GENERAL MILLS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

(1) Background

The accompanying Consolidated Financial Statements of General Mills, Inc. (we, us, our, General Mills, or the Company) have been prepared in accordance with accounting principles generally accepted in the United States (GAAP) for interim financial information and with the rules and regulations for reporting on Form 10-Q. Accordingly, they do not include certain information and disclosures required for comprehensive financial statements. In the opinion of management, all adjustments considered necessary for a fair presentation have been included and are of a normal recurring nature, including the elimination of all intercompany transactions and any noncontrolling and redeemable interests' share of those transactions. Operating results for the fiscal quarter ended February 26, 2023, are not necessarily indicative of the results that may be expected for the fiscal year ending May 28, 2023.

These statements should be read in conjunction with the Consolidated Financial Statements and footnotes included in our Annual Report on Form 10-K for the fiscal year ended May 29, 2022. The accounting policies used in preparing these Consolidated Financial Statements are the same as those described in Note 2 to the Consolidated Financial Statements in that Form 10-K.

Certain terms used throughout this report are defined in the "Glossary" section below.

(2) Acquisitions and Divestitures

During the first quarter of fiscal 2023, we acquired TNT Crust, a manufacturer of high-quality frozen pizza crusts for regional and national pizza chains, foodservice distributors, and retail outlets, for a purchase price of \$253.0 million. We financed the transaction with U.S. commercial paper. We consolidated the TNT Crust business into our Consolidated Balance Sheets and recorded goodwill of \$154.3 million. The goodwill is included in the North America Foodservice segment and is not deductible for tax purposes. The pro forma effects of this acquisition were not material. We have conducted a preliminary assessment of the fair value of the acquired assets and liabilities of the TNT Crust business and will continue to review these items during the measurement period. If new information is obtained about facts and circumstances that existed at the acquisition date, the acquisition accounting will be revised to reflect the resulting adjustments to current estimates of these items. The consolidated results of the TNT Crust business are reported in our North America Foodservice segment on a one-month lag.

During the first quarter of fiscal 2023, we completed the sale of our Helper main meals and Suddenly Salad side dishes business to Eagle Family Foods Group for \$606.8 million and recorded a pre-tax gain of \$442.2 million.

During the third quarter of fiscal 2022, we completed the sale of our interests in Yoplait SAS, Yoplait Marques SNC, and Liberté Marques Sàrl to Sodiaal International (Sodiaal) in exchange for Sodiaal's interest in our Canadian yogurt business, a modified agreement for the use of *Yoplait* and *Liberté* brands in the United States and Canada, and cash. We recorded a net pre-tax gain of \$148.8 million on the sale of these businesses during the third quarter of fiscal 2022.

During the third quarter of fiscal 2022, we sold a European dough business and recorded a net pre-tax gain on sale of \$21.3 million.

During the first quarter of fiscal 2022, we acquired Tyson Foods' pet treats business for \$1.2 billion in cash. We financed the transaction with a combination of cash on hand and short-term debt. We consolidated the pet treats business into our Consolidated Balance Sheets and recorded goodwill of \$762.3 million, indefinite-lived intangible assets for the *Nudges*, *Top Chews*, and *True Chews* brands totaling \$330.0 million in aggregate, and a finite-lived customer relationship asset of \$40.0 million. The goodwill is included in the Pet segment and is deductible for tax purposes. The pro forma effects of this acquisition were not material.

(3) Restructuring, Impairment, and Other Exit Costs

In the nine-month period ended February 26, 2023, we did not undertake any new restructuring actions. We recorded \$2.1 million of restructuring charges in the third quarter of fiscal 2023 and \$16.0 million of restructuring charges in the nine-month period ended February 26, 2023, related to restructuring actions previously announced. We recorded \$9.3 million of restructuring charges in the third quarter of fiscal 2022 and \$7.9 million of restructuring charges in the nine-month period ended February 27, 2022, related to restructuring actions previously announced. We expect these actions to be completed by the end of fiscal 2024.

We paid net \$30.6 million of cash in the nine-month period ended February 26, 2023, related to restructuring actions previously announced. We paid net \$70.4 million of cash in the same period of fiscal 2022.

The roll forward of our restructuring and other exit cost reserves, included in other current liabilities, is as follows:

In Millions	Total
Reserve balance as of May 29, 2022	\$ 36.8
Fiscal 2023 charges, including foreign currency translation	8.6
Utilized in fiscal 2023	(26.5)
Reserve balance as of Feb. 26, 2023	\$ 18.9

The reserve balance primarily consists of expected severance payments associated with restructuring actions.

