commercial paper.

Certain of our long-term debt agreements contain restrictive covenants. As of November 29, 2020, we were in compliance with all of these covenants.

(7) Redeemable and Noncontrolling Interests

We have a 51 percent controlling interest in Yoplait SAS and a 50 percent interest in Yoplait Marques SNC and Liberté Marques Sàrl. Sodiaal International (Sodiaal) holds the remaining interests in each of the entities. On the acquisition date, we recorded the \$904.4 million fair value of Sodiaal’s 49 percent euro-denominated interest in Yoplait SAS as a redeemable interest on our Consolidated Balance Sheets. Sodiaal has the ability to put all or a portion of its redeemable interest to us at fair value once per year, up to three times before December 2024. We adjust the value of the redeemable interest through additional paid-in capital on our Consolidated Balance Sheets quarterly to the redeemable interest’s redemption value, which approximates its fair value. Yoplait SAS pays dividends annually if it meets certain financial metrics set forth in its shareholders’ agreement. As of November 29, 2020, the redemption value of the euro-denominated redeemable interest was \$587.7 million.

A subsidiary of Yoplait SAS has an exclusive milk supply agreement for its European operations with Sodiaal through July 1, 2021. Net purchases totaled \$101.0 million for the six-month period ended November 29, 2020, and \$95.8 million for the six-month period ended November 24, 2019.

On the acquisition dates, we recorded the \$281.4 million fair value of Sodiaal’s 50 percent euro-denominated interest in Yoplait Marques SNC and 50 percent Canadian dollar-denominated interest in Liberté Marques Sàrl as noncontrolling interests on our Consolidated Balance Sheets. Yoplait Marques SNC earns a royalty stream through a licensing agreement with Yoplait SAS for the rights to *Yoplait* and related trademarks. Liberté Marques Sàrl earns a royalty stream through licensing agreements with certain Yoplait group companies for the rights to *Liberté* and related trademarks. These entities pay dividends annually based on their available cash as of their fiscal year end.

The third-party holder of the General Mills Cereals, LLC (GMC) Class A Interests receives quarterly preferred distributions from available net income based on the application of a floating preferred return rate to the holder’s capital account balance established in the most recent mark-to-market valuation (currently \$251.5 million). On June 1, 2018, the floating preferred return rate on GMC’s Class A Interests was reset to the sum of three-month LIBOR plus 142.5 basis points. The preferred return rate is adjusted every three years through a negotiated agreement with the Class A Interest holder or through a remarketing auction.

Our noncontrolling interests contain restrictive covenants. As of November 29, 2020, we were in compliance with all of these covenants.

(9) Stock Plans

We have various stock-based compensation programs under which awards, including stock options, restricted stock, restricted stock units, and performance awards, may be granted to employees and non-employee directors. These programs and related accounting are described in Note 12 to the Consolidated Financial Statements included in our Annual Report on Form 10-K for the fiscal year ended May 31, 2020.

Compensation expense related to stock-based payments recognized in the Consolidated Statements of Earnings was as follows:

In Millions	Quarter Ended		Six-Month Period Ended	
	Nov. 29, 2020	Nov. 24, 2019	Nov. 29, 2020	Nov. 24, 2019
Compensation expense related to stock-based payments	\$ 20.4	\$ 19.0	\$ 48.7	\$ 47.8

We recognized windfall tax benefits from stock-based payments in income tax expense in our Consolidated Statements of Earnings of \$0.6 million for the second quarter of fiscal 2021 and \$6.8 million for the six-month period ended November 29, 2020. We recognized \$1.6 million for the second quarter of fiscal 2020 and \$8.2 million for the six-month period ended November 24, 2019.

As of November 29, 2020, unrecognized compensation expense related to non-vested stock options, restricted stock units, and performance share units was \$143.7 million. This expense will be recognized over 23 months, on average.

Net cash proceeds from the exercise of stock options less shares used for withholding taxes and the intrinsic value of options exercised were as follows:

In Millions	Six-Month Period Ended	
	Nov. 29, 2020	Nov. 24, 2019
Net cash proceeds	\$ 31.1	\$ 68.6
Intrinsic value of options exercised	\$ 19.6	\$ 36.5

We estimate the fair value of each stock option on the grant date using a Black-Scholes option-pricing model. Black-Scholes option-pricing models require us to make predictive assumptions regarding future stock price volatility, employee exercise behavior, and dividend yield. We estimate our future stock price volatility using the historical volatility over the expected term of the option, excluding time periods of volatility we believe a marketplace participant would exclude in estimating our stock price volatility. We also have considered, but did not use, implied volatility in our estimate, because trading activity in options on our stock, especially those with tenors of greater than 6 months, is insufficient to provide a reliable measure of expected volatility. Our method of selecting the other valuation assumptions is explained in Note 12 to the Consolidated Financial Statements included in our Annual Report on Form 10-K for the fiscal year ended May 31, 2020.

The estimated fair values of stock options granted and the assumptions used for the Black-Scholes option-pricing model were as follows:

	Six-Month Period Ended	
	Nov. 29, 2020	Nov. 24, 2019
Estimated fair values of stock options granted	\$ 8.03	\$ 7.10
Assumptions:

Expected term	8.5 years	8.5 years
Expected volatility	19.5 %	17.4 %
Dividend yield	3.3 %	3.6 %

The total grant date fair value of restricted stock unit and performance awards that vested during the period follows:

In Millions	Six-Month Period Ended	
	Nov. 29, 2020	Nov. 24, 2019
Total grant date fair value	\$ 67.4	\$ 50.7

(13) Income Taxes

During the first quarter of fiscal 2020, we reorganized certain wholly owned subsidiaries, including the movement of certain assets between legal entities. As a result of these actions, we recorded a \$53.1 million decrease to our deferred income tax liabilities, with a corresponding discrete, non-cash reduction to income taxes in the first quarter of fiscal 2020.

