⁽¹⁾ Primarily relates to the fair value of the Deferred Purchase Obligation (as defined in Note 3 to Notes to Consolidated Financial Statements included in our Annual Report) associated with the ITRenew Transaction (as defined in Note 3), which was determined utilizing a Monte-Carlo model and takes into account our forecasted projections as it relates to the underlying performance of the business. The Monte-Carlo simulation model incorporates assumptions as to expected gross profits over the applicable achievement period, including adjustments for the volatility of timing and amount of the associated revenue and costs, as well as discount rates that account for the risk of the underlying arrangement and overall market risks. Any material change to these assumptions may result in a significantly higher or lower fair value of the Deferred Purchase Obligation. The change in value of the Deferred Purchase Obligation during the three and nine months ended September 30, 2023 was driven by the accretion of the obligation to present value.

There were no material items that were measured at fair value on a non-recurring basis at September 30, 2023 and December 31, 2022 other than (i) those disclosed in Note 2.p. to Notes to Consolidated Financial Statements included in our Annual Report, (ii) the redemption value of recently acquired noncontrolling interests and previously held equity interests (both as disclosed in Note 3) and (iii) assets acquired and liabilities assumed through our acquisitions that occurred during the nine months ended September 30, 2023, all of which are based on Level 3 inputs.

WEB WERKS

On July 7, 2023, we made our final contractual investment in the Web Werks JV (as defined in Note 4) of approximately 3,750,000 Indian rupees (or approximately \$45,300, based upon the exchange rate between the United States dollar and Indian rupee on the closing date of this investment) (the "Web Werks Transaction"). We recognized noncontrolling interests of approximately \$78,600 based upon the fair value attributable to these interests at the time of the Web Werks Transaction, of which approximately \$18,100 of the noncontrolling interests were determined to be a current liability and included as a component of Accrued expenses and other current liabilities on our Condensed Consolidated Balance Sheet.

CLUTTER

⁽⁶⁾ Goodwill is primarily attributable to the assembled workforce, expanded market opportunities and costs and other operating synergies anticipated upon the integration of the operations of us and the acquired businesses.

The preliminary purchase price allocations that are not finalized as of September 30, 2023 relate to the final assessment of the fair values of property, plant and equipment and intangible assets associated with the acquisitions we closed during the nine months ended September 30, 2023. Any adjustments to our estimates of purchase price allocations will be made in the periods in which the adjustments are determined, but no later than the one year measurement period, and the cumulative effect of such adjustments will be calculated as if the adjustments had been completed as of the applicable acquisition date. Adjustments recorded during the nine months ended September 30, 2023 were not material to our results from operations.

ITRENEW PRO FORMA FINANCIAL INFORMATION

On January 25, 2022, in order to expand our asset lifecycle management operations, we acquired an approximately 80% interest in ITRenew at an agreed upon purchase price of \$725,000, subject to certain working capital adjustments at, and subsequent to, the closing (the "ITRenew Transaction"). The unaudited consolidated pro forma financial information (the "Pro Forma Financial Information") below summarizes the combined results of Iron Mountain and ITRenew on a pro forma basis as if the ITRenew Transaction had occurred on January 1, 2021. The Pro Forma Financial Information is presented for informational purposes and is not necessarily indicative of the results of operations that would have been achieved if the acquisition had taken place on January 1, 2021. The Pro Forma Financial Information, for the periods presented, includes purchase accounting adjustments (including amortization of acquired customer and supplier intangible assets and depreciation of acquired property, plant and equipment) and related tax effects. We and ITRenew collectively incurred \$59,370 of operating expenditures to complete the ITRenew Transaction (including advisory and professional fees). These operating expenditures have been reflected within the results of operations in the Pro Forma Financial Information as if they were incurred on January 1, 2021.

In addition to our acquisition of ITRenew, we completed certain other acquisitions in 2023 and 2022. The Pro Forma Financial Information does not reflect these acquisitions due to the insignificant impact of these acquisitions on our consolidated results of operations.

4. INVESTMENTS

CLUTTER JOINT VENTURE

In February 2022, the joint venture formed by MakeSpace Labs, Inc. and us (the "MakeSpace JV") entered into an agreement with Clutter, Inc. pursuant to which the equityholders of the MakeSpace JV contributed their ownership interests in the MakeSpace JV, and Clutter, Inc.'s shareholders contributed their ownership interests in Clutter, Inc., to create a newly formed venture (the "Clutter JV"). In exchange for our 49.99% interest in the MakeSpace JV, we received an approximate 27% interest in the Clutter JV (the "Clutter Transaction"). As a result of the Clutter Transaction, we recognized a gain related to our contributed interest in the MakeSpace JV of approximately \$35,800, which was recorded to Other, net, a component of Other (income) expense, net, during the first quarter of 2022.

On June 29, 2023, we completed the Clutter Acquisition. In connection with the Clutter Acquisition, our previously held approximately 27% interest in the Clutter JV was remeasured to fair value at the closing date of the Clutter Acquisition. As a result, we recognized a loss of approximately \$38,000 to Other, net, a component of Other (income) expense, net, during the second quarter of 2023.

WEB WERKS JOINT VENTURE

In April 2021, we closed on an agreement to form a joint venture (the "Web Werks JV") with the shareholders of Web Werks India Private Limited, a colocation data center provider in India. Through December 31, 2022, we made two investments totaling approximately 7,500,000 Indian rupees (or approximately \$96,200, based upon the exchange rates between the United States dollar and Indian rupee on the closing date of each investment) in exchange for a noncontrolling interest in the form of convertible preference shares in the Web Werks JV. In July 2023, we made our final contractual investment in the Web Werks JV. See Note 3.

5. DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES

Derivative instruments we are party to include: (i) interest rate swap agreements (which are designated as cash flow hedges) and (ii) cross-currency swap agreements (which are designated as net investment hedges).

INTEREST RATE SWAP AGREEMENTS DESIGNATED AS CASH FLOW HEDGES

We utilize interest rate swap agreements designated as cash flow hedges to limit our exposure to changes in interest rates on a portion of our floating rate indebtedness. Certain of our interest rate swap agreements have notional amounts that will increase with the underlying hedged transaction. Under our interest rate swap agreements, we receive variable rate interest payments associated with the notional amount of each interest rate swap, based upon one-month Secured Overnight Financing Rate ("SOFR"), in exchange for the payment of fixed interest rates as specified in the interest rate swap agreements. Our interest rate swap agreements are marked to market at the end of each reporting period, representing the fair values of the interest rate swap agreements, and any changes in fair value are recognized as a component of Accumulated other comprehensive items, net. Unrealized gains are recognized as assets, while unrealized losses are recognized as liabilities.

In April 2023, in anticipation of the discontinuance of the London Interbank Offered Rate ("LIBOR") reference rate on June 30, 2023, we terminated interest rate swap agreements with notional amounts totaling \$350,000 that were indexed to the one-month LIBOR benchmark rate. The terminated swap agreements had associated unrealized gains at the termination date of approximately \$10,100. These gains are included in Accumulated other comprehensive items, net and will be reclassified into earnings as reductions to interest expense from the termination date through March 2024, the original maturity date of these interest rate swap agreements.

As of September 30, 2023 and December 31, 2022, we have approximately \$438,000 and \$354,800, respectively, in notional value outstanding on our interest rate swap agreements, with maturity dates ranging from October 2025 through February 2026.

CROSS-CURRENCY SWAP AGREEMENTS DESIGNATED AS A HEDGE OF NET INVESTMENT

We utilize cross-currency interest rate swaps to hedge the variability of exchange rate impacts between the United States dollar and the Euro. As of September 30, 2023 and December 31, 2022, we have approximately \$509,200 and \$469,200, respectively, in notional value outstanding on cross-currency interest rate swaps, with maturity dates ranging from August 2024 through February 2026.

We have designated these cross-currency swap agreements as hedges of net investments in certain of our Euro denominated subsidiaries and they require an exchange of the notional amounts at maturity. These cross-currency swap agreements are marked to market at the end of each reporting period, representing the fair values of the cross-currency swap agreements, and any changes in fair value are recognized as a component of Accumulated other comprehensive items, net. Unrealized gains are recognized as assets while unrealized losses are recognized as liabilities. The excluded component of our cross-currency swap agreements is recorded in Accumulated other comprehensive items, net and amortized to interest expense on a straight-line basis.

The Revolving Credit Facility and the Term Loan A are scheduled to mature on March 18, 2027. The Term Loan B is scheduled to mature on January 2, 2026. The remaining amount available for borrowing under the Revolving Credit Facility as of September 30, 2023 was \$1,196,037 (which amount represents the maximum availability as of such date). The weighted average interest rate in effect under the Revolving Credit Facility was 7.2% and 6.2% as of September 30, 2023 and December 31, 2022, respectively.

These guarantees are joint and several obligations of the Note Guarantors. The remainder of our subsidiaries do not guarantee the Parent Notes.

DEBT COVENANTS

The Credit Agreement, our bond indentures and other agreements governing our indebtedness contain certain restrictive financial and operating covenants, including covenants that restrict our ability to complete acquisitions, pay cash dividends, incur indebtedness, make investments, sell assets and take other specified corporate actions. The covenants do not contain a rating trigger. Therefore, a change in our debt rating would not trigger a default under the Credit Agreement, our bond indentures or other agreements governing our indebtedness. The Credit Agreement requires that we satisfy a net total lease adjusted leverage ratio and a fixed charge coverage ratio on a quarterly basis and our bond indentures require that, among other things, we satisfy a leverage ratio (not lease adjusted) or a fixed charge coverage ratio (not lease adjusted) as a condition to taking actions such as paying dividends and incurring indebtedness.

The Credit Agreement uses earnings before interest, taxes, depreciation and amortization and rent expense ("EBITDAR") based calculations and the bond indentures use earnings before interest, taxes, depreciation and amortization ("EBITDA") based calculations as the primary measures of financial performance for purposes of calculating leverage and fixed charge coverage ratios. The EBITDAR- and EBITDA-based leverage calculations include our consolidated subsidiaries, other than those we have designated as "Unrestricted Subsidiaries" as defined in the Credit Agreement and bond indentures. Generally, the Credit Agreement and the bond indentures use a trailing four fiscal quarter basis for purposes of the relevant calculations and require certain adjustments and exclusions for purposes of those calculations, which make the calculation of financial performance for purposes of those calculations under the Credit Agreement and bond indentures not directly comparable to Adjusted EBITDA as presented herein. We are in compliance with our leverage and fixed charge coverage ratios under the Credit Agreement, our bond indentures and other agreements governing our indebtedness as of September 30, 2023. Noncompliance with these leverage and fixed charge coverage ratios would have a material adverse effect on our financial condition and liquidity.

7. COMMITMENTS AND CONTINGENCIES

We are involved in litigation from time to time in the ordinary course of business, including litigation arising from damage to customer assets in our facilities caused by fires and other natural disasters. While the outcome of litigation is inherently uncertain, we do not believe any current litigation will have a material adverse effect on our consolidated financial condition, results of operations or cash flows.

