GENERAL MILLS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

(1) Background

The accompanying Consolidated Financial Statements of General Mills, Inc. (we, us, our, General Mills, or the Company) have been prepared in accordance with accounting principles generally accepted in the United States (GAAP) for interim financial information and with the rules and regulations for reporting on Form 10-Q. Accordingly, they do not include certain information and disclosures required for comprehensive financial statements. In the opinion of management, all adjustments considered necessary for a fair presentation have been included and are of a normal recurring nature, including the elimination of all intercompany transactions and any noncontrolling interests' share of those transactions. Operating results for the fiscal quarter ended August 27, 2023, are not necessarily indicative of the results that may be expected for the fiscal year ending May 26, 2024.

These statements should be read in conjunction with the Consolidated Financial Statements and footnotes included in our Annual Report on Form 10-K for the fiscal year ended May 28, 2023. The accounting policies used in preparing these Consolidated Financial Statements are the same as those described in Note 2 to the Consolidated Financial Statements in that Form 10-K with the exception of new requirements adopted in the first quarter of fiscal 2024.

In the first quarter of fiscal 2024, we adopted optional accounting guidance to ease the burden in accounting for reference rate reform. The new standard provides temporary expedients and exceptions to existing accounting requirements for contract modifications and hedge accounting related to transitioning from discontinued reference rates. This resulted in modifying contracts, where necessary, to apply a new reference rate, primarily SOFR. The adoption of this accounting guidance did not have a material impact on our results of operations or financial position.

In the first quarter of fiscal 2024, we adopted new requirements for enhanced disclosures related to supplier financing programs. The new standard requires disclosure of the key terms of the program and a rollforward of the related obligation during the annual period, including the amount of obligations confirmed and obligations subsequently paid. We have historically presented the key terms of these programs and the associated obligation outstanding (please see Note 6). The rollforward requirement is effective in fiscal 2025. The adoption did not have a material impact on our financial statements and related disclosures.

Certain terms used throughout this report are defined in the "Glossary" section below.

(2) Acquisition and Divestiture

During the first quarter of fiscal 2023, we acquired TNT Crust, a manufacturer of high-quality frozen pizza crusts for regional and national pizza chains, foodservice distributors, and retail outlets, for a purchase price of \$253.0 million. We financed the transaction with U.S. commercial paper. We consolidated the TNT Crust business into our Consolidated Balance Sheets and recorded goodwill of \$156.7 million. The goodwill is included in the North America Foodservice segment and is not deductible for tax purposes. The pro forma effects of this acquisition were not material.

During the first quarter of fiscal 2023, we completed the sale of our Helper main meals and Suddenly Salad side dishes business to Eagle Family Foods Group for \$606.8 million and recorded a pre-tax gain of \$442.2 million.

(3) Restructuring, Impairment, and Other Exit Costs

During the first quarter of fiscal 2024, we did not undertake any new restructuring actions. We recorded \$9.8 million of restructuring charges in the first quarter of fiscal 2024 and \$2.3 million of restructuring charges in the first quarter of fiscal 2023 for previously announced restructuring actions. We expect these actions to be completed by the end of fiscal 2025.

We paid net \$7.4 million of cash in the first quarter of fiscal 2024 related to restructuring actions previously announced. We paid net \$18.0 million of cash in the same period of fiscal 2023.

Restructuring and impairment charges and project-related costs are recorded in our Consolidated Statement of Earnings as follows:

In Millions	Quarter Ended	
	Aug. 27, 2023	Aug. 28, 2022
Cost of sales	\$ 8.6	\$ 0.7
Restructuring, impairment, and other exit costs	1.2	1.6
Total restructuring charges	\$ 9.8	\$ 2.3
Project-related costs classified in cost of sales	\$ 0.8	\$ -

The roll forward of our restructuring and other exit cost reserves, included in other current liabilities, is as follows:

In Millions	Total
Reserve balance as of May 28, 2023	\$ 47.7
Fiscal 2024 charges, including foreign currency translation	1.2
Utilized in fiscal 2024	(6.4)
Reserve balance as of Aug. 27, 2023	\$ 42.5

The reserve balance primarily consists of expected severance payments associated with restructuring actions.

The charges recognized in the roll forward of our reserves for restructuring and other exit costs do not include items charged directly to expense (e.g., asset impairment charges, accelerated depreciation, the gain or loss on the sale of restructured assets, and the write-off of spare parts) and other periodic exit costs are recognized as incurred, as those items are not reflected in our restructuring and other exit cost reserves on our Consolidated Balance Sheets.

(4) Goodwill and Other Intangible Assets

The components of goodwill and other intangible assets are as follows:

In Millions	Aug. 27, 2023	May 28, 2023
Goodwill	\$ 14,522.0	\$ 14,511.2
Other intangible assets:		
Intangible assets not subject to amortization:		
Brands and other indefinite-lived intangibles	6,715.0	6,712.4
Intangible assets subject to amortization:		
Customer relationships and other finite-lived intangibles	386.9	386.3
Less accumulated amortization	(136.2)	(131.1)
Intangible assets subject to amortization, net	250.7	255.2
Other intangible assets	6,965.7	6,967.6
Total	\$ 21,487.7	\$ 21,478.8

Based on the carrying value of finite-lived intangible assets as of August 27, 2023, annual amortization expense for each of the next five fiscal years is estimated to be approximately \$ 20 million.

The changes in the carrying amount of goodwill during the first quarter of fiscal 2024 were as follows:

In Millions	North America Retail		Pet	North America Foodservice		International	Joint Ventures		Total			
Balance as of May 28, 2023	\$	6,542.4	\$	6,062.8	\$	805.6	\$	708.4	\$	392.0	\$	14,511.2
Other activity, primarily foreign currency translation		0.1		-		(0.1)		8.2		2.6		10.8
Balance as of Aug. 27, 2023	\$	6,542.5	\$	6,062.8	\$	805.5	\$	716.6	\$	394.6	\$	14,522.0

The changes in the carrying amount of other intangible assets during the first quarter of fiscal 2024 were as follows:

In Millions	Total
Balance as of May 28, 2023	\$ 6,967.6
Amortization, net of foreign currency translation	(1.9)
Balance as of Aug. 27, 2023	\$ 6,965.7

Our annual goodwill and indefinite-lived intangible assets impairment test was performed on the first day of the second quarter of fiscal 2023, and we determined there was no impairment of our intangible assets as their related fair values were substantially in excess of the carrying values, except for the *Uncle Toby's* brand intangible asset. In addition, while having significant coverage as of our fiscal 2023 assessment date, the *Progresso* and *EPIC* brand intangible assets had risk of decreasing coverage. We will continue to monitor these businesses for potential impairment.