The charges recognized in the roll forward of our reserves for restructuring and other exit costs do not include items charged directly to expense (e.g., asset impairment charges, accelerated depreciation, the gain or loss on the sale of restructured assets, and the write-off of spare parts) and other periodic exit costs are recognized as incurred, as those items are not reflected in our restructuring and other exit cost reserves on our Consolidated Balance Sheets.

The components of goodwill and other intangible assets are as follows:

Balance as of Feb. 26, 2023	\$ 6,968.0

Our annual goodwill and indefinite-lived intangible assets impairment test was performed on the first day of the second quarter of fiscal 2023, and we determined there was no impairment of our intangible assets as their related fair values were substantially in excess of the carrying values, except for the *Uncle Toby's* brand intangible asset. In addition, while having significant coverage as of our fiscal 2023 assessment date, the *Progresso* and *EPIC* brand intangible assets had risk of decreasing coverage. We will continue to monitor these businesses for potential impairment.

(6) Risk Management Activities

Many commodities we use in the production and distribution of our products are exposed to market price risks. We utilize derivatives to manage price risk for our principal ingredients and energy costs, including grains (oats, wheat, and corn), oils (principally soybean), dairy products, natural gas, and diesel fuel. Our primary objective when entering into these derivative contracts is to achieve certainty with regard to the future price of commodities purchased for use in our supply chain. We manage our exposures through a combination of purchase orders, long-term contracts with suppliers, exchange-traded futures and options, and over-the-counter options and swaps. We offset our exposures based on current and projected market conditions and generally seek to acquire the inputs at as close as possible to or below our planned cost.

We use derivatives to manage our exposure to changes in commodity prices. We do not perform the assessments required to achieve hedge accounting for commodity derivative positions. Accordingly, the changes in the values of these derivatives are recorded currently in cost of sales in our Consolidated Statements of Earnings.

Although we do not meet the criteria for cash flow hedge accounting, we believe that these instruments are effective in achieving our objective of providing certainty in the future price of commodities purchased for use in our supply chain. Accordingly, for purposes of measuring segment operating performance, these gains and losses are reported in unallocated corporate items outside of segment operating results until such time that the exposure we are managing affects earnings. At that time we reclassify the gain or loss from unallocated corporate items to segment operating profit, allowing our operating segments to realize the economic effects of the derivative without experiencing any resulting mark-to-market volatility, which remains in unallocated corporate items.

Unallocated corporate items for the quarters and nine-month periods ended February 26, 2023, and February 27, 2022, included:

In Millions	Quarter Ended		Nine-Month Period Ended	
	Feb. 26, 2023	Feb. 27, 2022	Feb. 26, 2023	Feb. 27, 2022

Net mark-to-market valuation of certain commodity positions recognized in unallocated corporate items	\$ (66.6)	\$ (20.0)	\$ (266.4)	\$ 16.2

As of February 26, 2023, the net notional value of commodity derivatives was \$ 448.0 million, of which \$153.0 million related to energy inputs and \$295.0 million related to agricultural inputs. These contracts relate to inputs that generally will be utilized within the next 12 months.

As of February 26, 2023, the notional value of foreign exchange derivatives was \$ 1,111.8 million.

The fair values of the derivative positions used in our risk management activities and other assets recorded at fair value were not material as of February 26, 2023, and were Level 1 or Level 2 assets and liabilities in the fair value hierarchy. We did not significantly change our valuation techniques from prior periods.

During the third quarter of fiscal 2023, in advance of a planned debt refinancing, we entered into a €250.0 million notional amount forward-starting interest rate swap.

During the second quarter of fiscal 2023, we entered into a \$500.0 million notional amount interest rate swap to convert our \$500.0 million fixed rate notes due November 18, 2025, to a floating rate.

Subsequent to the end of the third quarter of fiscal 2023, in advance of planned debt refinancings, we entered into €500.0 million notional amount of forward-starting interest rate swaps and \$350.0 million notional amount of treasury locks.

We offer certain suppliers access to third party services that allow them to view our scheduled payments online. The third-party services also allow suppliers to finance advances on our scheduled payments at the sole discretion of the supplier and the third party. We have no economic interest in these financing arrangements and no direct relationship with the suppliers, the third parties, or any financial institutions concerning these services. All of our accounts payable remain as obligations to our suppliers as stated in our supplier agreements. As of February 26, 2023, \$1,483.9 million of our total accounts payable were payable to suppliers who utilize these third-party services. As of February 27, 2022, \$1,382.8 million of our total accounts payable were payable to suppliers who utilize these third-party services.

Long-term debt is a Level 2 liability in the fair value hierarchy.

(8) Redeemable and Noncontrolling Interests

The third-party holder of the General Mills Cereals, LLC (GMC) Class A Interests receives quarterly preferred distributions from available net income based on the application of a floating preferred return rate to the holder's capital account balance established in the most recent mark-to-market valuation (currently \$251.5 million). The floating preferred return rate on GMC's Class A Interests is the sum of the three-month Term SOFR plus 186 basis points. The preferred return rate is adjusted every three years through a negotiated agreement with the Class A Interest holder or through a remarketing auction.

