GENERAL MILLS, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

(1) Background

The accompanying Consolidated Financial Statements of General Mills, Inc. (we, us, our, General Mills, or the Company) have been prepared in accordance with accounting principles generally accepted in the United States (GAAP) for interim financial information and with the rules and regulations for reporting on Form 10-Q. Accordingly, they do not include certain information and disclosures required for comprehensive financial statements. In the opinion of management, all adjustments considered necessary for a fair presentation have been included and are of a normal recurring nature, including the elimination of all intercompany transactions and any noncontrolling interests' share of those transactions. Operating results for the fiscal quarter ended November 26, 2023, are not necessarily indicative of the results that may be expected for the fiscal year ending May 26, 2024.

These statements should be read in conjunction with the Consolidated Financial Statements and footnotes included in our Annual Report on Form 10-K for the fiscal year ended May 28, 2023. The accounting policies used in preparing these Consolidated Financial Statements are the same as those described in Note 2 to the Consolidated Financial Statements in that Form 10-K with the exception of new requirements adopted in the first quarter of fiscal 2024.

In the first quarter of fiscal 2024, we adopted optional accounting guidance to ease the burden in accounting for reference rate reform. The new standard provides temporary expedients and exceptions to existing accounting requirements for contract modifications and hedge accounting related to transitioning from discontinued reference rates. This resulted in modifying contracts, where necessary, to apply a new reference rate, primarily SOFR. The adoption of this accounting guidance did not have a material impact on our results of operations or financial position.

In the first quarter of fiscal 2024, we adopted new requirements for enhanced disclosures related to supplier financing programs. The new standard requires disclosure of the key terms of the program and a rollforward of the related obligation during the annual period, including the amount of obligations confirmed and obligations subsequently paid. We have historically presented the key terms of these programs and the associated obligation outstanding (please see Note 6). The rollforward requirement is effective in fiscal 2025. The adoption did not have a material impact on our financial statements and related disclosures.

Certain terms used throughout this report are defined in the "Glossary" section below.

(2) Acquisition and Divestiture

During the first quarter of fiscal 2023, we acquired TNT Crust, a manufacturer of high-quality frozen pizza crusts for regional and national pizza chains, foodservice distributors, and retail outlets, for a purchase price of \$253.0 million. We financed the transaction with U.S. commercial paper. We consolidated the TNT Crust business into our Consolidated Balance Sheets and recorded goodwill of \$156.7 million. The goodwill is included in the North America Foodservice segment and is not deductible for tax purposes. The pro forma effects of this acquisition were not material.

During the first quarter of fiscal 2023, we completed the sale of our Helper main meals and Suddenly Salad side dishes business to Eagle Family Foods Group for \$606.8 million and recorded a pre-tax gain of \$442.2 million.

(3) Restructuring, Impairment, and Other Exit Costs

Restructuring and impairment charges were as follows:

In Millions	Quarter Ended		Six-Month Period Ended	
	Nov. 26, 2023	Nov. 27, 2022	Nov. 26, 2023	Nov. 27, 2022
Goodwill impairment	\$ 117.1	\$ -	\$ 117.1	\$ -
Commercial strategy action	5.1	-	5.1	-
Charges associated with restructuring actions previously announced	9.7	11.6	19.5	13.9
Total	\$ 131.9	\$ 11.6	\$ 141.7	\$ 13.9

In the second quarter of fiscal 2024, we recorded a \$117.1 million non-cash goodwill impairment charge related to our Latin America reporting unit. Please see Note 4 for additional information.

In the second quarter of fiscal 2024, we approved a restructuring action to enhance the go-to-market commercial strategy and associated organizational structure of our Pet segment. We expect to incur approximately \$22 million of restructuring charges and project-related expenses related to this action, of which approximately \$4 million will be cash. These charges are expected to consist of approximately \$16 million of accelerated depreciation and \$6 million of other costs, including severance. We recognized \$2.4 million of accelerated depreciation and \$2.7 million of other costs, including severance, in the six-month period ended November 26, 2023. We expect this action to be completed by the end of fiscal 2026.

In the second quarter of fiscal 2024, we increased the estimate of restructuring charges that we expect to incur related to our previously announced actions in the International segment to drive efficiencies in manufacturing and logistics operations. As a result, we expect to incur an additional \$11 million of restructuring charges, primarily related to \$4 million of fixed asset impairments recorded in the second quarter of fiscal 2024 and \$4 million of accelerated depreciation. We expect to incur approximately \$36 million of restructuring charges and project-related costs, of which approximately \$18 million will be cash. These charges are expected to consist of approximately \$12 million of severance and \$24 million of other costs, primarily asset write-offs. We expect these actions to be completed by the end of fiscal 2025.

We recorded \$9.7 million of restructuring charges in the second quarter of fiscal 2024 and \$19.5 million of restructuring charges in the six-month period ended November 26, 2023, related to restructuring actions previously announced. We recorded \$11.6 million of restructuring charges in the second quarter of fiscal 2023 and \$13.9 million of restructuring charges in the six-month period ended November 27, 2022, related to restructuring actions previously announced. We expect these actions to be completed by the end of fiscal 2025.