(5) Inventories

The components of inventories were as follows:

In Millions	Aug. 27, 2023	May 28, 2023
Finished goods	\$ 2,093.0	\$ 2,066.9
Raw materials and packaging	553.5	572.2
Grain	130.1	133.8
Excess of FIFO over LIFO cost	(547.8)	(600.9)
Total	\$ 2,228.8	\$ 2,172.0

(6) Risk Management Activities

Many commodities we use in the production and distribution of our products are exposed to market price risks. We utilize derivatives to manage price risk for our principal ingredients and energy costs, including grains (oats, wheat, and corn), oils (principally soybean), dairy products, natural gas, and diesel fuel. Our primary objective when entering into these derivative contracts is to achieve certainty with regard to the future price of commodities purchased for use in our supply chain. We manage our exposures through a combination of purchase orders, long-term contracts with suppliers, exchange-traded futures and options, and over-the-counter options and swaps. We offset our exposures based on current and projected market conditions and generally seek to acquire the inputs at as close as possible to or below our planned cost.

We use derivatives to manage our exposure to changes in commodity prices. We do not perform the assessments required to achieve hedge accounting for commodity derivative positions. Accordingly, the changes in the values of these derivatives are recorded currently in cost of sales in our Consolidated Statements of Earnings.

Although we do not meet the criteria for cash flow hedge accounting, we believe that these instruments are effective in achieving our objective of providing certainty in the future price of commodities purchased for use in our supply chain. Accordingly, for purposes of measuring segment operating performance, these gains and losses are reported in unallocated corporate items outside of segment operating results until such time that the exposure we are managing affects earnings. At that time, we reclassify the gain or loss from unallocated corporate items to segment operating profit, allowing our operating segments to realize the economic effects of the derivative without experiencing any resulting mark-to-market volatility, which remains in unallocated corporate items.

Unallocated corporate items for the quarters ended August 27, 2023, and August 28, 2022, included:

In Millions	Quarter Ended	
	Aug. 27, 2023	Aug. 28, 2022
Net gain (loss) on mark-to-market valuation of certain commodity positions	\$ 28.4	\$ (72.3)
Net loss (gain) on commodity positions reclassified from unallocated corporate items to segment operating profit	3.2	(43.0)
Net mark-to-market revaluation of certain grain inventories	13.3	(59.4)
Net mark-to-market valuation of certain commodity positions recognized in unallocated corporate items	\$ 44.9	\$ (174.7)

As of August 27, 2023, the net notional value of commodity derivatives was \$278.2 million, of which \$113.2 million related to energy inputs and \$165.0 million related to agricultural inputs. These contracts relate to inputs that generally will be utilized within the next 12 months.

We also have net investments in foreign subsidiaries that are denominated in euros. As of August 27, 2023, we hedged a portion of these investments with €2,954.1 million of euro-denominated bonds.

The fair values of the derivative positions used in our risk management activities and other assets recorded at fair value were not material as of August 27, 2023, and were Level 1 or Level 2 assets and liabilities in the fair value hierarchy. We did not significantly change our valuation techniques from prior periods.

We offer certain suppliers access to third-party services that allow them to view our scheduled payments online. The third-party services also allow suppliers to finance advances on our scheduled payments at the sole discretion of the supplier and the third party. We have no economic interest in these financing arrangements and no direct relationship with the suppliers, the third parties, or any financial institutions concerning these services, including not providing any form of guarantee and not pledging assets as security to the third parties or financial institutions. All of our accounts payable remain as obligations to our suppliers as stated in our supplier agreements. As of August 27, 2023, \$1,362.8 million of our total accounts payable were payable to suppliers who utilize these third-party services. As of May 28, 2023, \$1,430.1 million of our total accounts payable were payable to suppliers who utilize these third-party services.

(7) Debt

The components of notes payable were as follows:

In Millions	Aug. 27, 2023	May 28, 2023
U.S. commercial paper	\$ 529.2	\$ -
Financial institutions	55.1	31.7
Total	\$ 584.3	\$ 31.7

To ensure availability of funds, we maintain bank credit lines and have commercial paper programs available to us in the United States and Europe.

The following table details the fee-paid committed and uncommitted credit lines we had available as of August 27, 2023:

In Billions	Facility Amount	Borrowed Amount
Committed credit facility expiring April 2026	\$ 2.7	\$ -
Uncommitted credit facilities	0.6	-
Total committed and uncommitted credit facilities	\$ 3.3	\$ -

The credit facilities contain covenants, including a requirement to maintain a fixed charge coverage ratio of at least 2.5 times. We were in compliance with all credit facility covenants as of August 27, 2023.

Long-Term Debt

The fair values and carrying amounts of long-term debt, including the current portion, were \$10,811.1 million and \$11,698.1 million, respectively, as of August 27, 2023. The fair value of long-term debt was estimated using market quotations and discounted cash

flows based on our current incremental borrowing rates for similar types of instruments. Long-term debt is a Level 2 liability in the fair value hierarchy.

In the first quarter of fiscal 2024, we issued €500.0 million of floating-rate notes due November 8, 2024. We used the net proceeds to repay €500.0 million of floating-rate notes due July 27, 2023.

In the fourth quarter of fiscal 2023, we issued €250.0 million of floating-rate notes due November 10, 2023. We used the net proceeds to repay €250.0 million of floating-rate notes due May 16, 2023.

In the fourth quarter of fiscal 2023, we issued €750.0 million of 3.907 percent fixed-rate notes due April 13, 2029. We used the net proceeds to repay €500.0 million of 1.0 percent fixed-rate notes due April 27, 2023, and €250.0 million of floating-rate notes due May 16, 2023.

In the fourth quarter of fiscal 2023, we issued \$1,000.0 million of 4.95 percent fixed-rate notes due March 29, 2033. We used the net proceeds to repay our outstanding commercial paper and for general corporate purposes.

In the second quarter of fiscal 2023, we issued \$500.0 million of 5.241 percent fixed-rate notes due November 18, 2025. We used the net proceeds to repay a portion of our outstanding commercial paper and for general corporate purposes.

In the second quarter of fiscal 2023, we issued €250.0 million of floating-rate notes due May 16, 2023. We used the net proceeds to repay €250.0 million of 0.0 percent fixed-rate notes due November 11, 2022.

In the second quarter of fiscal 2023, we repaid \$500.0 million of 2.6 percent fixed-rate notes due October 12, 2022, using proceeds from the issuance of commercial paper.

Certain of our long-term debt agreements contain restrictive covenants. As of August 27, 2023, we were in compliance with all of these covenants.

(8) Noncontrolling Interests

The third-party holder of the General Mills Cereals, LLC (GMC) Class A Interests receives quarterly preferred distributions from available net income based on the application of a floating preferred return rate to the holder's capital account balance established in the most recent mark-to-market valuation (currently \$251.5 million). The floating preferred return rate on GMC's Class A Interests is the sum of the three-month Term SOFR plus 186 basis points. The preferred return rate is adjusted every three years through a negotiated agreement with the Class A Interest holder or through a remarketing auction.

Our noncontrolling interests contain restrictive covenants. As of August 27, 2023, we were in compliance with all of these covenants.