During the third quarter of fiscal 2022, we completed the sale of our interests in Yoplait SAS, Yoplait Marques SNC, and Liberté Marques Sàrl to Sodiaal in exchange for Sodiaal's interest in our Canadian yogurt business, a modified agreement for the use of *Yoplait* and *Liberté* brands in the United States and Canada, and cash. Please see Note 2 to the Consolidated Financial Statements.

Up to the date of the divestiture, Sodiaal held the remaining interests in each of the entities. On the acquisition date, we recorded the fair value of Sodiaal's 49 percent interest in Yoplait SAS as a redeemable interest on our Consolidated Balance Sheets. Sodiaal had the right to put all or a portion of its redeemable interest to us at fair value until the divestiture closed in the third quarter of fiscal 2022. In connection with the divestiture, cumulative adjustments made to the redeemable interest related to the fair value put feature were reversed against additional paid-in capital, where changes in the redemption amount were historically recorded, and the resulting carrying value of the noncontrolling interests were included in the calculation of the gain on divestiture.

A subsidiary of Yoplait SAS had an exclusive milk supply agreement for its European operations with Sodiaal through November 28, 2021. Net purchases totaled \$99.5 million for the six-month period ended November 28, 2021.

Our noncontrolling interests contain restrictive covenants. As of February 26, 2023, we were in compliance with all of these covenants.

(10) Stock Plans

We have various stock-based compensation programs under which awards, including stock options, restricted stock, restricted stock units, and performance awards, may be granted to employees and non-employee directors. These programs and related accounting are described in Note 12 to the Consolidated Financial Statements included in our Annual Report on Form 10-K for the fiscal year ended May 29, 2022.

Compensation expense related to stock-based payments recognized in the Consolidated Statements of Earnings was as follows:

Compensation expense related to stock-based payments recognized in the Consolidated Statements of Earnings includes amounts recognized in restructuring, impairment, and other exit costs in fiscal 2022.

Windfall tax benefits from stock-based payments in income tax expense in our Consolidated Statements of Earnings were as follows:

As of February 26, 2023, unrecognized compensation expense related to non-vested stock options, restricted stock units, and performance share units was \$133.1 million. This expense will be recognized over 20 months, on average.

Net cash proceeds from the exercise of stock options less shares used for withholding taxes and the intrinsic value of options exercised were as follows:

In Millions	Nine-Month Period Ended	
	Feb. 26, 2023	Feb. 27, 2022
Net cash proceeds	\$ 168.0	\$ 96.2
Intrinsic value of options exercised	\$ 81.8	\$ 44.4

We estimate the fair value of each stock option on the grant date using a Black-Scholes option-pricing model. Black-Scholes option-pricing models require us to make predictive assumptions regarding future stock price volatility, employee exercise behavior, and dividend yield. We estimate our future stock price volatility using the historical volatility over the expected term of the option, excluding time periods of volatility we believe a marketplace participant would exclude in estimating our stock price volatility. We also have considered, but did not use, implied volatility in our estimate, because trading activity in options on our stock, especially those with tenors of greater than 6 months, is insufficient to provide a reliable measure of expected volatility. Our method of selecting the other valuation assumptions is explained in Note 12 to the Consolidated Financial Statements included in our Annual Report on Form 10-K for the fiscal year ended May 29, 2022.

The estimated fair values of stock options granted and the assumptions used for the Black-Scholes option-pricing model were as follows:

	Nine-Month Period Ended	
	Feb. 26, 2023	Feb. 27, 2022
Estimated fair values of stock options granted	\$ 14.16	\$ 8.77

Expected term	8.5 years	8.5 years

Dividend yield	3.1 %	3.4 %

(15) Income Taxes

During the first quarter of fiscal 2023, the Inflation Reduction Act (IRA) was signed into law. The IRA introduces a Corporate Alternative Minimum Tax beginning in our fiscal 2024 and an excise tax on the repurchase of corporate stock starting after January 1, 2023. We do not currently expect the IRA to have a material impact on our financial results, including our annual estimated effective tax rate, or on our liquidity. The amount of excise tax on the repurchase of corporate stock was immaterial in the third quarter of fiscal 2023. We will continue to monitor and assess the impact the IRA may have on our business and financial results.

During fiscal 2022, the Brazilian tax authority, Secretaria da Receita Federal do Brasil (RFB), concluded audits of our 2012 through 2018 tax return years. These audits included a review of our determinations of amortization of certain goodwill arising from the acquisition of Yoki Alimentos S.A. The RFB has proposed adjustments that effectively eliminate the goodwill amortization benefits related to this transaction. We believe we have meritorious defenses and intend to continue to contest the disallowance for all years.