We paid net \$18.6 million of cash in the six-month period ended November 26, 2023, related to restructuring actions. We paid net \$27.6 million of cash in the same period of fiscal 2023.

Restructuring and impairment charges and project-related costs are recorded in our Consolidated Statements of Earnings as follows:

The roll forward of our restructuring and other exit cost reserves, included in other current liabilities, is as follows:

In Millions	Total

Fiscal 2024 charges, including foreign currency translation	1.7
Utilized in fiscal 2024	(16.3)
Reserve balance as of Nov. 26, 2023	\$ 33.1

The reserve balance primarily consists of expected severance payments associated with restructuring actions.

The charges recognized in the roll forward of our reserves for restructuring and other exit costs do not include items charged directly to expense (e.g., asset impairment charges, accelerated depreciation, the gain or loss on the sale of restructured assets, and the write-off of spare parts) and other periodic exit costs are recognized as incurred, as those items are not reflected in our restructuring and other exit cost reserves on our Consolidated Balance Sheets.

Our annual goodwill and indefinite-lived intangible assets impairment test was performed on the first day of the second quarter of fiscal 2024. As a result of lower future profitability projections for our Latin America reporting unit, we determined that the fair value of the reporting unit was less than its book value and recorded a \$117.1 million non-cash goodwill impairment charge in restructuring, impairment, and other exit costs in our Consolidated Statements of Earnings. Our estimates of fair value for goodwill impairment testing were determined based on a discounted cash flow model and the fair value is a Level 3 asset in the fair value hierarchy.

All other intangible asset fair values were substantially in excess of the carrying values, except for the *True Chews* and *Uncle Toby's* brand intangible assets. In addition, while having significant coverage as of our fiscal 2024 assessment date, the *Progresso*, *Nudges*, *Top Chews*, and *EPIC* brand intangible assets had risk of decreasing coverage. We will continue to monitor these businesses for potential impairment.

(6) Risk Management Activities

Many commodities we use in the production and distribution of our products are exposed to market price risks. We utilize derivatives to manage price risk for our principal ingredients and energy costs, including grains (oats, wheat, and corn), oils (principally soybean), dairy products, natural gas, and diesel fuel. Our primary objective when entering into these derivative contracts is to achieve certainty with regard to the future price of commodities purchased for use in our supply chain. We manage our exposures through a combination of purchase orders, long-term contracts with suppliers, exchange-traded futures and options, and over-the-counter options and swaps. We offset our exposures based on current and projected market conditions and generally seek to acquire the inputs at as close as possible to or below our planned cost.

We use derivatives to manage our exposure to changes in commodity prices. We do not perform the assessments required to achieve hedge accounting for commodity derivative positions. Accordingly, the changes in the values of these derivatives are recorded currently in cost of sales in our Consolidated Statements of Earnings.

Although we do not meet the criteria for cash flow hedge accounting, we believe that these instruments are effective in achieving our objective of providing certainty in the future price of commodities purchased for use in our supply chain. Accordingly, for purposes of measuring segment operating performance, these gains and losses are reported in unallocated corporate items outside of segment operating results until such time that the exposure we are managing affects earnings. At that time, we reclassify the gain or loss from unallocated corporate items to segment operating profit, allowing our operating segments to realize the economic effects of the derivative without experiencing any resulting mark-to-market volatility, which remains in unallocated corporate items.

Unallocated corporate items for the quarters and six-month periods ended November 26, 2023, and November 27, 2022, included:

In Millions	Quarter Ended		Six-Month Period Ended	
	Nov. 26, 2023	Nov. 27, 2022	Nov. 26, 2023	Nov. 27, 2022

Net loss (gain) on commodity positions reclassified from unallocated corporate items to segment operating profit	14.6	(20.5)	17.8	(63.5)
Net mark-to-market revaluation of certain grain inventories	(1.5)	16.3	11.8	(43.1)
Net mark-to-market valuation of certain commodity positions recognized in unallocated corporate items	\$ (25.1)	\$ (25.1)	\$ 19.8	\$ (199.8)

As of November 26, 2023, the net notional value of commodity derivatives was \$420.8 million, of which \$162.5 million related to energy inputs and \$258.3 million related to agricultural inputs. These contracts relate to inputs that generally will be utilized within the next 12 months.

We also have net investments in foreign subsidiaries that are denominated in euros. As of November 26, 2023, we hedged a portion of these investments with €2,960.0 million of euro-denominated bonds.

The fair values of the derivative positions used in our risk management activities and other assets recorded at fair value were not material as of November 26, 2023, and were Level 1 or Level 2 assets and liabilities in the fair value hierarchy. We did not significantly change our valuation techniques from prior periods.