(10) Stock Plans

We have various stock-based compensation programs under which awards, including stock options, restricted stock, restricted stock units, and performance awards, may be granted to employees and non-employee directors. These programs and related accounting are described in Note 12 to the Consolidated Financial Statements included in our Annual Report on Form 10-K for the fiscal year ended May 28, 2023.

Compensation expense related to stock-based payments recognized in the Consolidated Statements of Earnings was as follows:

In Millions	Quarter Ended	
	Aug. 27, 2023	Aug. 28, 2022
Compensation expense related to stock-based payments	\$ 35.3	\$ 33.5

Windfall tax benefits from stock-based payments in income tax expense in our Consolidated Statements of Earnings were as follows:

In Millions	Quarter Ended	
	Aug. 27, 2023	Aug. 28, 2022
Windfall tax benefits from stock-based payments	\$ 8.4	\$ 12.8

As of August 27, 2023, unrecognized compensation expense related to non-vested stock options, restricted stock units, and performance share units was \$172.2 million. This expense will be recognized over 25 months, on average.

Net cash proceeds from the exercise of stock options less shares used for withholding taxes and the intrinsic value of options exercised were as follows:

In Millions	Quarter Ended	
	Aug. 27, 2023	Aug. 28, 2022
Net cash proceeds	\$ 4.5	\$ 65.5
Intrinsic value of options exercised	\$ 2.1	\$ 32.0

We estimate the fair value of each stock option on the grant date using a Black-Scholes option-pricing model. Black-Scholes option-pricing models require us to make predictive assumptions regarding future stock price volatility, employee exercise behavior, and dividend yield. We estimate our future stock price volatility using the historical volatility over the expected term of the option, excluding time periods of volatility we believe a marketplace participant would exclude in estimating our stock price volatility. We also have considered, but did not use, implied volatility in our estimate, because trading activity in options on our stock, especially those with tenors of greater than 6 months, is insufficient to provide a reliable measure of expected volatility. Our method of selecting the other valuation assumptions is explained in Note 12 to the Consolidated Financial Statements included in our Annual Report on Form 10-K for the fiscal year ended May 28, 2023.

The estimated fair values of stock options granted and the assumptions used for the Black-Scholes option-pricing model were as follows:

	Quarter Ended	
	Aug. 27, 2023	Aug. 28, 2022
Estimated fair values of stock options granted	\$ 17.47	\$ 14.16
Assumptions:		
Risk-free interest rate	4.0 %	3.3 %
Expected term	8.5 years	8.5 years
Expected volatility	21.4 %	20.9 %
Dividend yield	2.8 %	3.1 %

The total grant date fair value of restricted stock unit awards that vested during the period was as follows:

In Millions	Quarter Ended	
	Aug. 27, 2023	Aug. 28, 2022
Total grant date fair value	\$ 104.8	\$ 82.0

(11) Earnings Per Share

(15) Income Taxes

During the first quarter of fiscal 2023, the Inflation Reduction Act (IRA) was signed into law. The IRA introduces a Corporate Alternative Minimum Tax beginning in our fiscal 2024 and an excise tax on the repurchase of corporate stock starting after January 1, 2023. We do not expect the IRA to have a material impact on our financial results, including our annual estimated effective tax rate, or on our liquidity.

(16) Contingencies

During fiscal 2020, we received notice from the tax authorities of the State of São Paulo, Brazil regarding our compliance with its state sales tax requirements. As a result, we have been assessed additional state sales taxes, interest, and penalties. We believe that we have meritorious defenses against this claim and will vigorously defend our position. As of August 27, 2023, we are unable to estimate any possible loss and have not recorded a loss contingency for this matter.

(17) Business Segment and Geographic Information

We operate in the packaged foods industry. Our operating segments are as follows: North America Retail, International, Pet, and North America Foodservice.

Our North America Retail operating segment reflects business with a wide variety of grocery stores, mass merchandisers, membership stores, natural food chains, drug, dollar and discount chains, convenience stores, and e-commerce grocery providers. Our product categories in this business segment include ready-to-eat cereals, refrigerated yogurt, soup, meal kits, refrigerated and frozen dough products, dessert and baking mixes, frozen pizza and pizza snacks, snack bars, fruit snacks, savory snacks, and a wide variety of organic products including ready-to-eat cereal, frozen and shelf-stable vegetables, meal kits, fruit snacks, and snack bars.

Our International operating segment consists of retail and foodservice businesses outside of the United States and Canada. Our product categories include super-premium ice cream and frozen desserts, meal kits, salty snacks, snack bars, dessert and baking mixes, and shelf stable vegetables. We also sell super-premium ice cream and frozen desserts directly to consumers through owned retail shops. Our International segment also includes products manufactured in the United States for export, mainly to Caribbean and Latin American markets, as well as products we manufacture for sale to our international joint ventures. Revenues from export activities are reported in the region or country where the end customer is located.

Our Pet operating segment includes pet food products sold primarily in the United States and Canada in national pet superstore chains, e-commerce retailers, grocery stores, regional pet store chains, mass merchandisers, and veterinary clinics and hospitals. Our product categories include dog and cat food (dry foods, wet foods, and treats) made with whole meats, fruits, vegetables and other high-quality natural ingredients. Our tailored pet product offerings address specific dietary, lifestyle, and life-stage needs and span different product types, diet types, breed sizes for dogs, lifestages, flavors, product functions, and textures and cuts for wet foods.

Our North America Foodservice segment consists of foodservice businesses in the United States and Canada. Our major product categories in our North America Foodservice operating segment are ready-to-eat cereals, snacks, refrigerated yogurt, frozen meals, unbaked and fully baked frozen dough products, baking mixes, and bakery flour. Many products we sell are branded to the consumer

and nearly all are branded to our customers. We sell to distributors and operators in many customer channels including foodservice, vending, and supermarket bakeries.

Operating profit for these segments excludes unallocated corporate items, gain or loss on divestitures, and restructuring, impairment, and other exit costs. Unallocated corporate items include corporate overhead expenses, variances to planned North American employee benefits and incentives, certain charitable contributions, restructuring initiative project-related costs, gains and losses on corporate investments, and other items that are not part of our measurement of segment operating performance. These include gains and losses arising from the revaluation of certain grain inventories and gains and losses from mark-to-market valuation of certain commodity positions until passed back to our operating segments. These items affecting operating profit are centrally managed at the corporate level and are excluded from the measure of segment profitability reviewed by executive management. Under our supply chain organization, our manufacturing, warehouse, and distribution activities are substantially integrated across our operations in order to maximize efficiency and productivity. As a result, fixed assets and depreciation and amortization expenses are neither maintained nor available by operating segment.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

INTRODUCTION

This Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) should be read in conjunction with the MD&A included in our Annual Report on Form 10-K for the fiscal year ended May 28, 2023 for important background regarding, among other things, our key business drivers. Significant trademarks and service marks used in our business are set forth in *italics* herein. Certain terms used throughout this report are defined in the "Glossary" section below.