We have estimated a reasonably possible range for all loss contingencies and believe it is reasonably possible that we could incur aggregate losses in addition to amounts currently accrued for all matters up to an additional \$18,000 over the next several years, of which certain amounts would be covered by insurance or indemnity arrangement.

FORWARD-LOOKING STATEMENTS

We have made statements in this Quarterly Report that constitute "forward-looking statements" as that term is defined in the Private Securities Litigation Reform Act of 1995 and other securities laws. These forward-looking statements concern our current expectations regarding our future results from operations, economic performance, financial condition, goals, strategies, investment objectives, plans and achievements. These forward-looking statements are subject to various known and unknown risks, uncertainties and other factors, and you should not rely upon them except as statements of our present intentions and of our present expectations, which may or may not occur. When we use words such as "believes", "expects", "anticipates", "estimates", "plans", "intends", "pursue", "will" or similar expressions, we are making forward-looking statements. Although we believe that our forward-looking statements are based on reasonable assumptions, our expected results may not be achieved, and actual results may differ materially from our expectations. In addition, important factors that could cause actual results to differ from expectations include, among others:

- our ability or inability to execute our strategic growth plan, including our ability to invest according to plan, grow our businesses (including through joint ventures), incorporate alternative technologies into our offerings, achieve satisfactory returns on new product offerings, continue our revenue management, expand and manage our global operations, complete acquisitions on satisfactory terms, integrate acquired companies efficiently and transition to more sustainable sources of energy;
- changes in customer preferences and demand for our storage and information management services, including as a result of the shift from paper and tape storage to alternative technologies that require less physical space;
- the impact of our distribution requirements on our ability to execute our business plan;
- the costs of complying with and our ability to comply with laws, regulations and customer requirements, including those relating to data privacy and cybersecurity issues, as well as fire and safety and environmental standards;
- the impact of attacks on our internal information technology ("IT") systems, including the impact of such incidents on our reputation and ability to compete and any litigation or disputes that may arise in connection with such incidents;
- our ability to fund capital expenditures;
- our ability to remain qualified for taxation as a real estate investment trust for United States federal income tax purposes ("REIT");
- changes in the political and economic environments in the countries in which we operate and changes in the global political climate;
- our ability to raise debt or equity capital and changes in the cost of our debt;
- our ability to comply with our existing debt obligations and restrictions in our debt instruments;
- the impact of service interruptions or equipment damage and the cost of power on our data center operations;
- the cost or potential liabilities associated with real estate necessary for our business;
- unexpected events, including those resulting from climate change or geopolitical events, could disrupt our operations and adversely affect our reputation and results of operations;
- failures to implement and manage new IT systems;
- other trends in competitive or economic conditions affecting our financial condition or results of operations not presently contemplated; and
- the other risks described in our periodic reports filed with the SEC, including under the caption "Risk Factors" in Part I, Item 1A of our Annual Report.

Except as required by law, we undertake no obligation to update any forward-looking statements appearing in this report.

OVERVIEW

The following discussions set forth, for the periods indicated, management's discussion and analysis of financial condition and results of operations. Significant trends and changes are discussed for the three and nine months ended September 30, 2023 within each section. Trends and changes that are consistent for both the three and nine month periods are not repeated and are discussed on a year to date basis only.

PROJECT MATTERHORN

In September 2022, we announced a global program designed to accelerate the growth of our business ("Project Matterhorn"). Project Matterhorn investments will focus on transforming our operating model to a global operating model. Project Matterhorn will focus on the formation of a solution-based sales approach that is designed to allow us to optimize our shared services and best practices to better serve our customers' needs. We will be investing to accelerate growth and to capture a greater share of the large, global addressable markets in which we operate. We expect to incur approximately \$150.0 million in costs annually related to Project Matterhorn from 2023 through 2025. Costs are comprised of (1) restructuring costs, which include (i) site consolidation and other related exit costs, (ii) employee severance costs and (iii) certain professional fees associated with these activities, and (2) other transformation costs, which include professional fees such as project management costs and costs for third party consultants who are assisting in the enablement of our growth initiatives. Restructuring and other transformation costs related to Project Matterhorn were not material for the three and nine months ended September 30, 2022. The following chart presents (in thousands) total Restructuring and other transformation costs related to Project Matterhorn from the inception of Project Matterhorn through September 30, 2023 and for the three and nine months ended September 30, 2023:

GENERAL

RESULTS OF OPERATIONS - KEY TRENDS

- We have experienced steady volume in our Global RIM Business segment, with organic storage rental revenue growth driven primarily by revenue management. We expect organic storage rental revenue growth to benefit from revenue management and volume to be relatively stable in the near term.
- Our organic service revenue growth is primarily due to increases in our service activity. We expect organic service revenue growth for the remainder of 2023 and into 2024 to benefit from our new and existing digital offerings, as well as our traditional services.
- We expect continued total revenue and Adjusted EBITDA growth for the remainder of 2023 and into 2024 as a result of our focus on new product and service offerings, innovation, customer solutions and market expansion in line with our Project Matterhorn objectives.