We offer certain suppliers access to third-party services that allow them to view our scheduled payments online. The third-party services also allow suppliers to finance advances on our scheduled payments at the sole discretion of the supplier and the third party. We have no economic interest in these financing arrangements and no direct relationship with the suppliers, the third parties, or any financial institutions concerning these services, including not providing any form of guarantee and not pledging assets as security to the third parties or financial institutions. All of our accounts payable remain as obligations to our suppliers as stated in our supplier agreements. As of November 26, 2023, \$1,388.2 million of our total accounts payable were payable to suppliers who utilize these third-party services. As of May 28, 2023, \$1,430.1 million of our total accounts payable were payable to suppliers who utilize these third-party services.

(8) Noncontrolling Interests

The third-party holder of the General Mills Cereals, LLC (GMC) Class A Interests receives quarterly preferred distributions from available net income based on the application of a floating preferred return rate to the holder's capital account balance established in the most recent mark-to-market valuation (currently \$251.5 million). The floating preferred return rate on GMC's Class A Interests is the sum of the three-month Term SOFR plus 186 basis points. The preferred return rate is adjusted every three years through a negotiated agreement with the Class A Interest holder or through a remarketing auction.

Our noncontrolling interests contain restrictive covenants. As of November 26, 2023, we were in compliance with all of these covenants.

(10) Stock Plans

We have various stock-based compensation programs under which awards, including stock options, restricted stock, restricted stock units, and performance awards, may be granted to employees and non-employee directors. These programs and related accounting are described in Note 12 to the Consolidated Financial Statements included in our Annual Report on Form 10-K for the fiscal year ended May 28, 2023.

Compensation expense related to stock-based payments recognized in the Consolidated Statements of Earnings was as follows:

Windfall tax benefits from stock-based payments in income tax expense in our Consolidated Statements of Earnings were as follows:

As of November 26, 2023, unrecognized compensation expense related to non-vested stock options, restricted stock units, and performance share units was \$ 149.8 million. This expense will be recognized over 23 months, on average.

Net cash proceeds from the exercise of stock options less shares used for withholding taxes and the intrinsic value of options exercised were as follows:

In Millions	Six-Month Period Ended	
	Nov. 26, 2023	Nov. 27, 2022
Net cash proceeds	\$ 5.7	\$ 118.5
Intrinsic value of options exercised	\$ 2.3	\$ 55.7

We estimate the fair value of each stock option on the grant date using a Black-Scholes option-pricing model. Black-Scholes option-pricing models require us to make predictive assumptions regarding future stock price volatility, employee exercise behavior, and dividend yield. We estimate our future stock price volatility using the historical volatility over the expected term of the option, excluding time periods of volatility we believe a marketplace participant would exclude in estimating our stock price volatility. We also have considered, but did not use, implied volatility in our estimate, because trading activity in options on our stock, especially those with tenors of greater than 6 months, is insufficient to provide a reliable measure of expected volatility. Our method of selecting the other valuation assumptions is explained in Note 12 to the Consolidated Financial Statements included in our Annual Report on Form 10-K for the fiscal year ended May 28, 2023.

The estimated fair values of stock options granted and the assumptions used for the Black-Scholes option-pricing model were as follows:

	Six-Month Period Ended	
	Nov. 26, 2023	Nov. 27, 2022
Estimated fair values of stock options granted	\$ 17.47	\$ 14.16

Expected term	8.5 years	8.5 years
Expected volatility	21.4 %	20.9 %
Dividend yield	2.8 %	3.1 %

The total grant date fair value of restricted stock unit awards that vested during the period was as follows:

(15) Income Taxes

During the second quarter of fiscal 2024, we received a notice of proposed adjustment from the Internal Revenue Service associated with a capital loss from fiscal 2019. We believe that we have meritorious defenses against this assessment and will vigorously defend our position. We do not expect the resolution of the proposed adjustment to have a material impact on our financial position or liquidity.

During the first quarter of fiscal 2023, the Inflation Reduction Act (IRA) was signed into law. The IRA introduces a Corporate Alternative Minimum Tax beginning in our fiscal 2024 and an excise tax on the repurchase of corporate stock starting after January 1, 2023. The IRA does not have a material impact on our financial results, including our annual estimated effective tax rates and liquidity.

(16) Contingencies

During fiscal 2020, we received notice from the tax authorities of the State of São Paulo, Brazil regarding our compliance with its state sales tax requirements. As a result, we have been assessed additional state sales taxes, interest, and penalties. We believe that we have meritorious defenses against this claim and will vigorously defend our position. As of November 26, 2023, we are unable to estimate any possible loss and have not recorded a loss contingency for this matter.

(17) Business Segment and Geographic Information

We operate in the packaged foods industry. Our operating segments are as follows: North America Retail, International, Pet, and North America Foodservice.