We expect the largest factors impacting our performance in fiscal 2024 will be the economic health of consumers, the moderating rate of input cost inflation, and the increasing stability of the supply chain environment. We expect to drive organic net sales growth in fiscal 2024 through strong marketing, innovation, in-store support, and net price realization generated through our Strategic Revenue Management (SRM) capability, most of which will be carried over from SRM actions taken in fiscal 2023. We anticipate input cost inflation of approximately 5 percent in fiscal 2024 and expect to generate higher levels of Holistic Margin Management (HMM) cost savings compared to fiscal 2023.

CONSOLIDATED RESULTS OF OPERATIONS

First Quarter Results

In the first quarter of fiscal 2024, net sales and organic net sales increased 4 percent compared to the same period last year. Operating profit decreased 14 percent to \$930 million, primarily driven by a net gain on divestitures in fiscal 2023, higher input costs, and an increase in selling, general and administrative (SG&A) expenses, including increased media and advertising expenses, partially offset by favorable net price realization and mix and a favorable change to the mark-to-market valuation of certain commodity positions and grain inventories. Operating profit margin of 19.0 percent decreased 400 basis points. Adjusted operating profit of \$899 million increased 2 percent on a constant-currency basis, primarily driven by favorable net price realization and mix, partially offset by higher input costs, an increase in SG&A expenses, including increased media and advertising expenses, and a decrease in contributions from volume growth. Adjusted operating profit margin decreased 40 basis points to 18.3 percent. Diluted earnings per share of \$1.14 decreased 16 percent in the first quarter of fiscal 2024. Adjusted diluted earnings per share of \$1.09 decreased 1 percent on a constant-currency basis compared to the first quarter of fiscal 2023. See the "Non-GAAP Measures" section below for a description of our use of measures not defined by GAAP.

A summary of our consolidated financial results for the first quarter of fiscal 2024 follows:

Quarter Ended Aug. 27, 2023	In millions, except per share	Quarter Ended Aug. 27, 2023 vs. Aug. 28, 2022	Percent of Net Sales	Constant- Currency Growth (a)

Note: Table may not foot due to rounding.

(a) Measured in tons based on the stated weight of our product shipments.

Net sales in the first quarter of fiscal 2024 increased 4 percent compared to the same period in fiscal 2023, driven by favorable net price realization and mix, partially offset by a decrease in contributions from volume growth.

Components of organic net sales growth are shown in the following table:

Quarter Ended Aug. 27, 2023 vs.

Quarter Ended Aug. 28, 2022

Contributions from organic volume growth (a)	(2)pts
Organic net price realization and mix	7 pts
Organic net sales growth	4 pts
Foreign currency exchange	Flat
Acquisitions and divestitures	Flat
Net sales growth	4 pts

Note: Table may not foot due to rounding.

(a) Measured in tons based on the stated weight of our product shipments.

Organic net sales increased 4 percent in the first quarter of fiscal 2024 compared to the same period in fiscal 2023, driven by favorable organic net price realization and mix, partially offset by a decrease in contributions from organic volume growth.

Cost of sales decreased \$136 million to \$3,134 million in the first quarter of fiscal 2024 compared to the same period in fiscal 2023. The decrease included a \$54 million decrease attributable to lower volume and a \$150 million increase attributable to product rate and mix. We recorded a \$45 million net decrease in cost of sales related to the mark-to-market valuation of certain commodity positions and grain inventories in the first quarter of fiscal 2024 compared to a \$175 million net increase in the first quarter of fiscal 2023. In the first quarter of fiscal 2023, we recorded a \$21 million charge related to a voluntary recall on certain international *Häagen-Dazs* ice cream products. We also recorded \$9 million of restructuring charges and \$1 million of restructuring initiative project-related costs in cost of sales in the first quarter of fiscal 2024 compared to \$1 million of restructuring charges in the first quarter of fiscal 2023 (please refer to Note 3 to the Consolidated Financial Statements in Part I, Item 1 of this report).

SG&A expenses increased \$48 million to \$839 million in the first quarter of fiscal 2024, compared to the same period in fiscal 2023, primarily driven by increased media and advertising expenses. SG&A expenses as a percent of net sales in the first quarter of fiscal 2024 increased 30 basis points compared to the first quarter of fiscal 2023.

Divestitures gain, net totaled \$431 million in the first quarter of fiscal 2023, primarily related to the sale of our Helper main meals and Suddenly Salad side dishes business (please refer to Note 2 to the Consolidated Financial Statements in Part I, Item 1 of this report).

Restructuring, impairment, and other exit costs totaled \$1 million in the first quarter of fiscal 2024, compared to \$2 million in the same period last year (please refer to Note 3 to the Consolidated Financial Statements in Part I, Item 1 of this report).

Benefit plan non-service income totaled \$17 million in the first quarter of fiscal 2024, compared to \$22 million in the same period last year, primarily reflecting an increase in interest costs, partially offset by lower amortization of losses.

Interest, net for the first quarter of fiscal 2024 totaled \$117 million, up \$29 million from the first quarter of fiscal 2023, primarily driven by higher interest rates and higher average long-term debt levels.

The **effective tax rate** for the first quarter of fiscal 2024 was 20.9 percent compared to 21.2 percent for the first quarter of fiscal 2023. The 0.3 percentage point decrease was primarily due to certain unfavorable tax components related to the divestitures in the first quarter of fiscal 2023, partially offset by certain nonrecurring discrete tax benefits in the first quarter of fiscal 2023 and unfavorable earnings mix by jurisdiction in the first quarter of fiscal 2024. Our effective tax rate excluding certain items affecting comparability was 21.1 percent in the first quarter of fiscal 2024, compared to 19.7 percent in the same period last year (see the “Non-GAAP Measures” section below for a description of our use of measures not defined by GAAP). The 1.4 percentage point increase was primarily due to certain nonrecurring discrete tax benefits in the first quarter of fiscal 2023 and unfavorable earnings mix by jurisdiction in the first quarter of fiscal 2024.

After-tax earnings from joint ventures for the first quarter of fiscal 2024 increased to \$24 million compared to \$20 million in the same period in fiscal 2023, primarily driven by higher net sales as a result of favorable net price realization and mix at Cereal Partners Worldwide (CPW) and favorable discrete tax items at CPW, partially offset by higher input costs at CPW and Häagen-Dazs Japan, Inc. (HDJ). On a constant-currency basis, after-tax earnings from joint ventures increased 26 percent (see the “Non-GAAP Measures” section below for a description of our use of measures not defined by GAAP).

The components of our joint ventures’ net sales growth are shown in the following table:

Quarter Ended Aug. 27, 2023 vs.

Quarter Ended Aug. 28, 2022

	CPW	HDJ	Total
Contributions from volume growth (a)	(11)pts	(5)pts	
Net price realization and mix	19 pts	9 pts	
Net sales growth in constant currency	8 pts	4 pts	7 pts
Foreign currency exchange	1 pt	(5)pts	Flat
Net sales growth	9 pts	(1)pt	7 pts

Note: Table may not foot due to rounding.