Cost of sales (excluding depreciation and amortization) and Selling, general and administrative expenses for the nine months ended September 30, 2023 consists of the following:

COST OF SALES

SELLING, GENERAL AND ADMINISTRATIVE EXPENSES

NON-GAAP MEASURES

ADJUSTED EBITDA

We define Adjusted EBITDA as net income (loss) before interest expense, net, provision (benefit) for income taxes, depreciation and amortization (inclusive of our share of Adjusted EBITDA from our unconsolidated joint ventures), and excluding certain items we do not believe to be indicative of our core operating results, specifically:

EXCLUDED

- Acquisition and Integration Costs (as defined below)
- Restructuring and other transformation
- (Gain) loss on disposal/write-down of property, plant and equipment, net (including real estate)
- Other (income) expense, net
- Stock-based compensation expense

Adjusted EBITDA Margin is calculated by dividing Adjusted EBITDA by total revenues. We also show Adjusted EBITDA and Adjusted EBITDA Margin for each of our reportable segments under "Results of Operations – Segment Analysis" below.

 p27_callout_ProjectedAdjustedEBITDA.jpg

Adjusted EBITDA excludes both interest expense, net and the provision (benefit) for income taxes. These expenses are associated with our capitalization and tax structures, which we do not consider when evaluating the operating profitability of our core operations. Adjusted EBITDA does not include depreciation and amortization expenses, in order to eliminate the impact of capital investments, which we evaluate by comparing capital expenditures to incremental revenue generated and as a percentage of total revenues. Adjusted EBITDA and Adjusted EBITDA Margin should be considered in addition to, but not as a substitute for, other measures of financial performance reported in accordance with accounting principles generally accepted in the United States of America ("GAAP"), such as operating income, net income (loss) or cash flows from operating activities.

ADJUSTED EPS

We define Adjusted EPS as reported earnings per share fully diluted from net income (loss) attributable to Iron Mountain Incorporated (inclusive of our share of adjusted losses (gains) from our unconsolidated joint ventures) and excluding certain items, specifically:

EXCLUDED

- Acquisition and Integration Costs
- Restructuring and other transformation
- Amortization related to the write-off of certain customer relationship intangible assets
- (Gain) loss on disposal/write-down of property, plant and equipment, net (including real estate)
- Other (income) expense, net
- Stock-based compensation expense
- Non-cash amortization related to derivative instruments
- Tax impact of reconciling items and discrete tax items

We do not believe these excluded items to be indicative of our ongoing operating results, and they are not considered when we are forecasting our future results. We believe Adjusted EPS is of value to our current and potential investors when comparing our results from past, present and future periods.

⁽¹⁾ The differences between our effective tax rates and our structural tax rate (or adjusted effective tax rates) for the three and nine months ended September 30, 2023 and 2022 are primarily due to (i) the reconciling items above, which impact our reported net income (loss) before provision (benefit) for income taxes but have an insignificant impact on our reported provision (benefit) for income taxes and (ii) other discrete tax items. Our structural tax rate for purposes of the calculation of Adjusted EPS for the three and nine months ended September 30, 2023 and 2022 was 13.3% and 16.5%, respectively. The Tax impact of reconciling items and discrete tax items is calculated using the current quarter's estimate of the annual structural tax rate. This may result in the current period adjustment plus prior period reported quarterly adjustments not summing to the full year adjustment.

⁽²⁾ Columns may not foot due to rounding.

FFO (NAREIT) AND FFO (NORMALIZED)

Funds from operations ("FFO") is defined by the National Association of Real Estate Investment Trusts as net income (loss) excluding depreciation on real estate assets, losses and gains on sale of real estate, net of tax, and amortization of data center leased-based intangibles ("FFO (Nareit)"). We calculate our FFO measures, including FFO (Nareit), adjusting for our share of reconciling items from our unconsolidated joint ventures. FFO (Nareit) does not give effect to real estate depreciation because these amounts are computed, under GAAP, to allocate the cost of a property over its useful life. Because values for well-maintained real estate assets have historically increased or decreased based upon prevailing market conditions, we believe that FFO (Nareit) provides investors with a clearer view of our operating performance. Our most directly comparable GAAP measure to FFO (Nareit) is net income (loss).

We modify FFO (Nareit), as is common among REITs seeking to provide financial measures that most meaningfully reflect their particular business ("FFO (Normalized)"). Our definition of FFO (Normalized) excludes certain items included in FFO (Nareit) that we believe are not indicative of our core operating results, specifically:

EXCLUDED

- Acquisition and Integration Costs
- Restructuring and other transformation
- (Gain) loss on disposal/write-down of property, plant and equipment, net (excluding real estate)
- Other (income) expense, net
- Stock-based compensation expense
- Non-cash amortization related to derivative instruments
- Real estate financing lease depreciation

CRITICAL ACCOUNTING ESTIMATES

Our discussion and analysis of our financial condition and results of operations are based upon our Condensed Consolidated Financial Statements, which have been prepared in accordance with GAAP. The preparation of these financial statements requires us to make estimates, judgments and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities at the date of the financial statements and for the period then ended. On an ongoing basis, we evaluate the estimates used. We base our estimates on historical experience, actuarial estimates, current conditions and various other assumptions that we believe to be reasonable under the circumstances. These estimates form the basis for making judgments about the carrying values of assets and liabilities and are not readily apparent from other sources. Actual results may differ from these estimates. Our critical accounting estimates include the following, which are listed in no particular order:

- Revenue Recognition
- Accounting for Acquisitions
- Impairment of Tangible and Intangible Assets
- Income Taxes

Further detail regarding our critical accounting estimates can be found in "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations" in our Annual Report, and the Consolidated Financial Statements and the Notes included therein. We have determined that no material changes concerning our critical accounting estimates have occurred since December 31, 2022.

⁽²⁾ Our organic revenue growth rate, which is a non-GAAP measure, represents the year-over-year growth rate of our revenues excluding the impact of business acquisitions, divestitures and foreign currency exchange rate fluctuations. Our organic revenue growth rate includes the impact of acquisitions of customer relationships.