(16) Contingencies

During fiscal 2020, we received notice from the tax authorities of the State of São Paulo, Brazil regarding our compliance with its state sales tax requirements. As a result, we have been assessed additional state sales taxes, interest, and penalties. We believe that we have meritorious defenses against this claim and will vigorously defend our position. As of February 26, 2023, we are unable to estimate any possible loss and have not recorded a loss contingency for this matter.

(17) Business Segment and Geographic Information

We operate in the packaged foods industry. In fiscal 2022, we completed a new organization structure to streamline our global operations. This global reorganization required us to reevaluate our operating segments. Under our new organization structure, our

chief operating decision maker assesses performance and makes decisions about resources to be allocated to our operating segments as follows: North America Retail, International, Pet, and North America Foodservice.

We have restated our net sales by segment and segment operating profit to reflect our previously reported operating segment change. These segment changes had no effect on previously reported consolidated net sales, operating profit, net earnings attributable to General Mills, or earnings per share.

Our North America Retail operating segment reflects business with a wide variety of grocery stores, mass merchandisers, membership stores, natural food chains, drug, dollar and discount chains, convenience stores, and e-commerce grocery providers. Our product categories in this business segment include ready-to-eat cereals, refrigerated yogurt, soup, meal kits, refrigerated and frozen dough products, dessert and baking mixes, frozen pizza and pizza snacks, snack bars, fruit snacks, savory snacks, and a wide variety of organic products including ready-to-eat cereal, frozen and shelf-stable vegetables, meal kits, fruit snacks, snack bars, and refrigerated yogurt.

Our International operating segment consists of retail and foodservice businesses outside of the United States and Canada. Our product categories include super-premium ice cream and frozen desserts, meal kits, salty snacks, snack bars, dessert and baking mixes, and shelf stable vegetables. We also sell super-premium ice cream and frozen desserts directly to consumers through owned retail shops. Our International segment also includes products manufactured in the United States for export, mainly to Caribbean and Latin American markets, as well as products we manufacture for sale to our international joint ventures. Revenues from export activities are reported in the region or country where the end customer is located.

Our Pet operating segment includes pet food products sold primarily in the United States and Canada in national pet superstore chains, e-commerce retailers, grocery stores, regional pet store chains, mass merchandisers, and veterinary clinics and hospitals. Our product categories include dog and cat food (dry foods, wet foods, and treats) made with whole meats, fruits, vegetables and other high-quality natural ingredients. Our tailored pet product offerings address specific dietary, lifestyle, and life-stage needs and span different product types, diet types, breed sizes for dogs, lifestages, flavors, product functions, and textures and cuts for wet foods.

Our North America Foodservice segment consists of foodservice businesses in the United States and Canada. Our major product categories in our North America Foodservice operating segment are ready-to-eat cereals, snacks, refrigerated yogurt, frozen meals, unbaked and fully baked frozen dough products, baking mixes, and bakery flour. Many products we sell are branded to the consumer and nearly all are branded to our customers. We sell to distributors and operators in many customer channels including foodservice, vending, and supermarket bakeries.

Operating profit for these segments excludes unallocated corporate items, gain or loss on divestitures, and restructuring, impairment, and other exit costs. Unallocated corporate items include corporate overhead expenses, variances to planned North American employee benefits and incentives, certain charitable contributions, restructuring initiative project-related costs, gains and losses on corporate investments, and other items that are not part of our measurement of segment operating performance. These include gains and losses arising from the revaluation of certain grain inventories and gains and losses from mark-to-market valuation of certain commodity positions until passed back to our operating segments. These items affecting operating profit are centrally managed at the corporate level and are excluded from the measure of segment profitability reviewed by executive management. Under our supply chain organization, our manufacturing, warehouse, and distribution activities are substantially integrated across our operations in order to maximize efficiency and productivity. As a result, fixed assets and depreciation and amortization expenses are neither maintained nor available by operating segment.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

INTRODUCTION

This Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) should be read in conjunction with the MD&A included in our Annual Report on Form 10-K for the fiscal year ended May 29, 2022 for important background regarding, among other things, our key business drivers. Significant trademarks and service marks used in our business are set forth in *italics* herein. Certain terms used throughout this report are defined in the "Glossary" section below.

We expect the largest factors impacting our performance in fiscal 2023 will be the economic health of consumers, the inflationary cost environment, and the frequency and severity of disruptions in the supply chain. We anticipate double-digit input cost inflation in fiscal 2023 and are addressing inflation headwinds with Holistic Margin Management (HMM) cost savings and net price realization generated through our Strategic Revenue Management (SRM) capability. We are planning for volume elasticities to increase but remain below historical levels and supply chain disruptions to slowly moderate in fiscal 2023 compared to fiscal 2022 levels.