(14) Contingencies

During fiscal 2020, we received notice from the tax authorities of the State of São Paulo, Brazil regarding our compliance with its state sales tax requirements. As a result, we have been assessed additional state sales taxes, interest, and penalties. We believe that we have meritorious defenses against this claim and will vigorously defend our position. As of November 29, 2020, we are unable to estimate any possible loss and have not recorded a loss contingency for this matter.

We operate in the packaged foods industry. Our operating segments are as follows: North America Retail; Europe & Australia; Pet; Convenience Stores & Foodservice; and Asia & Latin America.

Our North America Retail operating segment reflects business with a wide variety of grocery stores, mass merchandisers, membership stores, natural food chains, drug, dollar and discount chains, and e-commerce grocery providers. Our product categories in this business segment are ready-to-eat cereals, refrigerated yogurt, soup, meal kits, refrigerated and frozen dough products, dessert and baking mixes, frozen pizza and pizza snacks, snack bars, fruit snacks, savory snacks, and a wide variety of organic products including ready-to-eat cereal, frozen and shelf-stable vegetables, meal kits, fruit snacks, snack bars, and refrigerated yogurt.

Our Europe & Australia operating segment reflects retail and foodservice businesses in the greater Europe and Australia regions. Our product categories include refrigerated yogurt, meal kits, snack bars, super-premium ice cream, refrigerated and frozen dough products, shelf stable vegetables, and dessert and baking mixes. Revenues from franchise fees are reported in the region or country where the franchisee is located.

Our Pet operating segment includes pet food products sold primarily in the United States in national pet superstore chains, e-commerce retailers, grocery stores, regional pet store chains, mass merchandisers, and veterinary clinics and hospitals. Our product categories include dog and cat food (dry foods, wet foods, and treats) made with whole meats, fruits, and vegetables and other high-quality natural ingredients. Our tailored pet product offerings address specific dietary, lifestyle, and life-stage needs and span different product types, diet types, breed sizes for dogs, lifestages, flavors, product functions and textures, and cuts for wet foods.

Our major product categories in our Convenience Stores & Foodservice operating segment are ready-to-eat cereals, snacks, refrigerated yogurt, frozen meals, unbaked and fully baked frozen dough products, baking mixes, and bakery flour. Many products we sell are branded to the consumer and nearly all are branded to our customers. We sell to distributors and operators in many customer channels including foodservice, convenience stores, vending, and supermarket bakeries in the United States.

Our Asia & Latin America operating segment consists of retail and foodservice businesses in the greater Asia and South America regions. Our product categories include super-premium ice cream and frozen desserts, meal kits, dessert and baking mixes, snack bars, salty snacks, refrigerated and frozen dough products, and wellness beverages. We also sell super-premium ice cream and frozen desserts directly to consumers through owned retail shops. Our Asia & Latin America segment also includes products manufactured in the United States for export, mainly to Caribbean and Latin American markets, as well as products we manufacture for sale to our international joint ventures. Revenues from export activities and franchise fees are reported in the region or country where the end customer or franchisee is located.

Operating profit for these segments excludes unallocated corporate items, gain or loss on divestitures, and restructuring, impairment, and other exit costs. Unallocated corporate items include corporate overhead expenses, variances to planned North American employee benefits and incentives, contributions to the General Mills Foundation, asset and liability remeasurement impact of hyperinflationary economies, restructuring initiative project-related costs, and other items that are not part of our measurement of segment operating performance. These include gains and losses arising from the revaluation of certain grain inventories and gains and losses from mark-to-market valuation of certain commodity positions until passed back to our operating segments. These items affecting operating profit are centrally managed at the corporate level and are excluded from the measure of segment profitability reviewed by executive management. Under our supply chain organization, our manufacturing, warehouse, and distribution activities are substantially integrated across our operations in order to maximize efficiency and productivity. As a result, fixed assets and depreciation and amortization expenses are neither maintained nor available by operating segment.

INTRODUCTION

This Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) should be read in conjunction with the MD&A included in our Annual Report on Form 10-K for the fiscal year ended May 31, 2020 for important background regarding, among other things, our key business drivers. Significant trademarks and service marks used in our business are set forth in *italics* herein. Certain terms used throughout this report are defined in the "Glossary" section below.

As the COVID-19 pandemic continues, we expect the largest factor impacting our fiscal 2021 performance will be the relative balance of at-home versus away-from-home consumer food demand. At-home food demand has remained elevated relative to pre-pandemic levels, though it has moderated from the fourth quarter of fiscal 2020. We will continue to evaluate the nature and extent of the impact to our business and consolidated results of operations.

CONSOLIDATED RESULTS OF OPERATIONSSecond Quarter Results

In the second quarter of fiscal 2021, net sales and organic net sales increased 7 percent compared to the same period last year. Operating profit margin of 19.4 percent increased 110 basis points, primarily driven by favorable net price realization and mix, a favorable change to the mark-to-market valuation of certain commodity positions and grain inventories, and favorable corporate investment activity, partially offset by higher input costs and higher selling, general, and administrative (SG&A) expenses. Adjusted operating profit margin decreased 10 basis points to 18.3 percent compared to the same period last year, primarily driven by higher input costs and higher SG&A expenses, partially offset by favorable net price realization and mix. Diluted earnings per share of \$1.11 increased 17 percent in the second quarter of fiscal 2021. Adjusted diluted earnings per share of \$1.06 increased 9 percent on a constant-currency basis compared to the second quarter of fiscal 2020. See the "Non-GAAP Measures" section below for a description of our use of measures not defined by GAAP.

A summary of our consolidated financial results for the second quarter of fiscal 2021 follows:

Quarter Ended Nov. 29, 2020	In millions, except per share	Quarter Ended Nov. 29, 2020 vs. Nov. 24, 2019	Percent	
			of Net Sales	Constant- Currency Growth (a)

Note: Table may not foot due to rounding.

(a) Measured in tons based on the stated weight of our product shipments.

The 7 percent increase in net sales in the second quarter of fiscal 2021 reflects increased contributions from volume growth and favorable net price realization and mix.

Components of organic net sales growth are shown in the following table:

Quarter Ended Nov. 29, 2020 vs.
Quarter Ended Nov. 24, 2019

Contributions from organic volume growth (a)	4 pts
Organic net price realization and mix	3 pts
Organic net sales growth	7 pts
Foreign currency exchange	Flat
Net sales growth	7 pts

Note: Table may not foot due to rounding.

(a) Measured in tons based on the stated weight of our product shipments.

Organic net sales increased 7 percent in the second quarter of fiscal 2021 primarily driven by increased contributions from organic volume growth and favorable organic net price realization and mix.

Cost of sales increased \$147 million to \$2,998 million in the second quarter of fiscal 2021 compared to the same period in fiscal 2020. The increase was primarily driven by a \$102 million increase due to higher volume and an \$81 million increase attributable to product rate and mix. We recorded a \$46 million net decrease in cost of sales related to the mark-to-market valuation of certain commodity positions and grain inventories in the second quarter of fiscal 2021 compared to a net decrease of \$23 million in the second quarter of fiscal 2020. In addition, we recorded an insignificant amount of restructuring charges in cost of sales in the second quarter of fiscal 2021 compared to \$12 million of restructuring charges and \$1 million of restructuring initiative project-related costs in the second quarter of fiscal 2020 (please refer to Note 2 to the Consolidated Financial Statements in Part I, Item 1 of this report).

SG&A expenses increased \$45 million to \$804 million in the second quarter of fiscal 2021 compared to the same period in fiscal 2020, primarily reflecting increased media and advertising expenses and increased administrative expenses. SG&A expenses as a percent of net sales in the second quarter of fiscal 2021 decreased 20 basis points compared to the second quarter of fiscal 2020.

Restructuring, impairment, and other exit costs were insignificant in the second quarter of fiscal 2021 compared to a \$1 million net recovery in the same period last year.

Benefit plan non-service income totaled \$33 million in the second quarter of fiscal 2021 compared to \$30 million in the same period last year, primarily reflecting lower interest costs, partially offset by lower expected return on plan assets.

Interest, net for the second quarter of fiscal 2021 totaled \$101 million, down \$19 million from the second quarter of fiscal 2020, primarily driven by lower average debt levels.

The **effective tax rate** for the second quarter of fiscal 2021 was 22.3 percent compared to 21.5 percent for the second quarter of fiscal 2020. The 0.8 percentage point increase was primarily due to certain nonrecurring discrete tax benefits recorded in the second quarter of fiscal 2020, partially offset by changes in earnings mix by jurisdiction in fiscal 2021. Our adjusted effective tax rate was 22.3 percent in the quarter ended November 29, 2020 compared to 21.9 percent in the same period last year (see the “Non-GAAP Measures” section below for a description of our use of measures not defined by GAAP).

After-tax earnings from joint ventures for the second quarter of fiscal 2021 increased to \$36 million compared to \$25 million in the same period in fiscal 2020, primarily driven by higher net sales at Cereal Partners Worldwide (CPW) and Häagen-Dazs Japan, Inc. (HDJ). On a constant-currency basis, after-tax earnings from joint ventures increased 47 percent (see the “Non-GAAP Measures” section below for a description of our use of measures not defined by GAAP). The components of our joint ventures’ net sales growth are shown in the following table:

Quarter Ended Nov. 29, 2020 vs.
Quarter Ended Nov. 24, 2019

	CPW	HDJ	Total
Contributions from volume growth (a)	6 pts	8 pts

(a) Measured in tons based on the stated weight of our product shipments.

Average diluted shares outstanding increased by 7 million in the second quarter of fiscal 2021 from the same period a year ago due to option exercises.

Six-Month Results

In the six-month period ended November 29, 2020, net sales and organic net sales increased 8 percent compared to the same period last year. Operating profit margin of 19.5 percent increased 200 basis points, primarily driven by favorable net price realization and mix, favorable mark-to-market valuation of certain commodity positions and grain inventories, lower restructuring charges, and a larger increase in net sales as compared to the increase in SG&A expenses, partially offset by higher input costs. Adjusted operating profit margin increased 90 basis points to 18.7 percent, primarily driven by favorable net price realization and mix and a larger increase in net sales as compared to the increase in SG&A expenses, partially offset by higher input costs. Diluted earnings per share of \$2.14 increased 19 percent in the six-month period ended November 29, 2020, and adjusted diluted earnings per share of \$2.06 increased 17 percent on a constant-currency basis compared to the same period last year (see the “Non-GAAP Measures” section below for a description of our use of measures not defined by GAAP).

A summary of our consolidated financial results for the six-month period ended November 29, 2020, follows:

Six-Month Period Ended Nov. 29, 2020	In millions, except per share	Six-Month Period Ended Nov. 29, 2020 vs. Nov. 24, 2019	Percent of Net Sales	Constant- Currency Growth (a)

Note: Table may not foot due to rounding.

(a) Measured in tons based on the stated weight of our product shipments.

The 8 percent increase in net sales for the six-month period ended November 29, 2020, reflects increased contributions from volume growth and favorable net price realization and mix.

Components of organic net sales growth are shown in the following table:

**Six-Month Period Ended Nov. 29, 2020 vs.
Six-Month Period Ended Nov. 24, 2019**

Contributions from organic volume growth (a)	6 pts
Organic net price realization and mix	3 pts
Organic net sales growth	8 pts
Foreign currency exchange	Flat
Net sales growth	8 pts

Note: Table may not foot due to rounding

(a) Measured in tons based on the stated weight of our product shipments.

Organic net sales increased 8 percent in the six-month period ended November 29, 2020 primarily driven by increased contributions from organic volume growth and favorable organic net price realization and mix.

