Item 5.02 Departure of Directors or Certain Officers; Election of Directors; Appointment of Certain Officers; Compensatory Arrangements of Certain Officers

On December 9, 2021, the Compensation Committee of the Board of Directors of Pfizer Inc. approved changes under the Pfizer Inc. Global Performance Plan, Amended and Restated January 2021 (Bonus Plan). The purpose of the company's Bonus Plan is to provide the company's executive officers and other participating employees, with an opportunity to earn annual cash incentive compensation based on individual performance from a bonus pool that is funded based on the achievement of preselected financial and pipeline performance goals over the performance year.

The annual bonus is funded based on Pfizer's performance against the financial and pipeline performance goals and the Bonus Plan pool funding may range from 0% to 200% of the aggregate target bonuses for the participants. Individual bonuses have been capped at 200% of the individual's target bonus. To strengthen the alignment between pay and performance, effective with the 2021 performance year bonus, the maximum percentage of each individual's target annual bonus that may be earned under the Bonus Plan, including with respect to the executive officers, will be increased to 250% to provide for greater ability to differentiate based on performance. Note, the cap on the maximum bonus funding of 200% is unchanged.

In addition, to align our bonus target methodology for all participants, effective for the 2022 performance year, the annual bonus target for all participants will be calculated based on bonus as a percent of salary earned during the year. Prior to this amendment, while virtually all participants used this approach, the executive officers and approximately 140 other executives had their bonus calculated as a percentage of salary midpoint for their salary grade.