CONSOLIDATED RESULTS OF OPERATIONS

Third Quarter Results

In the third quarter of fiscal 2023, net sales increased 13 percent and organic net sales increased 16 percent compared to the same period last year. Operating profit decreased 10 percent to \$730 million, primarily driven by higher input costs, an increase in selling, general and administrative (SG&A) expenses, a lower net gain on divestitures, and an unfavorable change to the mark-to-market valuation of certain commodity positions and grain inventories, partially offset by favorable net price realization and mix. Operating profit margin of 14.2 percent decreased 380 basis points. Adjusted operating profit of \$807 million increased 20 percent on a constant-currency basis, primarily driven by favorable net price realization and mix, partially offset by higher input costs and an increase in SG&A expenses. Adjusted operating profit margin increased 80 basis points to 15.7 percent. Diluted earnings per share of \$0.92 decreased 15 percent in the third quarter of fiscal 2023. Adjusted diluted earnings per share of \$0.97 increased 17 percent on a constant-currency basis compared to the third quarter of fiscal 2022. See the "Non-GAAP Measures" section below for a description of our use of measures not defined by GAAP.

(a) Measured in tons based on the stated weight of our product shipments.

Organic net sales increased 16 percent in the third quarter of fiscal 2023 compared to the same period in fiscal 2022 driven by favorable organic net price realization and mix.

Cost of sales increased \$327 million to \$3,461 million in the third quarter of fiscal 2023 compared to the same period in fiscal 2022. The increase was primarily driven by a \$290 million increase attributable to product rate and mix, partially offset by a \$10 million decrease attributable to lower volume. We recorded a \$67 million net increase in cost of sales related to the mark-to-market valuation of certain commodity positions and grain inventories in the third quarter of fiscal 2023 compared to a \$20 million net increase in the third quarter of fiscal 2022.

Divestitures gain, net totaled \$14 million in the third quarter of fiscal 2023, compared to \$170 million recorded in the third quarter of fiscal 2022. In fiscal 2022, we sold our interests in Yoplait SAS, Yoplait Marques SNC, and Liberté Marques Sàrl and a European dough business (please refer to Note 2 to the Consolidated Financial Statements in Part I, Item 1 of this report).

SG&A expenses increased \$196 million to \$947 million in the third quarter of fiscal 2023, compared to the same period in fiscal 2022, primarily driven by increased media and advertising expenses, an increase in certain compensation and benefits expenses, an increase in charitable contributions, and unfavorable valuation adjustments on certain corporate investments in fiscal 2023. SG&A expenses as a percent of net sales in the third quarter of fiscal 2023 increased 190 basis points compared to the third quarter of fiscal 2022.

Restructuring, impairment, and other exit costs totaled \$1 million in the third quarter of fiscal 2023, compared to \$7 million in the same period last year (please refer to Note 3 to the Consolidated Financial Statements in Part I, Item 1 of this report).

Benefit plan non-service income totaled \$22 million in the third quarter of fiscal 2023, compared to \$27 million in the same period last year, primarily reflecting an increase in interest costs, partially offset by lower amortization of losses and higher expected return on plan assets.

Interest, net for the third quarter of fiscal 2023 totaled \$98 million, up \$12 million from the third quarter of fiscal 2022, primarily driven by higher interest rates, partially offset by lower average long-term debt levels.

The **effective tax rate** for the third quarter of fiscal 2023 was 16.6 percent compared to 16.3 percent for the third quarter of fiscal 2022. The 0.3 percentage point increase was primarily due to certain unfavorable nonrecurring discrete tax items, partially offset by favorable changes in earnings mix by jurisdiction in fiscal 2023. Our effective tax rate excluding certain items affecting comparability was 21.6 percent in the third quarter of fiscal 2023, compared to 21.0 percent in the same period last year (see the “Non-GAAP Measures” section below for a description of our use of measures not defined by GAAP). The 0.6 percentage point increase was primarily due to certain unfavorable nonrecurring discrete tax items, partially offset by favorable changes in earnings mix by jurisdiction in fiscal 2023.

After-tax earnings from joint ventures for the third quarter of fiscal 2023 decreased to \$13 million compared to \$30 million in the same period in fiscal 2022, primarily driven by higher input costs and unfavorable nonrecurring discrete tax items at Cereal Partners Worldwide (CPW), partially offset by favorable net price realization and mix at CPW. On a constant-currency basis, after-tax earnings from joint ventures decreased 51 percent (see the “Non-GAAP Measures” section below for a description of our use of measures not defined by GAAP).