(a) Measured in tons based on the stated weight of our product shipments.

Average diluted shares outstanding decreased by 15 million in the first quarter of fiscal 2024 from the same period a year ago primarily due to share repurchases, partially offset by option exercises.

SEGMENT OPERATING RESULTS

Our businesses are organized into four operating segments: North America Retail, International, Pet, and North America Foodservice. Please refer to Note 17 of the Consolidated Financial Statements in Part I, Item 1 of this report for a description of our operating segments.

(a) Measured in tons based on the stated weight of our product shipments.

International net sales increased 10 percent in the first quarter of fiscal 2024, compared to the same period in fiscal 2023 which included the impact of the voluntary recall on certain international *Häagen-Dazs* ice cream products, driven by favorable net price realization and mix and favorable foreign currency exchange, partially offset by a decrease in contributions from volume growth.

The components of International organic net sales growth are shown in the following table:

	Quarter Ended Aug. 27, 2023
Contributions from organic volume growth (a)	(5)pts
Organic net price realization and mix	13 pts
Organic net sales growth	9 pts
Foreign currency exchange	1 pt
Net sales growth	10 pts

(a) Measured in tons based on the stated weight of our product shipments.

International organic net sales increased 9 percent in the first quarter of fiscal 2024, compared to the same period in fiscal 2023 which included the impact of the voluntary recall on certain international *Häagen-Dazs* ice cream products, driven by favorable organic net price realization and mix, partially offset by a decrease in contributions from organic volume growth.

Segment operating profit increased 44 percent to \$50 million in the first quarter of fiscal 2024, compared to \$35 million in the same period in fiscal 2023, primarily driven by favorable net price realization and mix and the voluntary recall on certain international *Häagen-Dazs* ice cream products in fiscal 2023, partially offset by higher input costs. Segment operating profit increased 52 percent on a constant-currency basis in the first quarter of fiscal 2024 compared to the same period in fiscal 2023 (see the “Non-GAAP Measures” section below for our use of this measure not defined by GAAP).

Pet Segment Results

Pet net sales were as follows:

	Aug. 27, 2023	Quarter Ended Aug. 27, 2023 vs Aug. 28, 2022	Aug. 28, 2022
Net sales (in millions)	\$ 579.9	Flat	\$ 579.9

Pet organic net sales in the first quarter of fiscal 2024 matched the same period in fiscal 2023, as favorable organic net price realization and mix was offset by a decrease in contributions from organic volume growth.

Segment operating profit decreased 10 percent to \$111 million in the first quarter of fiscal 2024, compared to \$123 million in the same period in fiscal 2023, primarily driven by higher input costs, a decrease in contributions from volume growth, and an increase in SG&A expenses, partially offset by favorable net price realization and mix. Segment operating profit decreased 10 percent on a

constant-currency basis in the first quarter of fiscal 2024 compared to the same period in fiscal 2023 (see the “Non-GAAP Measures” section below for our use of this measure not defined by GAAP).

North America Foodservice Segment Results

North America Foodservice net sales were as follows:

	Quarter Ended

(b) Acquisition of TNT Crust in fiscal 2023. Please see Note 2 to the Consolidated Financial Statements in Part I, Item 1 of this report.

North America Foodservice organic net sales increased 4 percent in the first quarter of fiscal 2024, compared to the same period in fiscal 2023, driven by an increase in contributions from organic volume growth.

Segment operating profit increased 10 percent to \$59 million in the first quarter of fiscal 2024, compared to \$54 million in the same period in fiscal 2023, primarily driven by favorable net price realization and mix, partially offset by higher input costs. Segment operating profit increased 10 percent on a constant-currency basis in the first quarter of fiscal 2024 compared to the same period in fiscal 2023 (see the “Non-GAAP Measures” section below for our use of this measure not defined by GAAP).

UNALLOCATED CORPORATE ITEMS

Unallocated corporate expenses totaled \$87 million in the first quarter of fiscal 2024, compared to \$333 million in the same period in fiscal 2023. In the first quarter of fiscal 2024, we recorded a \$45 million net decrease in expense related to the mark-to-market valuation of certain commodity positions and grain inventories, compared to a \$175 million net increase in expense in the same period last year. We recorded \$3 million of net losses related to valuation adjustments on certain corporate investments in the first quarter of fiscal 2024, compared to \$26 million of net losses related to valuation adjustments and the loss on sale of certain corporate investments in the first quarter of fiscal 2023. In the first quarter of fiscal 2023, we recorded a \$22 million charge related to a voluntary recall on certain international *Häagen-Dazs* ice cream products. We recorded \$9 million of restructuring charges and \$1 million of restructuring initiative project-related costs in cost of sales in the first quarter of fiscal 2024, compared to \$1 million of restructuring charges in cost of sales in the same period last year. In addition, we recorded \$2 million of integration costs primarily related to our acquisition of TNT Crust in the first quarter of fiscal 2023.

LIQUIDITY AND CAPITAL RESOURCES

During the first quarter of fiscal 2024, cash provided by operations was \$378 million compared to \$389 million in the same period last year. The \$11 million decrease was mainly driven by a \$248 million change in current assets and liabilities and a \$46 million change in other non-cash items in net earnings, including changes in the valuation of certain corporate investments. These were partially offset by a \$288 million increase in net earnings, excluding the \$431 million net divestitures gain in fiscal 2023. The \$248 million change in current assets and liabilities is primarily driven by a \$313 million change in the timing of accounts payable.

Cash used by investing activities during the first quarter of fiscal 2024 was \$136 million compared to cash provided by investing activities of \$266 million for the same period in fiscal 2023. During the first quarter of the 2023, we completed the sale of the Helper main meals and Suddenly Salad side dishes business for \$607 million cash. In the first quarter of fiscal 2023, we acquired TNT Crust for \$252 million cash, net of cash acquired. In addition, we spent \$142 million on purchases of land, buildings, and equipment in the first quarter of fiscal 2024 compared to \$91 million in the same period last year.

Cash used by financing activities during the first quarter of fiscal 2024 was \$334 million compared to \$609 million of cash used by financing activities in the same period in fiscal 2023. We paid \$348 million of dividends in the first quarter of fiscal 2024, compared to \$325 million in the same period last year. We paid \$500 million for purchases of common stock for treasury in the first quarter of fiscal 2024, consistent with the same period in fiscal 2023. In addition, we had \$552 million of net debt issuances in the first quarter of fiscal 2024 compared to \$188 million of net debt issuances in the first quarter of fiscal 2023.

As of August 27, 2023, we had \$425 million of cash and cash equivalents in foreign jurisdictions. In anticipation of repatriating funds from foreign jurisdictions, we record local country withholding taxes on our international earnings, as applicable. Furthermore, we may repatriate our cash and cash equivalents held by our foreign subsidiaries without such funds being subject to further U.S. income tax liability. Earnings prior to fiscal 2018 from our foreign subsidiaries remain permanently reinvested in those jurisdictions.