TOTAL REVENUES

For the nine months ended September 30, 2023, the increase in reported revenue was primarily driven by organic storage rental revenue growth. Foreign currency exchange rate fluctuations decreased our reported revenue growth rate for the nine months ended September 30, 2023 by 0.6% compared to the prior year period.

STORAGE RENTAL REVENUE AND SERVICE REVENUE

Primary factors influencing the change in reported storage rental revenue and reported service revenue for the nine months ended September 30, 2023 compared to the nine months ended September 30, 2022 include the following:

STORAGE RENTAL REVENUE	- organic storage rental revenue growth driven by increased volume in faster growing markets and our Global Data Center Business segment and revenue management; and - a decrease of \$10.8 million due to foreign currency exchange rate fluctuations.
SERVICE REVENUE	- organic service revenue growth driven by increased service activity levels in our Global RIM Business, partially offset by service revenue declines in our asset lifecycle management business as a result of component price declines, partially offset by increased volume; and - a decrease of \$10.0 million due to foreign currency exchange rate fluctuations.

(GAIN) LOSS ON DISPOSAL/WRITE-DOWN OF PROPERTY, PLANT AND EQUIPMENT, NET

Gain on disposal/write-down of property, plant and equipment, net for the nine months ended September 30, 2023 was approximately \$19.0 million. Gain on disposal/write-down of property, plant and equipment, net for the nine months ended September 30, 2022 was approximately \$66.1 million.

OTHER EXPENSES, NET

INTEREST EXPENSE, NET

Interest expense, net increased by \$82.8 million to \$434.1 million in the nine months ended September 30, 2023 from \$351.3 million in the prior year period. The increase is primarily due to higher average debt outstanding during the nine months ended September 30, 2023 compared to the prior year period as well as an increase in our weighted average interest rate. Our weighted average interest rate, inclusive of the fees associated with our outstanding letters of credit, was 5.5% and 4.9% at September 30, 2023 and 2022, respectively. See Note 6 to Notes to Condensed Consolidated Financial Statements included in this Quarterly Report for additional information regarding our indebtedness.

OTHER (INCOME) EXPENSE, NET

Other (income) expense, net for the three and nine months ended September 30, 2023 and 2022 consists of the following (in thousands):

⁽¹⁾ The gains for the three months ended September 30, 2023 primarily consist of the impact of changes in the exchange rate of the British pound sterling against the United States dollar on our intercompany balances with and between certain of our subsidiaries.

⁽²⁾ Other, net for the nine months ended September 30, 2023 consists primarily of a loss of approximately \$38.0 million associated with the remeasurement to fair value of our previously held equity interest in the Clutter JV. See the *Investments* section of *Liquidity and Capital Resources* for additional information. We also recognized losses on our equity method investments and the change in value of the Deferred Purchase Obligation (as defined in Note 3 to Notes to Consolidated Financial Statements included in our Annual Report).

PROVISION FOR INCOME TAXES

We provide for income taxes during interim periods based on our estimate of the effective tax rate for the year. Our effective tax rates for the three and nine months ended September 30, 2023 and 2022 are as follows:

	THREE MONTHS ENDED SEPTEMBER 30,		NINE MONTHS ENDED SEPTEMBER 30,	
	2023 ⁽¹⁾	2022	2023 ⁽¹⁾	2022
Effective Tax Rate	9.8 %	11.0 %	16.4 %	10.7 %

⁽¹⁾ The primary reconciling items between the federal statutory tax rate of 21.0% and our overall effective tax rate for the three and nine months ended September 30, 2023 were the benefits derived from the dividends paid deduction and the differences in the tax rates to which our foreign earnings are subject. In addition, there were gains and losses recorded in Other (income) expense, net during the period, for which there was no tax impact.

NET INCOME (LOSS) AND ADJUSTED EBITDA

The following table reflects the effect of the foregoing factors on our net income (loss) and Adjusted EBITDA (in thousands):

	THREE MONTHS ENDED SEPTEMBER 30,		DOLLAR CHANGE	PERCENTAGE CHANGE
	2023	2022		
Net Income (Loss)	\$ 91,391	\$ 192,931	\$ (101,540)	(52.6)%

Primary factors influencing the change in revenue, Adjusted EBITDA and Adjusted EBITDA Margin in our Global Data Center Business segment for the nine months ended September 30, 2023 compared to the prior year period include the following:

- organic storage rental revenue growth from leases that commenced during the first nine months of 2023 and in prior periods, improved pricing and higher pass-through power costs, partially offset by churn of approximately 390 basis points;
- an increase in Adjusted EBITDA primarily driven by organic storage rental revenue growth; and
- a 140 basis point increase in Adjusted EBITDA Margin reflecting ongoing cost management and a decline in lower margin project revenue, partially offset by higher pass-through power costs.

Primary factors influencing the change in revenue and Adjusted EBITDA in Corporate and Other for the nine months ended September 30, 2023 compared to the prior year period include the following:

- a decrease in service revenue in our asset lifecycle management business as a result of component price declines, which we expect to improve from current levels, partially offset by increased volume; and
- a decrease in Adjusted EBITDA driven by the flow through of service revenue declines in our asset lifecycle management business.

LIQUIDITY AND CAPITAL RESOURCES

GENERAL

We expect to meet our short-term and long-term cash flow requirements through cash generated from operations, cash on hand, borrowings under our Credit Agreement (as defined below) and proceeds from monetizing a small portion of our total industrial real estate assets, as well as other potential financings (such as the issuance of debt). Our cash flow requirements, both in the near and long term, include, but are not limited to, capital expenditures, the repayment of outstanding debt, shareholder dividends, potential business acquisitions and normal business operation needs.