The components of our joint ventures’ net sales growth are shown in the following table:

LIQUIDITY AND CAPITAL RESOURCES

During the nine-month period ended February 26, 2023, cash provided by operations was \$2,027 million compared to \$2,228 million in the same period last year. The \$201 million decrease was primarily driven by an increase in inventory and higher cash income tax payments in the nine-month period ended February 26, 2023, as compared to the same period a year ago.

Cash used by investing activities during the nine-month period ended February 26, 2023, was \$6 million compared to cash used of \$1,462 million for the same period in fiscal 2022. During the first quarter of the 2023, we completed the sale of the Helper main meals and Suddenly Salad side dishes business for \$607 million cash. In the first quarter of fiscal 2023, we acquired TNT Crust for \$252 million cash, net of cash acquired. In the first quarter of fiscal 2022, we acquired the Tyson Foods' pet treats business for an aggregate purchase price of \$1.2 billion.

We paid \$967 million of dividends in the nine-month period ended February 26, 2023, compared to \$934 million in the same period last year. We purchased \$1,152 million of shares of common stock in the nine-month period ended February 26, 2023, compared to \$550 million in the same period in fiscal 2022. As of February 26, 2023, we had \$553 million of cash and cash equivalents in foreign jurisdictions. In anticipation of repatriating funds from foreign jurisdictions, we record local country withholding taxes on our international earnings, as applicable. Furthermore, we may repatriate our cash and cash equivalents held by our foreign subsidiaries without such funds being subject to further U.S. income tax liability. Earnings prior to fiscal 2018 from our foreign subsidiaries remain permanently reinvested in those jurisdictions.

The following table details the fee-paid committed and uncommitted credit lines we had available as of February 26, 2023:

In Billions	Facility Amount	Borrowed Amount
Committed credit facility expiring April 2026	\$ 2.7	\$ -
Uncommitted credit facilities	0.6	-
Total committed and uncommitted credit facilities	\$ 3.3	\$ -

The third-party holder of the General Mills Cereals, LLC (GMC) Class A Interests receives quarterly preferred distributions from available net income based on the application of a floating preferred return rate to the holder's capital account balance established in the most recent mark-to-market valuation (currently \$252 million). The floating preferred return rate on GMC's Class A Interests is the sum of the three-month Term SOFR plus 186 basis points. The preferred return rate is adjusted every three years through a negotiated agreement with the Class A Interest holder or through a remarketing auction.

We have an option to purchase the Class A Interests for consideration equal to the then current capital account value, plus any unpaid preferred return and the prescribed make-whole amount. If we purchase these interests, any change in the third-party holder's capital account from its original value will be charged directly to retained earnings and will increase or decrease the net earnings used to calculate EPS in that period.

To ensure availability of funds, we maintain bank credit lines and have commercial paper programs available to us in the United States and Europe.

Certain of our long-term debt agreements, our credit facilities, and our noncontrolling interests contain restrictive covenants. As of February 26, 2023, we were in compliance with all of these covenants.

We have \$2,487 million of long-term debt maturing in the next 12 months that is classified as current, including €500 million of 1.00 percent fixed-rate notes due April 27, 2023, €250 million of 0.00 percent fixed-rate notes due May 16, 2023, €250 million of floating-rate notes due May 16, 2023, €500 million of 0.00 percent fixed-rate notes due July 27, 2023, and \$400 million of floating-rate notes due October 17, 2023. We believe that cash flows from operations, together with available short- and long-term debt financing, will be adequate to meet our liquidity and capital needs for at least the next 12 months.

CRITICAL ACCOUNTING ESTIMATES

Our significant accounting policies are described in Note 2 to the Consolidated Financial Statements included in our Annual Report on Form 10-K for the fiscal year ended May 29, 2022. The accounting policies used in preparing our interim fiscal 2023 Consolidated Financial Statements are the same as those described in our Form 10-K.

Our critical accounting estimates are those that have meaningful impact on the reporting of our financial condition and results of operations. These estimates include our accounting for revenue recognition, valuation of long-lived assets, intangible assets, stock-based compensation, income taxes, and defined benefit pension, other postretirement benefit, and postemployment benefit plans. The assumptions and methodologies used in the determination of those estimates as of February 26, 2023, are the same as those described in our Annual Report on Form 10-K for the fiscal year ended May 29, 2022.