Our North America Retail operating segment reflects business with a wide variety of grocery stores, mass merchandisers, membership stores, natural food chains, drug, dollar and discount chains, convenience stores, and e-commerce grocery providers. Our product categories in this business segment include ready-to-eat cereals, refrigerated yogurt, soup, meal kits, refrigerated and frozen dough products, dessert and baking mixes, frozen pizza and pizza snacks, snack bars, fruit snacks, savory snacks, and a wide variety of organic products including ready-to-eat cereal, frozen and shelf-stable vegetables, meal kits, fruit snacks, and snack bars.

Our International operating segment consists of retail and foodservice businesses outside of the United States and Canada. Our product categories include super-premium ice cream and frozen desserts, meal kits, salty snacks, snack bars, dessert and baking mixes, shelf stable vegetables, and pet food products. We also sell super-premium ice cream and frozen desserts directly to consumers through owned retail shops. Our International segment also includes products manufactured in the United States for export, mainly to Caribbean and Latin American markets, as well as products we manufacture for sale to our international joint ventures. Revenues from export activities are reported in the region or country where the end customer is located.

Our Pet operating segment includes pet food products sold primarily in the United States and Canada in national pet superstore chains, e-commerce retailers, grocery stores, regional pet store chains, mass merchandisers, and veterinary clinics and hospitals. Our product categories include dog and cat food (dry foods, wet foods, and treats) made with whole meats, fruits, vegetables and other high-quality natural ingredients. Our tailored pet product offerings address specific dietary, lifestyle, and life-stage needs and span different product types, diet types, breed sizes for dogs, lifestages, flavors, product functions, and textures and cuts for wet foods.

Our North America Foodservice segment consists of foodservice businesses in the United States and Canada. Our major product categories in our North America Foodservice operating segment are ready-to-eat cereals, snacks, refrigerated yogurt, frozen meals, unbaked and fully baked frozen dough products, baking mixes, and bakery flour. Many products we sell are branded to the consumer and nearly all are branded to our customers. We sell to distributors and operators in many customer channels including foodservice, vending, and supermarket bakeries.

Operating profit for these segments excludes unallocated corporate items, gain or loss on divestitures, and restructuring, impairment, and other exit costs. Unallocated corporate items include corporate overhead expenses, variances to planned North American employee benefits and incentives, certain charitable contributions, restructuring initiative project-related costs, gains and losses on corporate investments, and other items that are not part of our measurement of segment operating performance. These include gains and losses arising from the revaluation of certain grain inventories and gains and losses from mark-to-market valuation of certain commodity positions until passed back to our operating segments. These items affecting operating profit are centrally managed at the corporate level and are excluded from the measure of segment profitability reviewed by executive management. Under our supply chain organization, our manufacturing, warehouse, and distribution activities are substantially integrated across our operations in order to maximize efficiency and productivity. As a result, fixed assets and depreciation and amortization expenses are neither maintained nor available by operating segment.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

INTRODUCTION

This Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) should be read in conjunction with the MD&A included in our Annual Report on Form 10-K for the fiscal year ended May 28, 2023, for important background regarding, among other things, our key business drivers. Significant trademarks and service marks used in our business are set forth in *italics* herein. Certain terms used throughout this report are defined in the "Glossary" section below.

We expect the largest factors impacting our performance in fiscal 2024 will be the economic health of consumers, the moderating rate of input cost inflation, and the increasing stability of the supply chain environment. We anticipate input cost inflation of approximately 5 percent in fiscal 2024 and expect to generate higher levels of Holistic Margin Management (HMM) cost savings compared to fiscal 2023.

CONSOLIDATED RESULTS OF OPERATIONS

Second Quarter Results

In the second quarter of fiscal 2024, net sales and organic net sales decreased 2 percent compared to the same period last year. Operating profit increased 2 percent to \$812 million, primarily driven by favorable net price realization and mix and lower selling, general and administrative (SG&A) expenses, including a decrease in certain compensation and benefits expenses, partially offset by goodwill impairment and restructuring charges, a decrease in contributions from volume growth, and higher input costs. Operating profit margin of 15.8 percent increased 50 basis points. Adjusted operating profit of \$989 million increased 13 percent on a constant-currency basis, primarily driven by favorable net price realization and mix and lower SG&A expenses, including a decrease in certain compensation and benefits expenses, partially offset by a decrease in contributions from volume growth and higher input costs. Adjusted operating profit margin increased 240 basis points to 19.3 percent. Diluted earnings per share of \$1.02 increased 1 percent in the second quarter of fiscal 2024. Adjusted diluted earnings per share of \$1.25 increased 14 percent on a constant-currency basis compared to the second quarter of fiscal 2023. See the "Non-GAAP Measures" section below for a description of our use of measures not defined by GAAP.

(a) Measured in tons based on the stated weight of our product shipments.

Organic net sales decreased 2 percent in the second quarter of fiscal 2024 compared to the same period in fiscal 2023, driven by a decrease in contributions from organic volume growth, partially offset by favorable organic net price realization and mix.