PROJECT MATTERHORN

As disclosed above, in September 2022, we announced Project Matterhorn. We estimate that the implementation of Project Matterhorn will result in costs of approximately \$150.0 million per year from 2023 through 2025. Total costs related to Project Matterhorn during the three and nine months ended September 30, 2023 were approximately \$38.9 million and \$121.4 million, respectively, and are included in Restructuring and other transformation in our Condensed Consolidated Statement of Operations. Total costs from inception of the program to September 30, 2023 were approximately \$163.3 million. Restructuring and other transformation costs related to Project Matterhorn were not material for the for the three and nine months ended September 30, 2022.

Our significant investing activity during the nine months ended September 30, 2023 included cash paid for capital expenditures of \$962.3 million. Additional details of our capital spending are included in the "Capital Expenditures" section below.

Financial instruments that potentially subject us to credit risk consist principally of cash and cash equivalents (including money market funds and time deposits) and accounts receivable. The only significant concentrations of liquid investments as of September 30, 2023 are related to cash and cash equivalents held in money market funds and time deposits. See Note 2.e. to Notes to Condensed Consolidated Financial Statements included in this Quarterly Report for information on our money market funds and time deposits.

⁽²⁾ Due to the discontinuance of the London Interbank Offered Rate ("LIBOR") reference rate on June 30, 2023, we transitioned the Term Loan B from an interest rate of LIBOR plus 1.75% to a synthetic LIBOR rate plus 1.75%, effective July 1, 2023. All other terms remain the same as what was disclosed in Note 7 to Notes to Consolidated Financial Statements included in our Annual Report.

VIRGINIA 3 CREDIT AGREEMENT

On August 31, 2023, Iron Mountain Data Centers Virginia 3, LLC, a wholly owned subsidiary of Iron Mountain Incorporated ("IMI"), entered into a credit agreement (the "Virginia 3 Credit Agreement") in order to partially fund the construction of a data center facility in Virginia. The Virginia 3 Credit Agreement consists of a term loan and a letter of credit facility. We have the option to borrow, in the form of term loans, an aggregate outstanding amount not to exceed \$275.0 million (the "Virginia 3 Term Loans"). The Virginia 3 Credit Agreement requires the payment of a commitment fee on any unused commitments at a rate of 0.75%. The Virginia 3 Term Loans bear interest at Secured Overnight Financing Rate ("SOFR") plus 2.50%. The Virginia 3 Credit Agreement is scheduled to mature on August 31, 2026, at which point all obligations will become due. We have two one-year options that allow us to extend the maturity date beyond August 31, 2026, subject to the conditions specified in the Virginia 3 Credit Agreement. As of September 30, 2023, we have \$26.1 million in outstanding borrowings in Virginia 3 Term Loans.

MAY 2023 OFFERING

On May 15, 2023, IMI completed a private offering of (in thousands):

SERIES OF NOTES	AGGREGATE PRINCIPAL AMOUNT	MATURITY DATE	INTEREST PAYMENT DUE	PAR CALL DATE ⁽¹⁾
7% Notes due 2029	\$ 1,000,000	February 15, 2029	February 15 and August 15	August 15, 2025

⁽¹⁾ We may redeem the 7% Notes due 2029 at any time, at our option, in whole or in part. Prior to the par call date, we may redeem the 7% Notes due 2029 at the redemption price or make-whole premium specified in the indenture governing the 7% Notes due 2029, together with accrued and unpaid interest to, but excluding, the redemption date. On or after the par call date, we may redeem the 7% Notes due 2029 at a price equal to 100% of the principal amount being redeemed, together with accrued and unpaid interest to, but excluding, the redemption date.

The 7% Notes due 2029 were issued at 100% of par. The total net proceeds of approximately \$990.0 million from the issuance of the 7% Notes due 2029, after deducting the initial purchasers' commissions, were used to repay a portion of the outstanding borrowings under our Revolving Credit Facility (as defined in Note 6 to Notes to Condensed Consolidated Financial Statements included in this Quarterly Report).

UK BILATERAL REVOLVING CREDIT FACILITY

Iron Mountain (UK) PLC and Iron Mountain (UK) Data Centre Limited (collectively, the "UK Borrowers") have a British pounds sterling Revolving Credit Facility (the "UK Bilateral Revolving Credit Facility") with Barclays Bank PLC. The maximum amount permitted to be borrowed under the UK Bilateral Revolving Credit Facility is 140.0 million British pounds sterling, which was fully drawn as of September 30, 2023. We have the option to request additional commitments of up to 125.0 million British pounds sterling, subject to conditions specified in the UK Bilateral Revolving Credit Facility.

On September 19, 2023, the UK Borrowers amended the UK Bilateral Revolving Credit Facility to extend the maturity date from September 24, 2024 to September 24, 2025. All other material terms of the UK Bilateral Revolving Credit Facility remain consistent with what was disclosed in Note 7 to Notes to Consolidated Financial Statements included in our Annual Report.

ACCOUNTS RECEIVABLE SECURITIZATION PROGRAM

On June 8, 2023, we amended the Accounts Receivable Securitization Program (as defined in Note 7 to Notes to Consolidated Financial Statements included in our Annual Report) to increase the maximum borrowing capacity from \$325.0 million to \$360.0 million. All other material terms of the Accounts Receivable Securitization Program remain the same as what was disclosed in Note 7 to Notes to Consolidated Financial Statements included in our Annual Report.

LETTERS OF CREDIT

As of September 30, 2023, we had outstanding letters of credit totaling \$38.4 million, of which \$4.5 million reduce our borrowing capacity under the Revolving Credit Facility. The letters of credit expire at various dates between October 2023 and July 2025.