The following table details the fee-paid committed and uncommitted credit lines we had available as of August 27, 2023:

In Billions	Facility Amount	Borrowed Amount
Committed credit facility expiring April 2026	\$ 2.7	\$ -
Uncommitted credit facilities	0.6	-
Total committed and uncommitted credit facilities	\$ 3.3	\$ -

The third-party holder of the General Mills Cereals, LLC (GMC) Class A Interests receives quarterly preferred distributions from available net income based on the application of a floating preferred return rate to the holder's capital account balance established in the most recent mark-to-market valuation (currently \$252 million). The floating preferred return rate on GMC's Class A Interests is the sum of three-month Term SOFR plus 186 basis points. The preferred return rate is adjusted every three years through a negotiated agreement with the Class A Interest holder or through a remarketing auction.

We have an option to purchase the Class A Interests for consideration equal to the then current capital account value, plus any unpaid preferred return and the prescribed make-whole amount. If we purchase these interests, any change in the third-party holder's capital account from its original value will be charged directly to retained earnings and will increase or decrease the net earnings used to calculate EPS in that period.

To ensure availability of funds, we maintain bank credit lines and have commercial paper programs available to us in the United States and Europe.

Certain of our long-term debt agreements, our credit facilities, and our noncontrolling interests contain restrictive covenants. As of August 27, 2023, we were in compliance with all of these covenants.

We have \$1,175 million of long-term debt maturing in the next 12 months that is classified as current, including \$400 million of floating-rate notes due October 17, 2023, €250 million of floating-rate notes due November 10, 2023, and \$500 million of 3.65 percent fixed-rate notes due February 15, 2024. We believe that cash flows from operations, together with available short- and long-term debt financing, will be adequate to meet our liquidity and capital needs for at least the next 12 months.

CRITICAL ACCOUNTING ESTIMATES

Our significant accounting policies are described in Note 2 to the Consolidated Financial Statements included in our Annual Report on Form 10-K for the fiscal year ended May 28, 2023. The accounting policies used in preparing our interim fiscal 2024 Consolidated Financial Statements are the same as those described in our Form 10-K with the exception of the new accounting requirements

adopted in the first quarter of fiscal 2024. Please see Note 1 to the Consolidated Financial Statements in Part I, Item 1 of this report for additional information.

Our critical accounting estimates are those that have meaningful impact on the reporting of our financial condition and results of operations. These estimates include our accounting for revenue recognition, valuation of long-lived assets, intangible assets, stock-based compensation, income taxes, and defined benefit pension, other postretirement benefit, and postemployment benefit plans. The assumptions and methodologies used in the determination of those estimates as of August 27, 2023, are the same as those described in our Annual Report on Form 10-K for the fiscal year ended May 28, 2023.

Our annual goodwill and indefinite-lived intangible assets impairment test was performed on the first day of the second quarter of fiscal 2023, and we determined there was no impairment of our intangible assets as their related fair values were substantially in excess of the carrying values, except for the *Uncle Toby's* brand intangible asset. In addition, while having significant coverage as of our fiscal 2023 assessment date, the *Progreso* and *EPIC* brand intangible assets had risk of decreasing coverage. We will continue to monitor these businesses for potential impairment.

NON-GAAP MEASURES

We have included in this report measures of financial performance that are not defined by GAAP. We believe that these measures provide useful information to investors, and include these measures in other communications to investors.

For each of these non-GAAP financial measures, we are providing below a reconciliation of the differences between the non-GAAP measure and the most directly comparable GAAP measure, an explanation of why we believe the non-GAAP measure provides useful information to investors, and any additional material purposes for which our management or Board of Directors uses the non-GAAP measure. These non-GAAP measures should be viewed in addition to, and not in lieu of, the comparable GAAP measure.

Significant Items Impacting Comparability

Several measures below are presented on an adjusted basis. The adjustments are either items resulting from infrequently occurring events or items that, in management's judgment, significantly affect the year-to-year assessment of operating results.

The following are descriptions of significant items impacting comparability of our results.

Mark-to-market effects

Net mark-to-market valuation of certain commodity positions recognized in unallocated corporate items. Please see Note 6 to the Consolidated Financial Statements in Part I, Item 1 of this report.

Restructuring charges and project-related costs

Restructuring charges and project-related costs for previously announced restructuring actions recorded in fiscal 2024. Restructuring charges for previously announced restructuring actions recorded in fiscal 2023. Please see Note 3 to the Consolidated Financial Statements in Part I, Item 1 of this report.

Investment activity, net

Valuation adjustments of certain corporate investments in fiscal 2024. Valuation adjustments and the loss on sale of certain corporate investments in fiscal 2023.

Acquisition integration costs

Integration costs primarily resulting from the acquisition of TNT Crust in fiscal 2024 and fiscal 2023. Please see Note 2 to the Consolidated Financial Statements in Part I, Item 1 of this report.

Product recall

Costs related to the fiscal 2023 voluntary recall of certain international *Häagen-Dazs* ice cream products.

Divestitures gain, net

Net divestitures gain primarily related to the sale of our Helper main meals and Suddenly Salad side dishes business in fiscal 2023. Please see Note 2 to the Consolidated Financial Statements in Part I, Item 1 of this report.

Transaction costs

Transaction costs primarily related to the sale of our Helper main meals and Suddenly Salad side dishes business in fiscal 2023. Please see Note 2 to the Consolidated Financial Statements in Part I, Item 1 of this report.

Organic Net Sales Growth Rates

We provide organic net sales growth rates for our consolidated net sales and segment net sales. This measure is used in reporting to our Board of Directors and executive management and as a component of the measurement of our performance for incentive compensation purposes. We believe that organic net sales growth rates provide useful information to investors because they provide transparency to underlying performance in our net sales by excluding the effect that foreign currency exchange rate fluctuations, acquisitions, divestitures, and a 53rd week, when applicable, have on year-to-year comparability. A reconciliation of these measures to reported net sales growth rates, the relevant GAAP measures, are included in our Consolidated Results of Operations and Results of Segment Operations discussions in the MD&A above.

Adjusted Operating Profit as a Percent of Net Sales (Adjusted Operating Profit Margin)

We believe this measure provides useful information to investors because it is important for assessing our operating profit margin on a comparable basis.

Our adjusted operating profit margins are calculated as follows:

In Millions	Quarter Ended			
	Aug. 27, 2023		Aug. 28, 2022	
	Value	Percent of Net Sales	Value	Percent of Net Sales
Operating profit as reported	\$ 930.0	19.0 %	\$ 1,085.6	23.0 %
Mark-to-market effects	(44.9)	(0.9)%	174.7	3.7 %
Restructuring charges	9.8	0.2 %	2.3	- %
Investment activity, net	2.9	0.1 %	26.3	0.6 %
Project-related costs	0.8	- %	-	- %
Acquisition integration costs	0.2	- %	1.5	- %
Product recall	0.2	- %	21.5	0.5 %
Divestitures gain, net	-	- %	(430.9)	(9.1)%
Transaction costs	-	- %	0.2	- %
Adjusted operating profit	\$ 899.0	18.3 %	\$ 881.2	18.7 %

Note: Table may not foot due to rounding.