Our annual goodwill and indefinite-lived intangible assets impairment test was performed on the first day of the second quarter of fiscal 2023, and we determined there was no impairment of our intangible assets as their related fair values were substantially in excess of the carrying values, except for the *Uncle Toby's* brand intangible asset. In addition, while having significant coverage as of our fiscal 2023 assessment date, the *Progresso* and *EPIC* brand intangible assets had risk of decreasing coverage. We will continue to monitor these businesses for potential impairment.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In December 2022, the Financial Accounting Standards Board (FASB) issued optional accounting guidance for a limited period of time to ease the potential burden in accounting for reference rate reform. The new standard provides expedients and exceptions to existing accounting requirements for contract modifications and hedge accounting related to transitioning from discontinued reference rates, such as LIBOR, to alternative reference rates, if certain criteria are met. The new accounting requirements can be applied through December 31, 2024. We are in the process of reviewing our contracts and arrangements that will be affected by a discontinued reference rate and are analyzing the impact of this guidance on our results of operations and financial position.

In September 2022, the FASB issued Accounting Standards Update (ASU) 2022-04 requiring enhanced disclosures related to supplier financing programs. The ASU requires disclosure of the key terms of the program and a rollforward of the related obligation during

the annual period, including the amount of obligations confirmed and obligations subsequently paid. The new disclosure requirements are effective for fiscal years beginning after December 15, 2022, with the exception of the rollforward requirement, which is effective for fiscal years beginning after December 15, 2023, which for us is the first quarter of fiscal 2024 for the primary requirement and the first quarter of fiscal 2025 for the rollforward requirement. Early adoption is permitted. We have historically presented the key terms of these programs and the associated obligation outstanding. We do not expect this ASU to have a material impact on our financial statements and related disclosures.

NON-GAAP MEASURES

We have included in this report measures of financial performance that are not defined by GAAP. We believe that these measures provide useful information to investors, and include these measures in other communications to investors.

For each of these non-GAAP financial measures, we are providing below a reconciliation of the differences between the non-GAAP measure and the most directly comparable GAAP measure, an explanation of why we believe the non-GAAP measure provides useful information to investors, and any additional material purposes for which our management or Board of Directors uses the non-GAAP measure. These non-GAAP measures should be viewed in addition to, and not in lieu of, the comparable GAAP measure.

Significant Items Impacting Comparability

Several measures below are presented on an adjusted basis. The adjustments are either items resulting from infrequently occurring events or items that, in management's judgment, significantly affect the year-to-year assessment of operating results.

Please see Note 2 to the Consolidated Financial Statements in Part I, Item 1 of this report.

Organic Net Sales Growth Rates

We provide organic net sales growth rates for our consolidated net sales and segment net sales. This measure is used in reporting to our Board of Directors and executive management and as a component of the measurement of our performance for incentive compensation purposes. We believe that organic net sales growth rates provide useful information to investors because they provide transparency to underlying performance in our net sales by excluding the effect that foreign currency exchange rate fluctuations, acquisitions, divestitures, and a 53rd week, when applicable, have on year-to-year comparability. A reconciliation of these measures to reported net sales growth rates, the relevant GAAP measures, are included in our Consolidated Results of Operations and Results of Segment Operations discussions in the MD&A above.

Adjusted Operating Profit Growth on a Constant-currency Basis

This measure is used in reporting to our Board of Directors and executive management and as a component of the measurement of our performance for incentive compensation purposes. We believe that this measure provides useful information to investors because it is the operating profit measure we use to evaluate operating profit performance on a comparable year-to-year basis. The measure is evaluated on a constant-currency basis by excluding the effect that foreign currency exchange rate fluctuations have on year-to-year comparability given the volatility in foreign currency exchange rates.

Our adjusted operating profit growth on a constant-currency basis is calculated as follows:

	Quarter Ended			Nine-Month Period Ended		
	Feb. 26, 2023	Feb. 27, 2022	Change	Feb. 26, 2023	Feb. 27, 2022	Change

Adjusted Diluted EPS and Related Constant-currency Growth Rates

This measure is used in reporting to our Board of Directors and executive management. We believe that this measure provides useful information to investors because it is the profitability measure we use to evaluate earnings performance on a comparable year-to-year basis.

The reconciliation of our GAAP measure, diluted EPS, to adjusted diluted EPS and the related constant-currency growth rates follows:

Per Share Data	Quarter Ended			Nine-Month Period Ended		
	Feb. 26, 2023	Feb. 27, 2022	Change	Feb. 26, 2023	Feb. 27, 2022	Change

See our reconciliation below of the effective income tax rate as reported to the adjusted effective income tax rate for the tax impact of each item affecting comparability.

Constant-currency After-tax Earnings from Joint Ventures Growth Rates

We believe that this measure provides useful information to investors because it provides transparency to underlying performance of our joint ventures by excluding the effect that foreign currency exchange rate fluctuations have on year-to-year comparability given volatility in foreign currency exchange markets.

After-tax earnings from joint ventures growth rates on a constant-currency basis are calculated as follows:

	Percentage Change in After-Tax Earnings from Joint Ventures as Reported	Impact of Foreign Currency Exchange	Percentage Change in After-Tax Earnings from Joint Ventures on Constant-Currency Basis
Quarter Ended Feb. 26, 2023	(58)%	(7)pts	(51)%

Glossary

AOCI. Accumulated other comprehensive income (loss).

Adjusted diluted EPS. Diluted EPS adjusted for certain items affecting year-to-year comparability.

Adjusted operating profit. Operating profit adjusted for certain items affecting year-to-year comparability.

Adjusted operating profit margin. Operating profit adjusted for certain items affecting year-over-year comparability, divided by net sales.

Constant currency. Financial results translated to United States dollars using constant foreign currency exchange rates based on the rates in effect for the comparable prior-year period. To present this information, current period results for entities reporting in currencies other than United States dollars are translated into United States dollars at the average exchange rates in effect during the corresponding period of the prior fiscal year, rather than the actual average exchange rates in effect during the current fiscal year. Therefore, the foreign currency impact is equal to current year results in local currencies multiplied by the change in the average foreign currency exchange rate between the current fiscal period and the corresponding period of the prior fiscal year.

Core working capital. Accounts receivable plus inventories less accounts payable.

Derivatives. Financial instruments such as futures, swaps, options, and forward contracts that we use to manage our risk arising from changes in commodity prices, interest rates, foreign exchange rates, and stock prices.

Euribor. Euro Interbank Offered Rate.

Fair value hierarchy. For purposes of fair value measurement, we categorize assets and liabilities into one of three levels based on the assumptions (inputs) used in valuing the asset or liability. Level 1 provides the most reliable measure of fair value, while Level 3 generally requires significant management judgment. The three levels are defined as follows:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2: Observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets or liabilities in active markets or quoted prices for identical assets or liabilities in inactive markets.

Level 3: Unobservable inputs reflecting management's assumptions about the inputs used in pricing the asset or liability.

Free cash flow. Net cash provided by operating activities less purchases of land, buildings, and equipment.

Generally Accepted Accounting Principles (GAAP). Guidelines, procedures, and practices that we are required to use in recording and reporting accounting information in our financial statements.

Goodwill. The difference between the purchase price of acquired companies plus the fair value of any noncontrolling and redeemable interests and the related fair values of net assets acquired.

Gross margin. Net sales less cost of sales.

Hedge accounting. Accounting for qualifying hedges that allows changes in a hedging instrument's fair value to offset corresponding changes in the hedged item in the same reporting period. Hedge accounting is permitted for certain hedging instruments and hedged items only if the hedging relationship is highly effective, and only prospectively from the date a hedging relationship is formally documented.

Holistic Margin Management (HMM). Company-wide initiative to use productivity savings, mix management, and price realization to offset input cost inflation, protect margins, and generate funds to reinvest in sales-generating activities.

Interest bearing instruments. Notes payable, long-term debt, including current portion, cash and cash equivalents, and certain interest bearing investments classified within prepaid expenses and other current assets and other assets.

LIBOR. London Interbank Offered Rate.

Mark-to-market. The act of determining a value for financial instruments, commodity contracts, and related assets or liabilities based on the current market price for that item.

Net mark-to-market valuation of certain commodity positions. Realized and unrealized gains and losses on derivative contracts that will be allocated to segment operating profit when the exposure we are hedging affects earnings.

Net price realization. The impact of list and promoted price changes, net of trade and other price promotion costs.

Net realizable value. The estimated selling price in the ordinary course of business, less reasonably predictable costs of completion, disposal, and transportation.

Noncontrolling interests. Interests of subsidiaries held by third parties.

Notional amount. The amount of a position or an agreed upon amount in a derivative contract on which the value of financial instruments are calculated.

OCI. Other Comprehensive Income.

Organic net sales growth. Net sales growth adjusted for foreign currency translation, acquisitions, divestitures and a 53rd fiscal week, when applicable.

Project-related costs. Costs incurred related to our restructuring initiatives not included in restructuring charges.

Redeemable interest. Interest of subsidiaries held by a third party that can be redeemed outside of our control and therefore cannot be classified as a noncontrolling interest in equity.

Reporting unit. An operating segment or a business one level below an operating segment.

SOFR. Secured Overnight Financing Rate.

Strategic Revenue Management (SRM). A company-wide capability focused on generating sustainable benefits from net price realization and mix by identifying and executing against specific opportunities to apply tools including pricing, sizing, mix management, and promotion optimization across each of our businesses.

Supply chain input costs. Costs incurred to produce and deliver product, including costs for ingredients and conversion, inventory management, logistics, and warehousing.

Translation adjustments. The impact of the conversion of our foreign affiliates' financial statements to United States dollars for the purpose of consolidating our financial statements.

Variable interest entities (VIEs).