DEBT COVENANTS

The Credit Agreement, our bond indentures and other agreements governing our indebtedness contain certain restrictive financial and operating covenants, including covenants that restrict our ability to complete acquisitions, pay cash dividends, incur indebtedness, make investments, sell assets and take other specified corporate actions. The covenants do not contain a rating trigger. Therefore, a change in our debt rating would not trigger a default under the Credit Agreement, our bond indentures or other agreements governing our indebtedness. The Credit Agreement requires that we satisfy a net total lease adjusted leverage ratio and a fixed charge coverage ratio on a quarterly basis and our bond indentures require that, among other things, we satisfy a leverage ratio (not lease adjusted) or a fixed charge coverage ratio (not lease adjusted) as a condition to taking actions such as paying dividends and incurring indebtedness.

The Credit Agreement uses earnings before interest, taxes, depreciation and amortization and rent expense ("EBITDAR") based calculations and the bond indentures use earnings before interest, taxes, depreciation and amortization ("EBITDA") based calculations as the primary measures of financial performance for purposes of calculating leverage and fixed charge coverage ratios. The EBITDAR- and EBITDA-based leverage calculations include our consolidated subsidiaries, other than those we have designated as "Unrestricted Subsidiaries" as defined in the Credit Agreement and bond indentures. Generally, the Credit Agreement and the bond indentures use a trailing four fiscal quarter basis for purposes of the relevant calculations and require certain adjustments and exclusions for purposes of those calculations, which make the calculation of financial performance for purposes of those calculations under the Credit Agreement and bond indentures not directly comparable to Adjusted EBITDA as presented herein. These adjustments can be significant. For example, the calculation of financial performance under the Credit Agreement and certain of our bond indentures includes (subject to specified exceptions and caps) adjustments for non-cash charges and for expected benefits associated with (i) completed acquisitions, (ii) certain executed lease agreements associated with our data center business that have yet to commence, and (iii) restructuring and other strategic initiatives. The calculation of financial performance under our other bond indentures includes, for example, adjustments for non-cash charges and for expected benefits associated with (i) completed acquisitions and (ii) events that are extraordinary, unusual or non-recurring.

Our leverage and fixed charge coverage ratios under the Credit Agreement as of September 30, 2023 are as follows:

	SEPTEMBER 30, 2023	MAXIMUM/MINIMUM ALLOWABLE
Net total lease adjusted leverage ratio	5.1	Maximum allowable of 7.0
Fixed charge coverage ratio	2.3	Minimum allowable of 1.5

We are in compliance with our leverage and fixed charge coverage ratios under the Credit Agreement, our bond indentures and other agreements governing our indebtedness as of September 30, 2023. Noncompliance with these leverage and fixed charge coverage ratios would have a material adverse effect on our financial condition and liquidity.

Our ability to pay interest on or to refinance our indebtedness depends on our future performance, working capital levels and capital structure, which are subject to general economic, financial, competitive, legislative, regulatory and other factors which may be beyond our control. There can be no assurance that we will generate sufficient cash flow from our operations or that future financings will be available on acceptable terms or in amounts sufficient to enable us to service or refinance our indebtedness or to make necessary capital expenditures.

DERIVATIVE INSTRUMENTS

INTEREST RATE SWAP AGREEMENTS

We utilize interest rate swap agreements designated as cash flow hedges to limit our exposure to changes in interest rates on a portion of our floating rate indebtedness. Certain of our interest rate swap agreements have notional amounts that will increase with the underlying hedged transaction. Under our interest rate swap agreements, we receive variable rate interest payments associated with the notional amount of each interest rate swap, based upon one-month SOFR, in exchange for the payment of fixed interest rates as specified in the interest rate swap agreements. Our interest rate swap agreements are marked to market at the end of each reporting period, representing the fair values of the interest rate swap agreements, and any changes in fair value are recognized as a component of Accumulated other comprehensive items, net. Unrealized gains are recognized as assets, while unrealized losses are recognized as liabilities.

In April 2023, in anticipation of the discontinuance of the LIBOR reference rate on June 30, 2023, we terminated interest rate swap agreements with notional amounts totaling \$350.0 million that were indexed to the one-month LIBOR benchmark rate. The terminated swap agreements had associated unrealized gains at the termination date of approximately \$10.1 million. These gains are included in Accumulated other comprehensive items, net and will be reclassified into earnings as reductions to interest expense from the termination date through March 2024, the original maturity date of these interest rate swap agreements.

As of September 30, 2023 and December 31, 2022, we have approximately \$438.0 million and \$354.8 million, respectively, in notional value outstanding on our interest rate swap agreements, with maturity dates ranging from October 2025 through February 2026.

CROSS-CURRENCY SWAP AGREEMENTS

We utilize cross-currency interest rate swaps to hedge the variability of exchange rate impacts between the United States dollar and the Euro. As of September 30, 2023 and December 31, 2022, we have approximately \$509.2 million and \$469.2 million, respectively, in notional value outstanding on cross-currency interest rate swaps, with maturity dates ranging from August 2024 through February 2026.

We have designated these cross-currency swap agreements as hedges of net investments in certain of our Euro denominated subsidiaries and they require an exchange of the notional amounts at maturity. These cross-currency swap agreements are marked to market at the end of each reporting period, representing the fair values of the cross-currency swap agreements, and any changes in fair value are recognized as a component of Accumulated other comprehensive items, net. Unrealized gains are recognized as assets while unrealized losses are recognized as liabilities. The excluded component of our cross-currency swap agreements is recorded in Accumulated other comprehensive items, net and amortized to interest expense on a straight-line basis.

ACQUISITIONS

WEB WERKS

On July 7, 2023, we made our final contractual investment in the Web Werks JV (as defined below) of approximately 3,750.0 million Indian rupees (or approximately \$45.3 million, based upon the exchange rate between the United States dollar and Indian rupee on the closing date of this investment) (the "Web Werks Transaction"). As a result of the Web Werks Transaction, our interest in the Web Werks JV increased to 63.39%, we assumed control of its board of directors and the financial results of the Web Werks JV are now consolidated within our Global Data Center Business segment. We recognized noncontrolling interests of approximately \$78.6 million based upon the fair value attributable to these interests at the time of the Web Werks Transaction, of which approximately \$18.1 million of the noncontrolling interests were determined to be a current liability and included as a component of Accrued expenses and other current liabilities on our Condensed Consolidated Balance Sheet.

CLUTTER

On June 29, 2023, in order to further expand our on-demand consumer storage business, we acquired 100% of the outstanding shares of Clutter Intermediate, Inc. and control of all assets of the Clutter JV (collectively, "Clutter") for total consideration of \$60.6 million (the "Clutter Acquisition"). The financial results of the Clutter JV are now consolidated within our Global RIM Business segment. In October 2023, we sold 15% of the equity interests in Clutter to certain former stakeholders of the Clutter JV for total consideration of \$7.5 million.

REGENCY TECHNOLOGIES

On October 30, 2023, in order to expand our asset lifecycle management operations, we entered into a definitive agreement, subject to customary closing conditions, to acquire RSR Partners, LLC (doing business as Regency Technologies), an IT asset disposition services provider with operations throughout the United States, for an initial purchase price of approximately \$200.0 million, with approximately \$125.0 million to be paid at closing and the remaining amount to be paid in 2025. The agreement also includes potential performance-based contingent consideration, which would be payable in 2027, if earned.

INVESTMENTS

CLUTTER JOINT VENTURE

In February 2022, the joint venture formed by MakeSpace Labs, Inc. and us (the "MakeSpace JV") entered into an agreement with Clutter, Inc. pursuant to which the equityholders of the MakeSpace JV contributed their ownership interests in the MakeSpace JV, and Clutter, Inc.'s shareholders contributed their ownership interests in Clutter, Inc., to create a newly formed venture (the "Clutter JV"). In exchange for our 49.99% interest in the MakeSpace JV, we received an approximate 27% interest in the Clutter JV (the "Clutter Transaction"). As a result of the Clutter Transaction, we recognized a gain related to our contributed interest in the MakeSpace JV of approximately \$35.8 million, which was recorded to Other, net, a component of Other (income) expense, net, during the first quarter of 2022.

On June 29, 2023, we completed the Clutter Acquisition. In connection with the Clutter Acquisition, our previously held approximately 27% interest in the Clutter JV was remeasured to fair value at the closing date of the Clutter Acquisition. As a result, we recognized a loss of approximately \$38.0 million to Other, net, a component of Other (income) expense, net, during the second quarter of 2023.

WEB WERKS JOINT VENTURE

In April 2021, we closed on an agreement to form a joint venture (the "Web Werks JV") with the shareholders of Web Werks India Private Limited, a colocation data center provider in India. Through December 31, 2022, we made two investments totaling approximately 7,500.0 million Indian rupees (or approximately \$96.2 million, based upon the exchange rates between the United States dollar and Indian rupee on the closing date of each investment) in exchange for a noncontrolling interest in the form of convertible preference shares in the Web Werks JV. In July 2023, we made our final contractual investment in the Web Werks JV.

JOINT VENTURE SUMMARY

The following joint ventures are accounted for as equity method investments and are presented as a component of Other within Other assets, net in our Condensed Consolidated Balance Sheets. The carrying values and equity interests in our joint ventures at September 30, 2023 and December 31, 2022 are as follows (in thousands):

	SEPTEMBER 30, 2023		DECEMBER 31, 2022	
	CARRYING VALUE	EQUITY INTEREST	CARRYING VALUE	EQUITY INTEREST
Web Werks JV	\$ —	— %	\$ 98,278	53.58 %
Joint venture with AGC Equity Partners	58,154	20.00 %	37,194	20.00 %
Clutter JV	—	— %	54,172	26.73 %

ITEM 4. CONTROLS AND PROCEDURES

DISCLOSURE CONTROLS AND PROCEDURES

The term "disclosure controls and procedures" is defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). These rules refer to the controls and other procedures of a company that are designed to ensure that information is recorded, processed, accumulated, summarized, communicated and reported to management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding what is required to be disclosed by a company in the reports that it files under the Exchange Act. As of September 30, 2023 (the "Evaluation Date"), we carried out an evaluation, under the supervision and with the participation of our management, including our chief executive officer and chief financial officer, of the effectiveness of our disclosure controls and procedures. Based upon that evaluation, our chief executive officer and chief financial officer concluded that, as of the Evaluation Date, our disclosure controls and procedures are effective.

CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING

Our management, with the participation of our principal executive officer and principal financial officer, is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act. Our internal control system is designed to provide reasonable assurance to our management and board of directors regarding the preparation and fair presentation of published financial statements.

During the three months ended September 30, 2023, we implemented a new version of our Enterprise Resource Planning system in certain markets as a part of an ongoing system upgrade. We took the necessary steps to monitor and maintain appropriate internal control over financial reporting during this upgrade. We also conducted evaluations prior to and after the implementation of the new system and confirmed that our internal control over financial reporting remains effective.

Except as described above, there were no changes in our internal control over financial reporting that occurred during the quarter ended September 30, 2023 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