For more information on the reconciling items, please refer to the Significant Items Impacting Comparability section above.

Adjusted Operating Profit Growth on a Constant-currency Basis

This measure is used in reporting to our Board of Directors and executive management and as a component of the measurement of our performance for incentive compensation purposes. We believe that this measure provides useful information to investors because it is the operating profit measure we use to evaluate operating profit performance on a comparable year-to-year basis. The measure is evaluated on a constant-currency basis by excluding the effect that foreign currency exchange rate fluctuations have on year-to-year comparability given the volatility in foreign currency exchange rates.

Our adjusted operating profit growth on a constant-currency basis is calculated as follows:

	Quarter Ended		
	Aug. 27, 2023	Aug. 28, 2022	Change
Operating profit as reported	\$ 930.0	\$ 1,085.6	(14)%
Mark-to-market effects	(44.9)	174.7	
Restructuring charges	9.8	2.3	
Investment activity, net	2.9	26.3	
Project-related costs	0.8	-	
Acquisition integration costs	0.2	1.5	
Product recall	0.2	21.5	
Divestitures gain, net	-	(430.9)	
Transaction costs	-	0.2	
Adjusted operating profit	\$ 899.0	\$ 881.2	2 %
Foreign currency exchange impact			Flat
Adjusted operating profit growth, on a constant-currency basis			2 %

Note: Table may not foot due to rounding.

For more information on the reconciling items, please refer to the Significant Items Impacting Comparability section above.

Adjusted Diluted EPS and Related Constant-currency Growth Rates

This measure is used in reporting to our Board of Directors and executive management. We believe that this measure provides useful information to investors because it is the profitability measure we use to evaluate earnings performance on a comparable year-to-year basis.

The reconciliation of our GAAP measure, diluted EPS, to adjusted diluted EPS and the related constant-currency growth rates follows:

Per Share Data	Quarter Ended		
	Aug. 27, 2023	Aug. 28, 2022	Change
Diluted earnings per share, as reported	\$ 1.14	\$ 1.35	(16)%
Mark-to-market effects	(0.06)	0.22	
Restructuring charges	0.01	-	
Investment activity, net	-	0.04	
Product recall	-	0.03	
Divestitures gain, net	-	(0.54)	
Adjusted diluted earnings per share	\$ 1.09	\$ 1.11	(2)%
Foreign currency exchange impact			(1)pt
Adjusted diluted earnings per share growth, on a constant-currency basis			(1)%

Note: Table may not foot due to rounding.

For more information on the reconciling items, please refer to the Significant Items Impacting Comparability section above.

See our reconciliation below of the effective income tax rate as reported to the adjusted effective income tax rate for the tax impact of each item affecting comparability.

Constant-currency After-tax Earnings from Joint Ventures Growth Rates

We believe that this measure provides useful information to investors because it provides transparency to underlying performance of our joint ventures by excluding the effect that foreign currency exchange rate fluctuations have on year-to-year comparability given volatility in foreign currency exchange markets.

After-tax earnings from joint ventures growth rates on a constant-currency basis are calculated as follows:

	Percentage Change in After-Tax Earnings from Joint Ventures as Reported	Impact of Foreign Currency Exchange	Percentage Change in After-Tax Earnings from Joint Ventures on Constant-Currency Basis
Quarter Ended Aug. 27, 2023	19 %	(7)pts	26 %

Note: Table may not foot due to rounding.

Net Sales Growth Rates for Our Canada Operating Unit on Constant-currency Basis

We believe that this measure of our Canada operating unit net sales provides useful information to investors because it provides transparency to the underlying performance for the Canada operating unit within our North America Retail segment by excluding the effect that foreign currency exchange rate fluctuations have on year-to-year comparability given volatility in foreign currency exchange markets.

Net sales growth rates for our Canada operating unit on a constant-currency basis are calculated as follows:

	Percentage Change in Net Sales as Reported	Impact of Foreign Currency Exchange	Percentage Change in Net Sales on Constant- Currency Basis
Quarter Ended Aug. 27, 2023	Flat	(4)pts	4 %

Note: Table may not foot due to rounding.

Constant-currency Segment Operating Profit Growth Rates

We believe that this measure provides useful information to investors because it provides transparency to underlying performance of our segments by excluding the effect that foreign currency exchange rate fluctuations have on year-to-year comparability given volatility in foreign currency exchange markets.

Our segments' operating profit growth rates on a constant-currency basis are calculated as follows:

	Quarter Ended Aug. 27, 2023		
	Percentage Change in Operating Profit as Reported	Impact of Foreign Currency Exchange	Percentage Change in Operating Profit on Constant-Currency Basis
North America Retail	3 %	Flat	3 %
International	44 %	(8)pts	52 %
Pet	(10)%	Flat	(10)%
North America Foodservice	10 %	Flat	10 %

Note: Table may not foot due to rounding.

Adjusted Effective Income Tax Rates

We believe this measure provides useful information to investors because it presents the adjusted effective income tax rate on a comparable year-to-year basis.

Adjusted effective income tax rates are calculated as follows:

In Millions (Except Per Share Data)	Quarter Ended			
	Aug. 27, 2023		Aug. 28, 2022	
	Pretax Earnings (a)	Income Taxes	Pretax Earnings (a)	Income Taxes

Glossary

AOCI. Accumulated other comprehensive income (loss).

Adjusted diluted EPS. Diluted EPS adjusted for certain items affecting year-to-year comparability.

Adjusted operating profit. Operating profit adjusted for certain items affecting year-to-year comparability.

Adjusted operating profit margin. Operating profit adjusted for certain items affecting year-over-year comparability, divided by net sales.

Constant currency. Financial results translated to United States dollars using constant foreign currency exchange rates based on the rates in effect for the comparable prior-year period. To present this information, current period results for entities reporting in currencies other than United States dollars are translated into United States dollars at the average exchange rates in effect during the corresponding period of the prior fiscal year, rather than the actual average exchange rates in effect during the current fiscal year. Therefore, the foreign currency impact is equal to current year results in local currencies multiplied by the change in the average foreign currency exchange rate between the current fiscal period and the corresponding period of the prior fiscal year.

Core working capital. Accounts receivable plus inventories less accounts payable.

Derivatives. Financial instruments such as futures, swaps, options, and forward contracts that we use to manage our risk arising from changes in commodity prices, interest rates, foreign exchange rates, and stock prices.

Euribor. Euro Interbank Offered Rate.