Cost of sales decreased \$142 million to \$3,374 million in the second quarter of fiscal 2024 compared to the same period in fiscal 2023. The decrease was primarily driven by a \$153 million decline attributable to lower volume, partially offset by a \$6 million increase attributable to product rate and mix. We recorded a \$25 million net increase in cost of sales related to the mark-to-market valuation of certain commodity positions and grain inventories in second quarter of fiscal 2024, compared to a \$25 million net increase in the second quarter of fiscal 2023. We also recorded \$8 million of restructuring charges in cost of sales in the second quarter of fiscal 2024 (please refer to Note 3 to the Consolidated Financial Statements in Part I, Item 1 of this report). In the second quarter of fiscal 2023, we recorded a \$3 million charge related to a voluntary recall on certain international *Häagen-Dazs* ice cream products.

SG&A expenses decreased \$64 million to \$830 million in the second quarter of fiscal 2024, compared to the same period in fiscal 2023, primarily driven by a decrease in certain compensation and benefits expenses and net favorable corporate investment activity. SG&A expenses as a percent of net sales in the second quarter of fiscal 2024 decreased 90 basis points compared to the second quarter of fiscal 2023.

Restructuring, impairment, and other exit costs totaled \$124 million in the second quarter of fiscal 2024, compared to \$11 million in the same period last year. In the second quarter of fiscal 2024, we recorded a \$117 million non-cash goodwill impairment charge related to our Latin America reporting unit. In the second quarter of fiscal 2024, we approved a restructuring action to enhance the go-to-market commercial strategy and related organizational structure of our Pet segment, and as a result, recorded \$4 million of charges. In addition, we also recorded \$2 million of charges in the second quarter of fiscal 2024 related to actions previously announced compared to \$11 million in the same period last year (please refer to Note 3 to the Consolidated Financial Statements in Part I, Item 1 of this report).

Benefit plan non-service income totaled \$20 million in the second quarter of fiscal 2024, compared to \$22 million in the same period last year, primarily reflecting an increase in interest costs, partially offset by lower amortization of losses and higher expected return on plan assets.

Interest, net for the second quarter of fiscal 2024 totaled \$118 million, up \$26 million from the second quarter of fiscal 2023, primarily driven by higher interest rates and higher average long-term debt levels.

The **effective tax rate** for the second quarter of fiscal 2024 was 19.0 percent compared to 20.2 percent for the second quarter of fiscal 2023. The 1.2 percentage point decrease was primarily due to favorable changes in earnings mix by jurisdiction and certain nonrecurring discrete tax benefits in the second quarter of fiscal 2024. Our effective tax rate excluding certain items affecting comparability was 20.8 percent in the second quarter of fiscal 2024, compared to 21.1 percent in the same period last year (see the “Non-GAAP Measures” section below for a description of our use of measures not defined by GAAP). The 0.3 percentage point decrease was primarily due to favorable earnings mix by jurisdiction in the second quarter of fiscal 2024.

After-tax earnings from joint ventures for the second quarter of fiscal 2024 decreased to \$24 million compared to \$25 million in the same period in fiscal 2023, primarily driven by foreign currency exchange and higher input costs at Cereal Partners Worldwide (CPW) and Häagen-Dazs Japan, Inc. (HDJ), partially offset by higher net sales driven by favorable net price realization and mix at CPW and HDJ. On a constant-currency basis, after-tax earnings from joint ventures increased 5 percent (see the “Non-GAAP Measures” section below for a description of our use of measures not defined by GAAP).

The components of our joint ventures’ net sales growth are shown in the following table:

Six-Month Results

In the six-month period ended November 26, 2023, net sales and organic net sales increased 1 percent compared to the same period last year. Operating profit decreased 8 percent to \$1,742 million, primarily driven by a net gain on divestitures in fiscal 2023, higher input costs, goodwill impairment and restructuring charges, and a decrease in contributions from volume growth, partially offset by favorable net price realization and mix and a favorable change to the mark-to-market valuation of certain commodity positions and grain inventories. Operating profit margin of 17.3 percent decreased 170 basis points. Adjusted operating profit of \$1,888 million increased 7 percent on a constant-currency basis, primarily driven by favorable net price realization and mix, partially offset by higher input costs, a decrease in contributions from volume growth and an increase in certain SG&A expenses. LIQUIDITY AND CAPITAL RESOURCES

During the six-month period ended November 26, 2023, cash provided by operations was \$1,496 million compared to \$1,201 million in the same period last year. The \$295 million increase was mainly driven by a \$282 million increase in net earnings, excluding the \$431 million net divestitures gain in fiscal 2023.

Cash used by investing activities during the six-month period ended November 26, 2023, was \$316 million compared to cash provided by investing activities of \$125 million for the same period in fiscal 2023. During the first quarter of fiscal 2023, we completed the sale of the Helper main meals and Suddenly Salad side dishes business for \$607 million cash. In the first quarter of fiscal 2023, we acquired TNT Crust for \$252 million cash, net of cash acquired. In addition, we spent \$294 million on purchases of land, buildings, and equipment in the six months ended November 26, 2023, compared to \$227 million in the same period last year.

We paid \$691 million of dividends in the six-month period ended November 26, 2023, compared to \$648 million in the same period last year. We paid \$1,302 million for purchases of common stock for treasury in the six-month period ended November 26, 2023, compared to \$901 million in the same period in fiscal 2023. In addition, we had \$867 million of net debt issuances in the six-month period ended November 26, 2023, compared to \$253 million of net debt issuances in the same period a year ago.

As of November 26, 2023, we had \$473 million of cash and cash equivalents in foreign jurisdictions. In anticipation of repatriating funds from foreign jurisdictions, we record local country withholding taxes on our international earnings, as applicable. Furthermore, we may repatriate our cash and cash equivalents held by our foreign subsidiaries without such funds being subject to further U.S. income tax liability. Earnings prior to fiscal 2018 from our foreign subsidiaries remain permanently reinvested in those jurisdictions.

The following table details the fee-paid committed and uncommitted credit lines we had available as of November 26, 2023:

In Billions	Facility Amount	Borrowed Amount
Committed credit facility expiring April 2026	\$ 2.7	\$ -
Uncommitted credit facilities	0.6	0.1
Total committed and uncommitted credit facilities	\$ 3.3	\$ 0.1

The third-party holder of the General Mills Cereals, LLC (GMC) Class A Interests receives quarterly preferred distributions from available net income based on the application of a floating preferred return rate to the holder's capital account balance established in the most recent mark-to-market valuation (currently \$252 million). The floating preferred return rate on GMC's Class A Interests is the sum of three-month Term SOFR plus 186 basis points. The preferred return rate is adjusted every three years through a negotiated agreement with the Class A Interest holder or through a remarketing auction.

We have an option to purchase the Class A Interests for consideration equal to the then current capital account value, plus any unpaid preferred return and the prescribed make-whole amount. If we purchase these interests, any change in the third-party holder's capital account from its original value will be charged directly to retained earnings and will increase or decrease the net earnings used to calculate EPS in that period.

To ensure availability of funds, we maintain bank credit lines and have commercial paper programs available to us in the United States and Europe.

Certain of our long-term debt agreements, our credit facilities, and our noncontrolling interests contain restrictive covenants. As of November 26, 2023, we were in compliance with all of these covenants.

We have \$1,321 million of long-term debt maturing in the next 12 months that is classified as current, including \$500 million of 3.65 percent fixed-rate notes due February 15, 2024, and €750 million of floating-rate notes due November 8, 2024. We believe that cash flows from operations, together with available short- and long-term debt financing, will be adequate to meet our liquidity and capital needs for at least the next 12 months.

CRITICAL ACCOUNTING ESTIMATES

Our significant accounting policies are described in Note 2 to the Consolidated Financial Statements included in our Annual Report on Form 10-K for the fiscal year ended May 28, 2023. The accounting policies used in preparing our interim fiscal 2024 Consolidated Financial Statements are the same as those described in our Form 10-K with the exception of the new accounting requirements adopted in the first quarter of fiscal 2024. Please see Note 1 to the Consolidated Financial Statements in Part I, Item 1 of this report for additional information.

Our critical accounting estimates are those that have meaningful impact on the reporting of our financial condition and results of operations. These estimates include our accounting for revenue recognition, valuation of long-lived assets, intangible assets, stock-based compensation, income taxes, and defined benefit pension, other postretirement benefit, and postemployment benefit plans. The assumptions and methodologies used in the determination of those estimates as of November 26, 2023, are the same as those described in our Annual Report on Form 10-K for the fiscal year ended May 28, 2023.

Our annual goodwill and indefinite-lived intangible assets impairment test was performed on the first day of the second quarter of fiscal 2024. As a result of lower future profitability projections for our Latin America reporting unit, we determined that the fair value of the reporting unit was less than its book value and recorded a \$117 million non-cash goodwill impairment charge in restructuring, impairment, and other exit costs in our Consolidated Statements of Earnings. Our estimates of fair value for goodwill impairment testing were determined based on a discounted cash flow model using inputs from our long-range planning process to determine growth rates for sales and profits. Other significant assumptions include weighted average cost of capital rates, perpetuity growth assumptions, market comparables, and tax rates. The fair value is a Level 3 asset in the fair value hierarchy.

All other intangible asset fair values were substantially in excess of the carrying values, except for the *True Chews* and *Uncle Toby's* brand intangible assets. In addition, while having significant coverage as of our fiscal 2024 assessment date, the *Progresso*, *Nudges*, *Top Chews*, and *EPIC* brand intangible assets had risk of decreasing coverage. We will continue to monitor these businesses for potential impairment.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In November 2023, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2023-07 requiring enhanced segment disclosures. The ASU requires disclosure of significant segment expenses regularly provided to the chief operating decision maker (CODM) included within segment operating profit or loss. Additionally, the ASU requires a description of how the CODM utilizes segment operating profit or loss to assess segment performance. The requirements of the ASU are effective for annual periods beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024. For us, annual reporting requirements will be effective for our fiscal 2025 and interim reporting requirements will be effective beginning with our first quarter of fiscal 2026. Early adoption is permitted and retrospective application is required for all periods presented. We are in the process of analyzing the impact of the ASU on our related disclosures.

In December 2023, the FASB issued ASU 2023-09 requiring enhanced income tax disclosures. The ASU requires disclosure of specific categories and disaggregation of information in the rate reconciliation table. The ASU also requires disclosure of disaggregated information related to income taxes paid, income or loss from continuing operations before income tax expense or benefit, and income tax expense or benefit from continuing operations. The requirements of the ASU are effective for annual periods beginning after December 15, 2024, which for us is fiscal 2026. Early adoption is permitted and the amendments should be applied on a prospective basis. Retrospective application is permitted. We are in the process of analyzing the impact of the ASU on our related disclosures.

NON-GAAP MEASURES

We have included in this report measures of financial performance that are not defined by GAAP. We believe that these measures provide useful information to investors, and include these measures in other communications to investors.

For each of these non-GAAP financial measures, we are providing below a reconciliation of the differences between the non-GAAP measure and the most directly comparable GAAP measure, an explanation of why we believe the non-GAAP measure provides useful information to investors, and any additional material purposes for which our management or Board of Directors uses the non-GAAP measure. These non-GAAP measures should be viewed in addition to, and not in lieu of, the comparable GAAP measure.

Significant Items Impacting Comparability

Several measures below are presented on an adjusted basis. The adjustments are either items resulting from infrequently occurring events or items that, in management's judgment, significantly affect the year-to-year assessment of operating results.

The following are descriptions of significant items impacting comparability of our results.

Goodwill impairment

Non-cash goodwill impairment charge related to our Latin America reporting unit. Please see Note 4 to the Consolidated Financial Statements in Part I, Item 1 of this report.

Restructuring charges and project-related costs

Organic Net Sales Growth Rates

We provide organic net sales growth rates for our consolidated net sales and segment net sales. This measure is used in reporting to our Board of Directors and executive management and as a component of the measurement of our performance for incentive compensation purposes. We believe that organic net sales growth rates provide useful information to investors because they provide transparency to underlying performance in our net sales by excluding the effect that foreign currency exchange rate fluctuations, acquisitions, divestitures, and a 53rd week, when applicable, have on year-to-year comparability. A reconciliation of these measures to reported net sales growth rates, the relevant GAAP measures, are included in our Consolidated Results of Operations and Results of Segment Operations discussions in the MD&A above.

Adjusted Operating Profit Growth on a Constant-currency Basis

This measure is used in reporting to our Board of Directors and executive management and as a component of the measurement of our performance for incentive compensation purposes. We believe that this measure provides useful information to investors because it is the operating profit measure we use to evaluate operating profit performance on a comparable year-to-year basis. The measure is evaluated on a constant-currency basis by excluding the effect that foreign currency exchange rate fluctuations have on year-to-year comparability given the volatility in foreign currency exchange rates.

Our adjusted operating profit growth on a constant-currency basis is calculated as follows:

	Quarter Ended			Six-Month Period Ended

Adjusted Diluted EPS and Related Constant-currency Growth Rates

This measure is used in reporting to our Board of Directors and executive management. We believe that this measure provides useful information to investors because it is the profitability measure we use to evaluate earnings performance on a comparable year-to-year basis.

The reconciliation of our GAAP measure, diluted EPS, to adjusted diluted EPS and the related constant-currency growth rates follows:

Per Share Data	Quarter Ended			Six-Month Period Ended

Constant-currency After-tax Earnings from Joint Ventures Growth Rates

We believe that this measure provides useful information to investors because it provides transparency to underlying performance of our joint ventures by excluding the effect that foreign currency exchange rate fluctuations have on year-to-year comparability given volatility in foreign currency exchange markets.

After-tax earnings from joint ventures growth rates on a constant-currency basis are calculated as follows:

	Percentage Change in After-Tax Earnings from Joint Ventures as Reported	Impact of Foreign Currency Exchange	Percentage Change in After-Tax Earnings from Joint Ventures on Constant-Currency Basis
Quarter Ended Nov. 26, 2023	(5)%	(9)pts	5 %
Six-Month Period Ended Nov. 26, 2023	6 %	(8)pts	14 %

Note: Table may not foot due to rounding.

Net Sales Growth Rates for Our Canada Operating Unit on Constant-currency Basis

We believe that this measure of our Canada operating unit net sales provides useful information to investors because it provides transparency to the underlying performance for the Canada operating unit within our North America Retail segment by excluding the effect that foreign currency exchange rate fluctuations have on year-to-year comparability given volatility in foreign currency exchange markets.

Net sales growth rates for our Canada operating unit on a constant-currency basis are calculated as follows:

	Percentage Change in Net Sales as Reported	Impact of Foreign Currency Exchange	Percentage Change in Net Sales on Constant- Currency Basis
Quarter Ended Nov. 26, 2023	7 %	(2)pts	9 %
Six-Month Period Ended Nov. 26, 2023	4 %	(2)pts	6 %

Constant-currency Segment Operating Profit Growth Rates

We believe that this measure provides useful information to investors because it provides transparency to underlying performance of our segments by excluding the effect that foreign currency exchange rate fluctuations have on year-to-year comparability given volatility in foreign currency exchange markets.

Our segments' operating profit growth rates on a constant-currency basis are calculated as follows:

Quarter Ended Nov. 26, 2023

Glossary

AOCI. Accumulated other comprehensive income (loss).

Adjusted diluted EPS. Diluted EPS adjusted for certain items affecting year-to-year comparability.

Adjusted operating profit. Operating profit adjusted for certain items affecting year-to-year comparability.

Adjusted operating profit margin. Operating profit adjusted for certain items affecting year-over-year comparability, divided by net sales.

Constant currency. Financial results translated to United States dollars using constant foreign currency exchange rates based on the rates in effect for the comparable prior-year period. To present this information, current period results for entities reporting in currencies other than United States dollars are translated into United States dollars at the average exchange rates in effect during the corresponding period of the prior fiscal year, rather than the actual average exchange rates in effect during the current fiscal year. Therefore, the foreign currency impact is equal to current year results in local currencies multiplied by the change in the average foreign currency exchange rate between the current fiscal period and the corresponding period of the prior fiscal year.

Core working capital. Accounts receivable plus inventories less accounts payable.

Derivatives. Financial instruments such as futures, swaps, options, and forward contracts that we use to manage our risk arising from changes in commodity prices, interest rates, foreign exchange rates, and stock prices.

Euribor. Euro Interbank Offered Rate.

Fair value hierarchy. For purposes of fair value measurement, we categorize assets and liabilities into one of three levels based on the assumptions (inputs) used in valuing the asset or liability. Level 1 provides the most reliable measure of fair value, while Level 3 generally requires significant management judgment. The three levels are defined as follows:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2: Observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets or liabilities in active markets or quoted prices for identical assets or liabilities in inactive markets.

Level 3: Unobservable inputs reflecting management's assumptions about the inputs used in pricing the asset or liability.

Free cash flow. Net cash provided by operating activities less purchases of land, buildings, and equipment.

Generally Accepted Accounting Principles (GAAP). Guidelines, procedures, and practices that we are required to use in recording and reporting accounting information in our financial statements.

Goodwill. The difference between the purchase price of acquired companies plus the fair value of any noncontrolling and redeemable interests and the related fair values of net assets acquired.

Gross margin. Net sales less cost of sales.

Hedge accounting. Accounting for qualifying hedges that allows changes in a hedging instrument's fair value to offset corresponding changes in the hedged item in the same reporting period. Hedge accounting is permitted for certain hedging instruments and hedged items only if the hedging relationship is highly effective, and only prospectively from the date a hedging relationship is formally documented.

Holistic Margin Management (HMM). Company-wide initiative to use productivity savings, mix management, and price realization to offset input cost inflation, protect margins, and generate funds to reinvest in sales-generating activities.

Interest bearing instruments. Notes payable, long-term debt, including current portion, cash and cash equivalents, and certain interest bearing investments classified within prepaid expenses and other current assets and other assets.

Mark-to-market. The act of determining a value for financial instruments, commodity contracts, and related assets or liabilities based on the current market price for that item.

Net mark-to-market valuation of certain commodity positions. Realized and unrealized gains and losses on derivative contracts that will be allocated to segment operating profit when the exposure we are hedging affects earnings.

Net price realization. The impact of list and promoted price changes, net of trade and other price promotion costs.

Net realizable value. The estimated selling price in the ordinary course of business, less reasonably predictable costs of completion, disposal, and transportation.

Noncontrolling interests. Interests of subsidiaries held by third parties.

Notional amount. The amount of a position or an agreed upon amount in a derivative contract on which the value of financial instruments are calculated.

OCI. Other Comprehensive Income.

Organic net sales growth. Net sales growth adjusted for foreign currency translation, acquisitions, divestitures and a 53rd fiscal week, when applicable.

Project-related costs. Costs incurred related to our restructuring initiatives not included in restructuring charges.

Reporting unit. An operating segment or a business one level below an operating segment.

SOFR. Secured Overnight Financing Rate.

Strategic Revenue Management (SRM). A company-wide capability focused on generating sustainable benefits from net price realization and mix by identifying and executing against specific opportunities to apply tools including pricing, sizing, mix management, and promotion optimization across each of our businesses.

Supply chain input costs. Costs incurred to produce and deliver product, including costs for ingredients and conversion, inventory management, logistics, and warehousing.

Translation adjustments. The impact of the conversion of our foreign affiliates' financial statements to United States dollars for the purpose of consolidating our financial statements.

Working capital. Current assets and current liabilities, all as of the last day of our fiscal year.