Cost of sales increased \$307 million to \$5,772 in the six-month period ended November 29, 2020 compared to the same period in fiscal 2020. The increase was primarily driven by a \$298 million increase due to higher volume and a \$74 million increase attributable to product rate and mix. We recorded a \$62 million net decrease in cost of sales related to the mark-to-market valuation of certain commodity positions and grain inventories in the six-month period ended November 29, 2020, compared to a net decrease of \$8 million in the six-month period ended November 24, 2019. In the six-month period ended November 29, 2020, we recorded a \$7 million charge related to a product recall in our international Green Giant business. In addition, we recorded \$1 million of restructuring charges in cost of sales for the six-month period ended November 29, 2020 compared to \$18 million of restructuring charges and \$1 million of restructuring initiative project-related costs in the same period last year (please refer to Note 2 to the Consolidated Financial Statements in Part I, Item 1 of this report).

SG&A expenses increased \$62 million to \$1,540 million in the six-month period ended November 29, 2020, compared to the same period in fiscal 2020. The increase in SG&A expenses primarily reflects higher media and advertising expenses, increased other consumer-related expenses, and increased administrative expenses. SG&A expenses as a percent of net sales in the six-month period ended November 29, 2020, decreased 50 basis points compared with the same period of fiscal 2020.

Restructuring, impairment, and other exit costs totaled \$1 million in the six-month period ended November 29, 2020, compared to \$7 million in the same period last year.

Benefit plan non-service income totaled \$66 million in the six-month period ended November 29, 2020, compared to \$60 million in the same period last year, primarily reflecting lower interest costs, partially offset by lower expected return on plan assets.

Interest, net for the six-month period ended November 29, 2020, decreased \$26 million to \$212 million compared to the same period of fiscal 2020, primarily driven by lower average debt levels.

The **effective tax rate** for the six-month period ended November 29, 2020, was 22.2 percent compared to 17.2 percent for the six-month period ended November 24, 2019. The 5.0 percentage point increase was primarily due to the net benefit related to the reorganization of certain wholly owned subsidiaries and certain nonrecurring discrete tax benefits in fiscal 2020, partially offset by changes in earnings mix by jurisdiction in fiscal 2021. Our adjusted effective tax rate was 22.1 percent in the six-month period ended November 29, 2020, compared to 21.5 percent in the same period last year (see the “Non-GAAP Measures” section below for a description of our use of measures not defined by GAAP). The 0.6 percentage point increase was primarily due to certain nonrecurring discrete tax benefits in fiscal 2020, partially offset by changes in earnings mix by jurisdiction in fiscal 2021.

After-tax earnings from joint ventures increased to \$78 million for the six-month period ended November 29, 2020 compared to \$47 million in the same period in fiscal 2020, primarily driven by higher net sales and lower input costs at CPW. On a constant-currency basis, after-tax earnings from joint ventures increased 66 percent (see the “Non-GAAP Measures” section below for a description of our use of measures not defined by GAAP). The components of our joint ventures’ net sales growth are shown in the following table:

Six-Month Period Ended Nov. 29, 2020 vs. Six-Month Period Ended Nov. 24, 2019	CPW	HDJ	Total
Contributions from volume growth (a)	6 pts	1 pt

The components of Asia & Latin America organic net sales growth are shown in the following table:

	Quarter Ended	Six-Month Period Ended
	Nov. 29, 2020	Nov. 29, 2020
Contributions from organic volume growth (a)	8 pts	14 pts
Organic net price realization and mix	1 pt	(1)pt
Organic net sales growth	10 pts	13 pts
Foreign currency exchange	(5)pts	(7)pts
Net sales growth	5 pts	6 pts

Note: Table may not foot due to rounding.

(a) Measured in tons based on the stated weight of our product shipments.

Asia & Latin America organic net sales increased 10 percent in the second quarter of fiscal 2021 compared to the same period in fiscal 2020, driven by an increase in contributions from organic volume growth and favorable organic net price realization and mix.

Asia & Latin America organic net sales increased 13 percent in the six-month period ended November 29, 2020 compared to the same period in fiscal 2020, driven by an increase in contributions from organic volume growth, partially offset by unfavorable organic net price realization and mix.

Segment operating profit increased 25 percent to \$30 million in the second quarter of fiscal 2021 from \$24 million in the same period in fiscal 2020, primarily driven by an increase in contributions from volume growth, favorable net price realization and mix, and favorable foreign currency exchange, partially offset by higher SG&A expenses, including increased media and advertising expenses, and higher input costs. Segment operating profit increased 8 percent on a constant-currency basis in the second quarter of fiscal 2021 compared to the same period in fiscal 2020 (see the “Non-GAAP Measures” section below for our use of this measure not defined by GAAP).

Segment operating profit increased 46 percent to \$50 million in the six-month period ended November 29, 2020 from \$34 million in the same period in fiscal 2020, primarily driven by an increase in contributions from volume growth and favorable foreign currency exchange, partially offset by unfavorable net price realization and mix and higher SG&A expenses, including increased media and advertising expenses. Segment operating profit increased 26 percent on a constant-currency basis in the six-month period ended November 29, 2020 compared to the same period in fiscal 2020 (see the “Non-GAAP Measures” section below for our use of this measure not defined by GAAP).

UNALLOCATED CORPORATE ITEMS

Unallocated corporate expense totaled \$48 million in the second quarter of fiscal 2021 compared to \$84 million in the same period in fiscal 2020. We recorded a \$46 million net decrease in expense related to the mark-to-market valuation of certain commodity positions and grain inventories in the second quarter of fiscal 2021 compared to a \$23 million net decrease in expense in the same period last year. We recorded \$6 million of net gains related to valuation adjustments of certain corporate investments in the second quarter of fiscal 2021 compared to \$13 million of net losses related to valuation adjustments and the loss on the sale of certain corporate investments in the second quarter of fiscal 2020. We recorded an immaterial amount of restructuring charges in cost of sales in the second quarter of fiscal 2021 compared to \$12 million of restructuring charges and \$1 million of restructuring initiative project-related costs recorded in cost of sales in the same period last year.

Unallocated corporate expense totaled \$123 million in the six-month period ended November 29, 2020, compared to \$183 million in the same period last year. We recorded a \$62 million net decrease in expense related to the mark-to-market valuation of certain commodity positions and grain inventories in the six-month period ended November 29, 2020, compared to an \$8 million net decrease in expense in the same period last year. We recorded \$19 million of net gains related to certain investment valuation adjustments in the six-month period ended November 29, 2020, compared to \$4 million of net losses and the loss on sale of certain corporate investments in the same period last year. In the six-month period ended November 29, 2020, we recorded \$1 million of restructuring charges in cost of sales, compared to \$18 million of restructuring charges and \$1 million of restructuring initiative project-related costs recorded in cost of sales in the same period last year. We also recorded a \$7 million charge related to a product recall in our international Green Giant business in the six-month period ended November 29, 2020.

LIQUIDITY

During the six-month period ended November 29, 2020, cash provided by operations was \$1,427 million compared to \$1,457 million in the same period last year. The \$30 million decrease was primarily driven by a \$155 million change in current assets and liabilities and an \$89 million change in other non-cash items in net earnings, partially offset by a \$222 million increase in net earnings. The

\$155 million change in current assets and liabilities was primarily driven by a \$92 million change in inventory and an \$80 million change in timing of accounts payable.

Cash used by investing activities during the six-month period ended November 29, 2020, was \$211 million compared to \$163 million for the same period in fiscal 2020. Investments of \$226 million in land, buildings, and equipment in the six-month period ended November 29, 2020, increased by \$68 million compared to the same period a year ago.

Cash used by financing activities during the six-month period ended November 29, 2020, was \$354 million compared to \$1,180 million in the same period in fiscal 2020. We had \$257 million of net debt issuances in the six-month period ended November 29, 2020, compared to \$629 million of net debt repayments in the same period a year ago. We paid \$618 million of dividends in the six-month period ended November 29, 2020, compared to \$596 million in the same period last year.

Our sources of liquidity were not materially impacted by the COVID-19 pandemic.

As of November 29, 2020, we had \$749 million of cash and cash equivalents held in foreign jurisdictions. In anticipation of repatriating funds from foreign jurisdictions, we record local country withholding taxes on our international earnings, as applicable. As such, we may repatriate our cash and cash equivalents held by our foreign subsidiaries without such funds being subject to further U.S. income tax liability. Earnings prior to fiscal 2018 from our foreign subsidiaries remain permanently reinvested in those jurisdictions.

CAPITAL RESOURCES

Our capital structure was as follows:

In Millions	Nov. 29, 2020	May 31, 2020
Notes payable	\$ 126.2	\$ 279.0
Current portion of long-term debt	2,885.7	2,331.5
Long-term debt	10,952.5	10,929.0
Total debt	13,964.4	13,539.5
Redeemable interest	587.7	544.6
Noncontrolling interests	302.6	291.0
Stockholders' equity	8,550.0	8,058.5
Total capital	\$ 23,404.7	\$ 22,433.6

The following table details the fee-paid committed and uncommitted credit lines we had available as of November 29, 2020:

In Billions	Facility Amount	Borrowed Amount
Credit facility expiring:		
May 2022	\$ 2.7	\$ -
September 2022	0.2	-
Total committed credit facilities	2.9	-
Uncommitted credit facilities	0.7	0.1
Total committed and uncommitted credit facilities	\$ 3.6	\$ 0.1

We have a 51 percent controlling interest in Yoplait SAS and a 50 percent interest in Yoplait Marques SNC and Liberté Marques Sàrl. Sodiaal International (Sodiaal) holds the remaining interests in each of these entities. We consolidate these entities into our consolidated financial statements. We record Sodiaal’s 50 percent interests in Yoplait Marques SNC and Liberté Marques Sàrl as noncontrolling interests, and its 49 percent interest in Yoplait SAS as a redeemable interest on our Consolidated Balance Sheets. Sodiaal has the ability to put all or a portion of its redeemable interest to us at fair value once per year, up to three times before December 2024. As of November 29, 2020, the redemption value of the redeemable interest was \$588 million, which approximates its fair value.

The third-party holder of the General Mills Cereals, LLC (GMC) Class A Interests receives quarterly preferred distributions from available net income based on the application of a floating preferred return rate to the holder’s capital account balance established in the most recent mark-to-market valuation (currently \$252 million). On June 1, 2018, the floating preferred return rate on GMC’s Class A Interests was reset to the sum of three-month LIBOR plus 142.5 basis points. The preferred return rate is adjusted every three years through a negotiated agreement with the Class A Interest holder or through a remarketing auction.

We have an option to purchase the Class A Interests for consideration equal to the then current capital account value, plus any unpaid preferred return and the prescribed make-whole amount. If we purchase these interests, any change in the third-party holder’s capital account from its original value will be charged directly to retained earnings and will increase or decrease the net earnings used to calculate EPS in that period.

To ensure availability of funds, we maintain bank credit lines and have commercial paper programs available to us in the United States and Europe. In response to uncertainty surrounding the availability and cost of commercial paper borrowings as a result of the COVID-19 pandemic, we issued \$750 million of fixed-rate notes in April 2020 and reduced our borrowings under commercial paper programs. As the COVID-19 pandemic evolves, we will continue to evaluate its impact to our sources of liquidity. We also have uncommitted and asset-backed credit lines that support our foreign operations.

Certain of our long-term debt agreements, our credit facilities, and our noncontrolling interests contain restrictive covenants. As of November 29, 2020, we were in compliance with all of these covenants.

We have \$2,886 million of long-term debt maturing in the next 12 months that is classified as current, including \$850 million of floating-rate notes due April 2021, \$600 million of 3.2 percent notes due April 2021, €200 million of 2.2 percent fixed-rate notes due June 2021, €500 million of 0.0 percent fixed-rate notes due August 2021, and €500 million of 0.0 percent fixed-rate notes due November 2021. We believe that cash flows from operations, together with available short- and long-term debt financing, will be adequate to meet our liquidity and capital needs for at least the next 12 months.

OFF-BALANCE SHEET ARRANGEMENTS AND CONTRACTUAL OBLIGATIONS

There were no material changes outside the ordinary course of our business in our contractual obligations or off-balance sheet arrangements during the second quarter of fiscal 2021.

SIGNIFICANT ACCOUNTING ESTIMATES

Our significant accounting policies are described in Note 2 to the Consolidated Financial Statements included in our Annual Report on Form 10-K for the fiscal year ended May 31, 2020. The accounting policies used in preparing our interim fiscal 2021 Consolidated Financial Statements are the same as those described in our Form 10-K with the exception of the new accounting requirements adopted in the first quarter of fiscal 2021 related to the measurement of credit losses on financial instruments, including trade receivables. Please see Note 1 to the Consolidated Financial Statements in Part I, Item 1 of this report for additional information.

Our significant accounting estimates are those that have meaningful impact on the reporting of our financial condition and results of operations. These estimates include our accounting for revenue recognition, valuation of long-lived assets, intangible assets, redeemable interest, stock-based compensation, income taxes, and defined benefit pension, other postretirement benefit, and postemployment benefit plans. The assumptions and methodologies used in the determination of those estimates as of November 29, 2020, are the same as those described in our Annual Report on Form 10-K for the fiscal year ended May 31, 2020.

Our annual goodwill and indefinite-lived intangible assets impairment test was performed on the first day of the second quarter of fiscal 2021, and we determined there was no impairment of our intangible assets as their related fair values were substantially in excess of the carrying values.

While having significant coverage as of our fiscal 2021 assessment date, the Europe & Australia reporting unit and the *Progreso*, *Green Giant*, and *EPIC* brand intangible assets had risk of decreasing coverage. We will continue to monitor these businesses for potential impairment.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In March 2020, the Financial Accounting Standards Board (FASB) issued optional accounting guidance for a limited period of time to ease the potential burden in accounting for reference rate reform. The new standard provides expedients and exceptions to existing accounting requirements for contract modifications and hedge accounting related to transitioning from discontinued reference rates, such as LIBOR, to alternative reference rates, if certain criteria are met. The new accounting requirements can be applied as of the beginning of the interim period including March 12, 2020, or any date thereafter, through December 31, 2022. We are in the process of reviewing our contracts and arrangements that will be affected by a discontinued reference rate and are analyzing the impact of this guidance on our results of operations and financial position.

NON-GAAP MEASURES

We have included in this report measures of financial performance that are not defined by GAAP. We believe that these measures provide useful information to investors, and include these measures in other communications to investors.

For each of these non-GAAP financial measures, we are providing below a reconciliation of the differences between the non-GAAP measure and the most directly comparable GAAP measure, an explanation of why we believe the non-GAAP measure provides useful information to investors, and any additional material purposes for which our management or Board of Directors uses the non-GAAP measure. These non-GAAP measures should be viewed in addition to, and not in lieu of, the comparable GAAP measure.

Several measures below are presented on an adjusted basis. The adjustments are either items resulting from infrequently occurring events or items that, in management's judgment, significantly affect the year-to-year assessment of operating results.

Organic Net Sales Growth Rates

We provide organic net sales growth rates for our consolidated net sales and segment net sales. This measure is used in reporting to our Board of Directors and executive management and as a component of the measurement of our performance for incentive compensation purposes. We believe that organic net sales growth rates provide useful information to investors because they provide transparency to underlying performance in our net sales by excluding the effect that foreign currency exchange rate fluctuations, acquisitions, divestitures, and a 53rd week, when applicable, have on year-to-year comparability. A reconciliation of these measures to reported net sales growth rates, the relevant GAAP measures, are included in our Consolidated Results of Operations and Results of Segment Operations discussions in the MD&A above.

Adjusted Operating Profit as a Percent of Net Sales (Adjusted Operating Profit Margin)

We believe this measure provides useful information to investors because it is important for assessing our operating profit margin on a comparable basis.

Our adjusted operating profit margins are calculated as follows:

In Millions	Quarter Ended			
	Nov. 29, 2020		Nov. 24, 2019

- (b) Valuation adjustments of certain corporate investments in fiscal 2021. Valuation adjustments and the loss on sale of certain corporate investments in fiscal 2020.
- (c) Restructuring and project-related charges for previously announced restructuring actions. Please see Note 2 to the Consolidated Financial Statements in Part I, Item 1 of this report.
- (d) Product recall costs related to our international Green Giant business.

Adjusted Operating Profit Growth on a Constant-currency Basis

This measure is used in reporting to our Board of Directors and executive management and as a component of the measurement of our performance for incentive compensation purposes. We believe that this measure provides useful information to investors because it is the operating profit measure we use to evaluate operating profit performance on a comparable year-to-year basis. The measure is evaluated on a constant-currency basis by excluding the effect that foreign currency exchange rate fluctuations have on year-to-year comparability given the volatility in foreign currency exchange rates.

Our adjusted operating profit growth on a constant-currency basis is calculated as follows:

	Quarter Ended			Six-Month Period Ended		
	Nov. 29,	Nov. 24,	Change	Nov. 29,	Nov. 24,	Change
	2020	2019		2020	2019

Adjusted Diluted EPS and Related Constant-currency Growth Rate

This measure is used in reporting to our Board of Directors and executive management. We believe that this measure provides useful information to investors because it is the profitability measure we use to evaluate earnings performance on a comparable year-to-year basis.

The reconciliation of our GAAP measure, diluted EPS, to adjusted diluted EPS and the related constant-currency growth rate follows:

Per Share Data	Quarter Ended			Six-Month Period Ended		
	Nov. 29, 2020	Nov. 24, 2019	Change	Nov. 29, 2020	Nov. 24, 2019	Change

- (e) Discrete tax benefit related to the reorganization of certain wholly owned subsidiaries. Please see Note 13 to the Consolidated Financial Statements in Part I, Item 1 of this report.

See our reconciliation below of the effective income tax rate as reported to the adjusted effective income tax rate for the tax impact of each item affecting comparability.

Constant-currency After-tax Earnings from Joint Ventures Growth Rates

We believe that this measure provides useful information to investors because it provides transparency to underlying performance of our joint ventures by excluding the effect that foreign currency exchange rate fluctuations have on year-to-year comparability given volatility in foreign currency exchange markets.

After-tax earnings from joint ventures growth rate on a constant-currency basis is calculated as follows:

	Percentage Change in After-Tax Earnings from Joint Ventures as Reported	Impact of Foreign Currency Exchange	Percentage Change in After-Tax Earnings from Joint Ventures on Constant-Currency Basis
Quarter Ended Nov. 29, 2020	46 %	(1)pt	47 %
Six-Month Period Ended Nov. 29, 2020	66 %	Flat	66 %

Note: Table may not foot due to rounding.

Net Sales Growth Rates for Our Canada Operating Unit on Constant-currency Basis

We believe that this measure of our Canada operating unit net sales provides useful information to investors because it provides transparency to the underlying performance for the Canada operating unit within our North America Retail segment by excluding the effect that foreign currency exchange rate fluctuations have on year-to-year comparability given volatility in foreign currency exchange markets.

Net sales growth rates for our Canada operating unit on a constant-currency basis are calculated as follows:

	Percentage Change in	Impact of Foreign	Percentage Change in
	Net Sales	Currency	Net Sales on Constant-
	as Reported	Exchange	Currency Basis
Quarter Ended Nov. 29, 2020	7 %	Flat	6 %

Constant-currency Segment Operating Profit Growth Rates

We believe that this measure provides useful information to investors because it provides transparency to underlying performance of our segments by excluding the effect that foreign currency exchange rate fluctuations have on year-to-year comparability given volatility in foreign currency exchange markets.

Our segments’ operating profit growth rates on a constant-currency basis are calculated as follows:

Quarter Ended Nov. 29, 2020

Accelerated depreciation associated with restructured assets. The increase in depreciation expense caused by updating the salvage value and shortening the useful life of depreciable fixed assets to coincide with the end of production under an approved restructuring plan, but only if impairment is not present.

AOCI. Accumulated other comprehensive income (loss).

Adjusted diluted EPS. Diluted EPS adjusted for certain items affecting year-to-year comparability.

Adjusted operating profit. Operating profit adjusted for certain items affecting year-to-year comparability.

Adjusted operating profit margin. Operating profit adjusted for certain items affecting year-over-year comparability, divided by net sales.

Constant currency. Financial results translated to United States dollars using constant foreign currency exchange rates based on the rates in effect for the comparable prior-year period. To present this information, current period results for entities reporting in currencies other than United States dollars are translated into United States dollars at the average exchange rates in effect during the corresponding period of the prior fiscal year, rather than the actual average exchange rates in effect during the current fiscal year. Therefore, the foreign currency impact is equal to current year results in local currencies multiplied by the change in the average foreign currency exchange rate between the current fiscal period and the corresponding period of the prior fiscal year.

Core working capital. Accounts receivable plus inventories less accounts payable.

COVID-19. Coronavirus disease (COVID-19) is an infectious disease caused by a novel coronavirus. In March 2020, the World Health Organization declared COVID-19 a global pandemic.

Derivatives. Financial instruments such as futures, swaps, options, and forward contracts that we use to manage our risk arising from changes in commodity prices, interest rates, foreign exchange rates, and stock prices.

Euribor. Euro Interbank Offered Rate.

Fair value hierarchy. For purposes of fair value measurement, we categorize assets and liabilities into one of three levels based on the assumptions (inputs) used in valuing the asset or liability. Level 1 provides the most reliable measure of fair value, while Level 3 generally requires significant management judgment. The three levels are defined as follows:

- Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities.
- Level 2: Observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets or liabilities in active markets or quoted prices for identical assets or liabilities in inactive markets.
- Level 3: Unobservable inputs reflecting management’s assumptions about the inputs used in pricing the asset or liability.

Focus 6 platforms. The Focus 6 platforms for the Convenience Stores & Foodservice segment consist of cereal, yogurt, snacks, frozen meals, frozen biscuits, and frozen baked goods.

Free cash flow. Net cash provided by operating activities less purchases of land, buildings, and equipment.

Free cash flow conversion rate. Free cash flow divided by our net earnings, including earnings attributable to redeemable and noncontrolling interests adjusted for certain items affecting year-to-year comparability.

Generally Accepted Accounting Principles (GAAP). Guidelines, procedures, and practices that we are required to use in recording and reporting accounting information in our financial statements.

Goodwill. The difference between the purchase price of acquired companies plus the fair value of any noncontrolling and redeemable interests and the related fair values of net assets acquired.

Gross margin. Net sales less cost of sales.

Hedge accounting. Accounting for qualifying hedges that allows changes in a hedging instrument’s fair value to offset corresponding changes in the hedged item in the same reporting period. Hedge accounting is permitted for certain hedging instruments and hedged items only if the hedging relationship is highly effective, and only prospectively from the date a hedging relationship is formally documented.

Holistic Margin Management (HMM). Company-wide initiative to use productivity savings, mix management, and price realization to offset input cost inflation, protect margins, and generate funds to reinvest in sales-generating activities.

Interest bearing instruments. Notes payable, long-term debt, including current portion, cash and cash equivalents, and certain interest bearing investments classified within prepaid expenses and other current assets and other assets.

LIBOR. London Interbank Offered Rate.

Mark-to-market. The act of determining a value for financial instruments, commodity contracts, and related assets or liabilities based on the current market price for that item.

Net mark-to-market valuation of certain commodity positions. Realized and unrealized gains and losses on derivative contracts that will be allocated to segment operating profit when the exposure we are hedging affects earnings.

Net price realization. The impact of list and promoted price changes, net of trade and other price promotion costs.

Net realizable value. The estimated selling price in the ordinary course of business, less reasonably predictable costs of completion, disposal, and transportation.

Noncontrolling interests. Interests of subsidiaries held by third parties.

Notional amount. The amount of a position or an agreed upon amount in a derivative contract on which the value of financial instruments are calculated.

OCI. Other Comprehensive Income.

Organic net sales growth. Net sales growth adjusted for foreign currency translation, acquisitions, divestitures and a 53rd week impact, when applicable.

Project-related costs. Costs incurred related to our restructuring initiatives not included in restructuring charges.

Redeemable interest. Interest of subsidiaries held by a third party that can be redeemed outside of our control and therefore cannot be classified as a noncontrolling interest in equity.

Reporting unit. An operating segment or a business one level below an operating segment.

Strategic Revenue Management (SRM). A company-wide capability focused on generating sustainable benefits from net price realization and mix by identifying and executing against specific opportunities to apply tools including pricing, sizing, mix management, and promotion optimization across each of our businesses.

Supply chain input costs. Costs incurred to produce and deliver product, including costs for ingredients and conversion, inventory management, logistics, and warehousing.

Translation adjustments. The impact of the conversion of our foreign affiliates’ financial statements to United States dollars for the purpose of consolidating our financial statements.

Variable interest entities (VIEs). A legal structure that is used for business purposes that either (1) does not have equity investors that have voting rights and share in all the entity’s profits and losses or (2) has equity investors that do not provide sufficient financial resources to support the entity’s activities.

Working capital. Current assets and current liabilities, all as of the last day of our fiscal year.

This report contains or incorporates by reference forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 that are based on our current expectations and assumptions. We also may make written or oral forward-looking statements, including statements contained in our filings with the Securities and Exchange Commission and in our reports to stockholders.

The words or phrases “will likely result,” “are expected to,” “will continue,” “is anticipated,” “estimate,” “plan,” “project,” or similar expressions identify “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements are subject to certain risks and uncertainties that could cause actual results to differ materially from historical results and those currently anticipated or projected. We wish to caution you not to place undue reliance on any such forward-looking statements.

In connection with the “safe harbor” provisions of the Private Securities Litigation Reform Act of 1995, we are identifying important factors that could affect our financial performance and could cause our actual results in future periods to differ materially from any current opinions or statements.

Our future results could be affected by a variety of factors, such as: the impact of the COVID-19 pandemic on our business, suppliers, consumers, customers, and employees; disruptions or inefficiencies in the supply chain, including any impact of the COVID-19 pandemic; competitive dynamics in the consumer foods industry and the markets for our products, including new product introductions, advertising activities, pricing actions, and promotional activities of our competitors; economic conditions, including changes in inflation rates, interest rates, tax rates, or the availability of capital; product development and innovation; consumer acceptance of new products and product improvements; consumer reaction to pricing actions and changes in promotion levels; acquisitions or dispositions of businesses or assets; changes in capital structure; changes in the legal and regulatory environment, including tax legislation, labeling and advertising regulations, and litigation; impairments in the carrying value of goodwill, other intangible assets, or other long-lived assets, or changes in the useful lives of other intangible assets; changes in accounting standards and the impact of significant accounting estimates; product quality and safety issues, including recalls and product liability; changes in consumer demand for our products; effectiveness of advertising, marketing, and promotional programs; changes in consumer behavior, trends, and preferences, including weight loss trends; consumer perception of health-related issues, including obesity; consolidation in the retail environment; changes in purchasing and inventory levels of significant customers; fluctuations in the cost and availability of supply chain resources, including raw materials, packaging, and energy; effectiveness of restructuring and cost saving initiatives; volatility in the market value of derivatives used to manage price risk for certain commodities; benefit plan expenses due to changes in plan asset values and discount rates used to determine plan liabilities; failure or breach of our information technology systems; foreign economic conditions, including currency rate fluctuations; and political unrest in foreign markets and economic uncertainty due to terrorism or war.

You should also consider the risk factors that we identify in Item 1A of Part I of our Annual Report on Form 10-K for the fiscal year ended May 31, 2020 which could also affect our future results.

We undertake no obligation to publicly revise any forward-looking statements to reflect events or circumstances after the date of those statements or to reflect the occurrence of anticipated or unanticipated events.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

The estimated maximum potential value-at-risk arising from a one-day loss in fair value for our interest rate, foreign exchange, commodity, and equity market-risk-sensitive instruments outstanding as of November 29, 2020 was as follows:

In Millions	One-day Loss in Fair Value	Change During Six- Month Period Ended Nov. 29, 2020	Analysis of Change
Interest rate instruments	\$ 78	\$ (1)	Immaterial
Foreign currency instruments	28	9	Higher Market Volatility
Commodity instruments	5	2	Larger Portfolio
Equity instruments	5	-	Immaterial

For additional information, see Item 7A of Part II of our Annual Report on Form 10-K for the fiscal year ended May 31, 2020.

We, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, have evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934). Based on our evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of November 29, 2020, our disclosure controls and procedures were effective to ensure that information required to be disclosed by us in reports that we file or submit under the Securities Exchange Act of 1934 is (1) recorded, processed, summarized, and reported within the time periods specified in Securities and Exchange Commission rules and forms, and (2) accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, in a manner that allows timely decisions regarding required disclosure.

There were no changes in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Securities Exchange Act of 1934) during the quarter ended November 29, 2020 that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