Fair value hierarchy. For purposes of fair value measurement, we categorize assets and liabilities into one of three levels based on the assumptions (inputs) used in valuing the asset or liability. Level 1 provides the most reliable measure of fair value, while Level 3 generally requires significant management judgment. The three levels are defined as follows:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2: Observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets or liabilities in active markets or quoted prices for identical assets or liabilities in inactive markets.

Level 3: Unobservable inputs reflecting management's assumptions about the inputs used in pricing the asset or liability.

Free cash flow. Net cash provided by operating activities less purchases of land, buildings, and equipment.

Generally Accepted Accounting Principles (GAAP). Guidelines, procedures, and practices that we are required to use in recording and reporting accounting information in our financial statements.

Goodwill. The difference between the purchase price of acquired companies plus the fair value of any noncontrolling and redeemable interests and the related fair values of net assets acquired.

Gross margin. Net sales less cost of sales.

Hedge accounting. Accounting for qualifying hedges that allows changes in a hedging instrument's fair value to offset corresponding changes in the hedged item in the same reporting period. Hedge accounting is permitted for certain hedging instruments and hedged items only if the hedging relationship is highly effective, and only prospectively from the date a hedging relationship is formally documented.

Holistic Margin Management (HMM). Company-wide initiative to use productivity savings, mix management, and price realization to offset input cost inflation, protect margins, and generate funds to reinvest in sales-generating activities.

Interest bearing instruments. Notes payable, long-term debt, including current portion, cash and cash equivalents, and certain interest bearing investments classified within prepaid expenses and other current assets and other assets.

Mark-to-market. The act of determining a value for financial instruments, commodity contracts, and related assets or liabilities based on the current market price for that item.

Net mark-to-market valuation of certain commodity positions. Realized and unrealized gains and losses on derivative contracts that will be allocated to segment operating profit when the exposure we are hedging affects earnings.

Net price realization. The impact of list and promoted price changes, net of trade and other price promotion costs.

Net realizable value. The estimated selling price in the ordinary course of business, less reasonably predictable costs of completion, disposal, and transportation.

Noncontrolling interests. Interests of subsidiaries held by third parties.

Notional amount. The amount of a position or an agreed upon amount in a derivative contract on which the value of financial instruments are calculated.

OCI. Other Comprehensive Income.

Organic net sales growth. Net sales growth adjusted for foreign currency translation, acquisitions, divestitures and a 53rd fiscal week, when applicable.

Project-related costs. Costs incurred related to our restructuring initiatives not included in restructuring charges.

Reporting unit. An operating segment or a business one level below an operating segment.

SOFR. Secured Overnight Financing Rate.

Strategic Revenue Management (SRM). A company-wide capability focused on generating sustainable benefits from net price realization and mix by identifying and executing against specific opportunities to apply tools including pricing, sizing, mix management, and promotion optimization across each of our businesses.

Supply chain input costs. Costs incurred to produce and deliver product, including costs for ingredients and conversion, inventory management, logistics, and warehousing.

Translation adjustments. The impact of the conversion of our foreign affiliates' financial statements to United States dollars for the purpose of consolidating our financial statements.

Working capital. Current assets and current liabilities, all as of the last day of our fiscal year.

CAUTIONARY STATEMENT RELEVANT TO FORWARD-LOOKING INFORMATION FOR THE PURPOSE OF “SAFE HARBOR” PROVISIONS OF THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995

This report contains or incorporates by reference forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 that are based on our current expectations and assumptions. We also may make written or oral forward-looking statements, including statements contained in our filings with the Securities and Exchange Commission and in our reports to stockholders.

The words or phrases “will likely result,” “are expected to,” “will continue,” “is anticipated,” “estimate,” “plan,” “project,” or similar expressions identify “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements are subject to certain risks and uncertainties that could cause actual results to differ materially from historical results and those currently anticipated or projected. We caution you not to place undue reliance on any such forward-looking statements.

In connection with the “safe harbor” provisions of the Private Securities Litigation Reform Act of 1995, we are identifying important factors that could affect our financial performance and could cause our actual results in future periods to differ materially from any current opinions or statements.

Our future results could be affected by a variety of factors, such as: disruptions or inefficiencies in the supply chain; competitive dynamics in the consumer foods industry and the markets for our products, including new product introductions, advertising activities, pricing actions, and promotional activities of our competitors; economic conditions, including changes in inflation rates, interest rates, tax rates, or the availability of capital; product development and innovation; consumer acceptance of new products and product improvements; consumer reaction to pricing actions and changes in promotion levels; acquisitions or dispositions of businesses or assets; changes in capital structure; changes in the legal and regulatory environment, including tax legislation, labeling and advertising regulations, and litigation; impairments in the carrying value of goodwill, other intangible assets, or other long-lived assets, or changes in the useful lives of other intangible assets; changes in accounting standards and the impact of critical accounting estimates; product quality and safety issues, including recalls and product liability; changes in consumer demand for our products; effectiveness of advertising, marketing, and promotional programs; changes in consumer behavior, trends, and preferences, including weight loss trends; consumer perception of health-related issues, including obesity; consolidation in the retail environment; changes in purchasing and inventory levels of significant customers; fluctuations in the cost and availability of supply chain resources, including raw materials, packaging, energy, and transportation; effectiveness of restructuring and cost saving initiatives; volatility in the market value of derivatives used to manage price risk for certain commodities; benefit plan expenses due to changes in plan asset values and discount rates used to determine plan liabilities; failure or breach of our information technology systems; foreign economic conditions, including currency rate fluctuations; and political unrest in foreign markets and economic uncertainty due to terrorism or war.

You should also consider the risk factors that we identify in Item 1A of Part I of our Annual Report on Form 10-K for the fiscal year ended May 28, 2023, which could also affect our future results.

We undertake no obligation to publicly revise any forward-looking statements to reflect events or circumstances after the date of those statements or to reflect the occurrence of anticipated or unanticipated events.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

The estimated maximum potential value-at-risk arising from a one-day loss in fair value for our interest rate, foreign exchange, commodity, and equity market-risk-sensitive instruments outstanding as of August 27, 2023, was as follows:

In Millions	One-day Risk of Loss	Change During Quarter Ended Aug. 27, 2023	Analysis of Change
Interest rate instruments	\$ 59	\$ (6)	Lower interest rate volatility
Foreign currency instruments	36	(1)	Immaterial
Commodity instruments	5	(3)	Decrease in commodity prices
Equity instruments	3	-	Immaterial

For additional information, see Item 7A of Part II of our Annual Report on Form 10-K for the fiscal year ended May 28, 2023.

Item 4. Controls and Procedures.

We, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, have evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934). Based on our evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of August 27, 2023, our disclosure controls and procedures were effective to ensure that information required to be disclosed by us in reports that we file or submit under the Securities Exchange Act of 1934 is (1) recorded, processed, summarized, and reported within the time periods specified in Securities and Exchange Commission rules and forms, and (2) accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, in a manner that allows timely decisions regarding required disclosure.

There were no changes in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Securities Exchange Act of 1934) during the quarter ended August 27, 2023, that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION
